Breaking Records William Ruhlmann,2004-08-02 This book is intended as a survey history of the American record business as it developed during its first full century It already existed just barely when the century began and by the start of the twenty first century whatever its troubles it had become a very big business 785 million albums in 2000 might not have represented much of an increase over the previous year but it was still a lot of records The story of the industry's development is a financial and commercial one concerning sales competition and economic forces and it is also a musical one concerning musicians and songwriters The history of a country's music is to an extent the history of the country itself and much more could be said indeed much more has been said about that than can be attempted here But it is hoped that with this overview the reader will gain a certain perspective on that history and the way that the creation of an art form interacts with the machinery of its distribution or has thus far anyway **The Art of Mbira** Paul F. Berliner,2020-01-31 Growing out of the collaborative research of an American ethnomusicologist and Zimbabwean musician Paul F Berliner's The Art of Mbira documents the repertory for a keyboard instrument known generally as mbira At the heart of this work lies the analysis of the improvisatory processes that propel mbira music's magnificent creativity In this book Berliner provides insight into the communities of study performance and worship that surround mbira He chronicles how master player Cosmas Magaya and his associates have developed their repertory and practices over more than four decades shaped by musical interaction social and political dynamics in Zimbabwe and the global economy of the music industry At once a detailed exposition of the music's forms and practices it is also an indispensable historical and cultural guide to mbira in a changing world Together with Berliner and Magaya's compendium of mbira compositions Mbira's Restless Dance The Art of Mbira breaks new ground in the depth and specificity of its exploration of an African musical tradition and in the entwining of the authors collaborative voices It is a testament to the powerful relationship between music and social life and the rewards of lifelong musical study performance and friendship How The Beatles Destroyed Rock 'n' Roll Elijah Wald,2011-10 How the Beatles Destroyed Rock n Roll is an alternative history of American music that instead of recycling the familiar clichés of jazz and rock looks at what people were playing hearing and dancing to over the course of the 20th century using a wealth of original research curious quotations and an irreverent fascination with the oft despised commercial mainstream The changing faces of tradition : a report on the folk and traditional arts in the United States , Music Research Michael Ewans,Rosalind Halton,John A. Balkan Dance Anthony Shay,2007-12-03 This collection of essays examines popular forms of dance in the Balkan nations including detailed studies on the history and development of dance in Croatia Macedonia Serbia Romania and Greece among other nations The essays address the ways in which ethnic and national identity constitutes an important aspect of the performance of Balkan dance whether by state folk dance ensembles or immigrant groups in other countries Several essays also examine the unique popularity that Balkan dances and music have found among American audiences with special attention paid to the work of international folk dancer Dick Crum in promoting Balkan dance within the United States

Collaborative Ethnomusicology: New Approaches to Music Research between Indigenous and Non-Indigenous Australians Katelyn Barney,2014-12-01 Collaborative Ethnomusicology explores the processes benefits and challenges of collaborative ethnomusicological research between Indigenous and non Indigenous people in Australia While there are many examples of research and recordings that demonstrate close collaboration between Indigenous and non Indigenous Australians this volume is the first to focus on the ways these processes allow Indigenous and non Indigenous music researchers to work together and learn from each other Drawing on case studies from across Australia each chapter brings significant insights into the many positives and some of the discomforts in collaborative spaces highlighting the ongoing dialogue needed in order to improve relationships between Indigenous and non Indigenous people and inform the future of ethnomusicological research in Australia

Bohlman,2010-09-13 *Focus Music Nationalism and the Making of the New Europe* surveys the intersection of music and nationalism by tracing its historical development and documenting its persistence today Contrasting different types of music reveals how music expresses core ideas of nationalism for example folk music in the nineteenth century and popular music in the twenty first
