Current British Directories, 1993 Nutritionism Gyorgy Scrinis, 2013-06-18 Popularized by Michael Pollan in his best selling *In Defense of Food* Gyorgy Scrinis's concept of nutritionism refers to the reductive understanding of nutrients as the key indicators of healthy food an approach that has dominated nutrition science dietary advice and food marketing Scrinis argues this ideology has narrowed and in some cases distorted our appreciation of food quality such that even highly processed foods may be perceived as healthful depending on their content of good or bad nutrients Investigating the butter versus margarine debate the battle between low fat low carb and other weight loss diets and the food industry's strategic promotion of nutritionally enhanced foods Scrinis reveals the scientific social and economic factors driving our modern fascination with nutrition Scrinis develops an original framework and terminology for analyzing the characteristics and consequences of nutritionism since the late nineteenth century He begins with the era of quantification in which the idea of protective nutrients caloric reductionism and vitamins curative effects took shape He follows with the era of good and bad nutritionism which set nutricentric dietary guidelines and defined the parameters of unhealthy nutrients and concludes with our current era of functional nutritionism in which the focus has shifted to targeted nutrients superfoods and optimal diets Scrinis's research underscores the critical role of nutrition science and dietary advice in shaping our relationship to food and our bodies and in heightening our nutritional anxieties He ultimately shows how nutritionism has aligned the demands and perceived needs of consumers with the commercial interests of food manufacturers and corporations Scrinis also offers an alternative paradigm for assessing the healthfulness of foods the food quality paradigm that privileges food production and processing quality cultural traditional knowledge and sensual practical experience and promotes less reductive forms of nutrition research and dietary advice **Walford's Guide to Reference Material: Science and technology** Albert John

Migrant City Panikos Panayi, 2020-04-07

The first history of London to show how immigrants have built, shaped, and made a great success of the capital city. London is now a global financial and multicultural hub in which over three hundred languages are spoken. But the history of London has always been a history of immigration. Panikos Panayi explores the rich and vibrant story of London from its founding two millennia ago by Roman invaders to Jewish and German immigrants in the Victorian period to the Windrush generation invited from Caribbean countries in the twentieth century. Panayi shows how migration has been fundamental to London's economic, social, political, and cultural development. Migrant City sheds light on the various ways in which newcomers have shaped London life, acting as cheap labour contributing to the success of its financial sector, its curry houses, and its football clubs. London's economy has long been driven by migrants from earlier continental financiers and more recent European Union citizens. Without immigration fueled by globalization, Panayi argues, London would not have become the world city it is today. *International Migration and Security* Elspeth Guild, Joanne van Selm, 2005-03-31

This book investigates value assessments regarding migrants in Europe, the USA, Canada, and Australia. While looking at issues such as security, human rights, legal systems, identity, racism, welfare, health, and labour. Paul Insel, Don Ross, Kimberley McMahon, Melissa Bernstein, 2010-04-07
