The World Geopolitics of Drugs, 1998/1999 Alain Labrousse, Laurent Laniel, 2013-06-29 The other report is published by the U S State Department and is more committed but only as far as the national interest of the world's only superpower is concerned Therefore the State Department report must be read while keeping in mind the state of U S relations with the countries concerned This report is accompanied by the so called certification process whose arbitrary character has often been stressed For instance Iran a country whose determination to fight the drug transit on its territory is well known more than 100 Iranian law enforcement agents die every year as a result was removed from the blacklist of decertified countries in the spring of 1999 precisely as it was inaugurating a policy of opening itself to external influence including that of the United States In retrospect this demonstrates that the U S government had decertified Iran in past years because it was viewed as an Islamic and terrorist country not because of its supposed involvement in drug trafficking Neither does the last State Department report explain why Haji Ayub Afridi a major Pakistani drug baron who had voluntarily surrendered to U S authorities returned to Pakistan in 1999 after spending a mere three and a half years in a U S prison
