**Resources in Education** ,1999-10 International Publishing in the Netherlands, 1933-1945 Hendrik Edelman, 2010-09-24 International publishing in the Netherlands had a glorious tradition in the seventeenth and eighteenth centuries A remarkable revival took place after 1933 when several Dutch publishers began to issue books written by exiles of the Nazi regime in the German language The decline of German scholarly and scientific publishing during the same time inspired a number of other Dutch publishers to expand their programs or start new ones As the English language became more prominent internationally enterprising Dutch publishers began to explore these markets as well After the Germans invaded the Netherlands a number of printers began to produce finely printed books and pamphlets in many languages clandestinely as an act of defiance or to raise money for underground causes This book documents these trends and events in the form of a series of bio bibliographical portraits of the major participating publishers

**Centralblatt der Bauverwaltung** ,1892 **Zentralblatt der Bauverwaltung** ,1892 **Followership in Action** Melissa K. Carsten, Rob Koonce, Michelle C. Bligh, Marc Hurwitz, 2016-03-07 As the study of followership further escalates into the global mainstream of leadership studies this book proactively engages future leaders and followers in issues that they are likely to face in various everyday human resource development management and leadership contexts

**THE POSTMODERN CHALLENGE TO THE THEORY AND PRACTICE OF EDUCATIONAL ADMINISTRATION** 2003-01-01, 2003-01-01 Based on nearly a decade of scholarship this is a highly focused book on the implications of postmodernism for the construction and assessment of theory and practice in educational administration Current ideas of practice are deconstructed from the notions of sound research to the use of national standards in the preparation of educational leaders along with ways of examining and resolving the theory practice gap Part One of the book contains chapters dealing with the rise of postmodernism and describes its broad based dissent from a century of thought in the field including a penetrating examination of whether the concept of a field itself is viable Part Two of the book explores the many ramifications of postmodernism to practice

beginning with ideas concerning educational research These chapters tackle the tough issues of the efficacy of the Interstate Leaders Licensure Standards ISLLC and the national exam as examples of job deskilling and deprofessionalization in the guise of raising standards of preparation of future educational leaders Other chapters deal with deconstructing the popular managerial ideas contained in Stephen Covey s works and dispute Joe Murphy s call for a new center of gravity in the field as reinforcing the status quo Finally the book tackles the issue of the theory practice gap and indicates that new and progressive theories which anticipate problems of practice are what is required to deal with this persistent issue The book contains many helpful exhibits in understanding the issues concerning theory and practice as well as a glossary of terms most commonly found in postmodern discourse This book is designed for college and university programs engaged in the preparation of educational leaders for elementary secondary schools and college administrative positions
