Privatising Culture Chin-tao Wu,2020-05-05 Corporate sponsorship and business involvement in the visual arts have
 become increasingly common features of our cultural lives From Absolut Vodka s sponsorship of art shows to ABN AMRO
 Bank s branding of Van Gogh s self portrait to advertise its credit cards we have borne witness to a new sort of patronage in
 which the marriage of individual talent with multinational marketing is beginning to blur the comfortable old distinctions
 between public and private Chin tao Wu s book is the first concerted attempt to detail the various ways in which business
 values and the free market ethos have come to permeate the sphere of the visual arts since the 1980s Charting the various
 shifts in public policy which first facilitated the entry of major corporations into the cultural sphere it analyses the roles of
 governments in injecting the principles of the free market into public arts agencies in particular the Arts Council in Great

Britain and the National Endowment for the Arts in the USA It goes on to study the corporate take over of art museums highlighting the ways in which cultural capital can be garnered by various social and business elites through commercial involvement in the arts and shows how corporations have succeeded in integrating themselves into the infrastructure of the art world itself by showcasing contemporary art in their own corporate premises Mapping for the first time the increasingly hegemonic position that corporations and corporate elites have come to occupy in the cultural arena this is a provocative contribution to the debate on public culture in Britain and America 1668 Peter Sahlins,2017-10-13 When animals and their symbolic representations in the Royal Menagerie in art in medicine in philosophy helped transform the French state and culture Peter Sahlins s brilliant new book reveals the remarkable and understudied animal moment in and around 1668 in which authors including La Fontaine whose Fables appeared in that year anatomists painters sculptors and especially the young Louis XIV turned their attention to nonhuman beings At the center of the Year of the Animal was the Royal Menagerie in the gardens of Versailles dominated by exotic and graceful birds In the unfolding of his original and sophisticated argument Sahlins shows how the animal bodies of the menagerie and others were critical to a dramatic rethinking of governance nature and the human The animals of 1668 helped to shift an entire worldview in France what Sahlins calls Renaissance humanimalism toward more modern expressions of classical naturalism and mechanism In the wake of 1668 came the debasement of animals and the strengthening of human animality including in Descartes s animal machine highly contested during the Year of the Animal At the same time Louis XIV and his intellectual servants used the animals of Versailles to develop and then to transform the symbolic language of French absolutism Louis XIV came to adopt a model of sovereignty after 1668 in which his absolute authority is represented in manifold ways with the bodies of animals and justified by the bestial nature of his human subjects 1668 explores and reproduces the king s animal collections in printed text weaving poetry and engraving all seen from a unique interdisciplinary perspective Sahlins brings the animals of 1668 together and to life as he observes them critically in their native habitats within the animal palace itself by Louis Le Vau the paintings and tapestries of Charles Le Brun the garden installations of Andr Le N tre the literary work of Charles Perrault and the natural history of his brother Claude the poetry of Madeleine de Scud ry the philosophy of Ren Descartes the engravings of S bastien Leclerc the transfusion experiments of Jean Denis and others The author joins the nonhuman and human agents of 1668 panthers and painters swans and scientists weasels and weavers in a learned and sophisticated treatment that will engage scholars and students of early modern France and Europe and readers broadly interested in the subject of animals in human history **Mineral Exploration and Development Act of 1991** United States.
