**Science, Belief, Intuition** Lawrence Dh Wood MD PH.D, 2012-04-18 While building a strong program in Critical Care on foundations of excellence and compassion Dr Wood used two methods of inquiry and knowing Science looked outward with objective accurate reproducible measurements to falsify erroneous explanations Belief looked inward for purpose and meaning analyzing personal subjective issues like God which cannot be falsified for lack of a Godometer But when verified by the still small voice or intuition belief creates a spiritual source of knowing akin to the scientific method Recent books like War of the Worldviews assume science and spirituality are antagonistic debating which is better is like bringing a knife to a gunfight for both sides are vulnerable to

men to a higher level of maturity to lead more effectively and to love more fully living out God's purpose for their lives
