Legal Canons Jack M. Balkin, Sanford V. Levinson, 2000-08 Every discipline has its canon the set of standard texts approaches examples and stories by which it is recognized and which its members repeatedly invoke and employ Although the last twenty five years have seen the influence of interdisciplinary approaches to legal studies expand there has been little recent consideration of what is and what ought to be canonical in the study of law today Legal Canons brings together fifteen essays which seek to map out the legal canon and the way in which law is taught today In order to understand how the twin ideas of canons and canonicity operate in law each essay focuses on a particular aspect from contracts and constitutional law to questions of race and gender The ascendance of law and economics feminism critical race theory and gay legal studies as well as the increasing influence of both rational actor methodology and postmodernism are all scrutinized by the leading scholars in the field A timely and comprehensive volume Legal Canons articulates the need for and means to opening the debate on canonicity in legal studies Table of Contents Supplement to Constitutional Law William B.
