Entangled Evolutions Peter Gross, 2002-05-08 The revolutions of 1989 swept away Eastern Europe s communist governments and created expectations on the part of many observers that post communist media would lead the liberated societies in establishing and embracing democratic political cultures Peter Gross finds that it was utopian to hold such expectations of the media in societies in transition On the one hand those countries media professionals had all learned their jobs under the communist regimes and could not instantly transform themselves into guides for a politically

enabled populace Gross argues On the other hand newcomers to the media world even those who were notable literary figures viewed themselves as social and political leaders rather than mere informers and facilitators of the resocialization required to form new democracies The news media have remained highly politicized and partisan So how are the media civil society and political culture related in societies in transition And can changes in these relationships be anticipated To address these questions *Entangled Evolutions* examines media in post 1989 Eastern Europe It studies the effects of privatization of the media journalists relations to political figures institutional structures such as media laws professional journalistic culture and the media s relation to their market Sources include interviews with journalists and politicians sociological and political data from national surveys and media audience studies
