1999 Nunavut Handbook:

The 1998 Nunavut Handbook Marion Soublière,1997 **The ... Nunavut Handbook** ,1999 **Nunavut** Jens Dahl,Jack Hicks,Peter Jull,2000 The Nunavut story told in this book by authors who have all been involved with Nunavut and Inuit politics for a very long time is an important one for indigenous peoples around the world and for anyone interested in indigenous issues Stressing the political dynamics of the beginning of Nunavut s autonomous life the authors provide a clear and accurate account of a remarkable political process Following an introductory focus on three fundamental questions Why did Nunavut come to life what are the challenges and opportunities to come and what is to be learned from this experience the book continues with an investigation of Nunavut its history and structure and the most recent developments and their impact on the people of Nunavut *A Place called Nunavut* Kim van Dam,2008-12-31 In 1999 Nunavut Territory was created in the Canadian Arctic The area is about 50 times as large as the Netherlands and is inhabited by a population of 30 000 85% of the population is Inuit the indigenous people in this area The central questions in this research project are what place or regional identities are being ascribed to Nunavut by different groups of people from within and from outside the region and how do these identities work In the process of the formation of the region the territorial Government of Nunavut is an important actor in producing a regional identity that is based on the cultural identity of the Inuit the Inuit Homeland This official regional identity creates a symbolic unity that is important in linking people to the region and through which the land the history and the people are united in a new territorial membership However there is no reason to assume that there is only one regional identity for Nunavut Different individuals or groups of people from within and from outside the region such as the people who live in one of the 25 communities and those who work for the multinational mining corporations or as tourist operators are also involved in the production and reproduction of identities for Nunavut They represent Nunavut for example as a place to live a resource region a wilderness or as a sustainable place Nunavut Government also links these alternative identities to the area because as a government they are not only interested in protecting Inuit culture but also aim to modernize the economy in order to enhance prosperity and well being As such the place identities are hybrid and identities that before were produced only by external actors are now also being produced by internal actors and vice versa
