Hinga,2016 In *Cracks in the Schoolyard* Conchas challenges deficit models of schooling and turns school failure on its head Going beyond presenting critical case studies of social inequality and education this book features achievement cases that depict Latinos as active actors not hopeless victims in the quest for social and economic mobility Chapters examine the ways in which college students high school youth English language learners immigrant Latino parents queer homeless youth the children of Mexican undocumented immigrants and undocumented immigrant youth all work in local settings to improve their quality of life and advocate for their families and communities Taken together these counternarratives will help educators and policymakers fill the cracks in the schoolyard that often create disparity and failure for youth and young adults

Church emerging from the cracks Johann-Albrecht Meylahn,2013-01-01 The drawing *Christ of the Breadlines* by Fritz Eichenberg 1953 probably says all that this book wants to say about being church The church is a space in this world where heaven and earth reach out to each other It is a space in the world but not of the world as it is touched by heaven Christ is in the breadline yet one can recognise Him as He stands out in the breadline One can recognise him because of the hallow that surrounds him He is the incarnation within reality and through the incarnation the place within reality becomes holy not sacred as in separated but sanctified as differentiated offering an alternative within reality He brings a space that is marked not by the darkness and the vicious cycles of the world which dominate and enslave creation such as poverty but a space that breaks into this darkness with light as it is hallowed in hope What more can the church hope for than to be allowed to be a space of hallowed hope in the vicious systems of death in a postmodern and post Christian world This book would like to propose that it does not really matter if you start with theory Scripture and tradition or with context and practice because theology is circular or spiral and therefore there is no starting point as the two continually influences each other or one could even say the one interprets the other So for this book the best place to start is with where we are now the now of experience as this now of experience includes both theory and praxis There is no such thing as experience pure and simple as experience is always interpreted experience and the interpretation is done through the theory that has shaped and formed us Thus in this book we work with theory laden practice

Cracked Coverage Jimmie Lynn Reeves,Richard Campbell,1994 Carefully documenting the deceptions and excesses of television news coverage of the so called cocaine epidemic *Cracked Coverage* stands as a bold indictment of the backlash politics of the Reagan coalition and its implicit racism the mercenary outlook of the drug control establishment and the enterprising reporting of crusading journalism Blending theoretical and empirical analyses Jimmie L Reeves and Richard Campbell explore how TV news not only interprets reality in ways that reflect prevailing ideologies but is in many respects responsible for constructing that reality Their examination of the complexity of television and its role in American social cultural and political conflict is focused specifically on the ways in which American television during the Reagan years helped stage and legitimate the war on drugs

one of the great moral panics of the postwar era The authors persuasively argue for example that powder cocaine in the early Reagan years was understood and treated very differently on television and by the state than was crack cocaine which was discovered by the news media in late 1985 In their critical analysis of 270 news stories broadcast between 1981 and 1988 Reeves and Campbell demonstrate a disturbing disparity between the earlier presentation of the middle and upper class white drug offender for whom therapeutic recovery was an available option and the subsequent news treatment of the inner city black drug delinquent often described as beyond rehabilitation and subject only to intensified strategies of law and order Enlivened by provocative discussions of Nancy Reagan s antidrug activism the dramatic death of basketball star Len Bias and the myth of the crack baby the book argues that Reagan s war on drugs was at heart a political spectacle that advanced the reactionary agenda of the New and Religious Right an agenda that dismissed social problems grounded in economic devastation as individual moral problems that could simply be remedied by just saying no Wide ranging and authoritative Cracked Coverage Television News the Anti Cocaine Crusade and the Reagan Legacy is a truly interdisciplinary work that will attract readers across the humanities and social sciences in addition to students scholars journalists and policy makers interested in the media and drug related issues

Decolonial Options in Higher Education Sinfree Makoni, Chanel van der Merwe, 2025-06-03 In order for decolonization to avoid becoming yet another orthodoxy this book argues that it is necessary to recognize the neoliberal ideologies and imperatives that drive so much work in universities in both the Global Norths and Global Souths and to understand the enmeshment both historical and ongoing of universities in colonial practices The chapters interrogate both these issues and the terms in which they are usually critiqued in order to identify the cracks and fissures within institutions that may enable decolonization to be leveraged as a praxis and a means of radical change The chapters explore a range of issues across Higher Education including reparations allyship soft power academic publishing and the politics of race within the university together they represent an argument for the necessity of continually rethinking and re making the theories methods and assumptions of decolonization

Schultz,2017 This engaging book shows how teachers and schools are creating emergent democratic progressive education amidst the current context of high stakes accountability In this follow up to his bestseller *Spectacular Things Happen Along the Way* Schultz explores how today s rhetoric and restrictive mandates result in curriculum that fails to capture the attention of students For meaningful learning that develops transferable skills and engages students teachers and sometimes whole schools need to find spaces to teach in the cracks so that students can

connect with issues relevant to their lives Teaching in the Cracks provides both a theoretical and practical foundation for incorporating an action focused curriculum that meets academic standards and provides students with opportunities for agency and to use their voices in their own learning Through compelling examples Brian Schultz shares how educators can help students use their powers From the Foreword by Deborah Meier teacher principal and advocate This book is an invitation to rethink teaching from top to bottom to dive into classroom life as a passionate adventure in discovery and surprise From the Afterword by William Ayers education activist For teachers who genuinely seek to make a difference through their work this book will be a helpful resource Pedro A Noguera University of California Los Angeles

The Cracked Lookingglass Albert Wachtel, 1992 There are basic problems and if we can't solve them we should hold off on theorizing To begin at the beginning what was Father Flynn's great wish for the boy in The Sisters The uncle thinks he knows but is he right Can we be sure How And how about the beginning and end of An Encounter How do they fit together What is the specific import to the boy in Araby of the shards of conversation between the salesgirl and the Britishers Can we or Eveline be certain of Frank's motives in her story If not what relevance do they have And how in A Portrait of the Artist as a Young Man do Stephen's use and understanding of art evolve In what crucial respects do they fall short of the understanding a careful reader of the novel can attain What in Ulysses does Buck Mulligan have in mind when he demands twopence for a pint of what And in what ways are Bloom's ruminations about things like mity cheese that digests all but itself and saltwater fish Why is it that they are not crucial to the novel There are bigger questions What roles do all the accidental occurrences play Do they heighten or diminish causality and probability What are the functions of allusion and stylistic experimentation Is there any overriding significance to the whole Is there a didactic component in Joyce's writing If so is the didactic element a flaw in his art What is the relationship between art and instruction in Joyce and in general Is good didactic art a contradiction in terms These latter questions are enticing but to speculate theorize deconstruct or decontextualize Joyce's works with regard to them without a firm understanding and perhaps even answers to the vital though sometimes seemingly trivial former questions is to abrogate critical responsibility and relinquish what one of the formative giants of the twentieth century has to say to us When relevant the former are almost always answerable and the mundane answers often surprising are frequently crucial not only for answering the latter questions but for fresh insight into both Joyce's world and our own By mapping routes to the revelations such mundane facts yield The Cracked Lookingglass establishes a firm base for future interpretations of Joyce's stories from Dubliners through Ulysses It approaches his works as fictional histories grounding its exemplary readings in relationships among the underlying facts of Joyce's created worlds The study presents both a method of inquiry and as examples of its fruit some of the ways in which the apparent undiscoverables of Joyce's fiction disclose new and indisputable insights into his characters and stories and through them our world The approach opens avenues of access to the depths of Dubliners to the assessments of art religion and human relationships in A Portrait of the Artist as a Young

Man to the necessitous underpinnings of Joyce's experimentation in *Ulysses* the ground and justification of his uses of psychocausal chance the mythical method and the seemingly gratuitous stylistic experiments that mirror our lives and suggest new directions for them

Whispers of the Ice Jenn Gott, 2018-06-08 The last thing that Praxis Fellows expected was to ever return to her family's home but when Pon Lanali seizes control of Durland and danger looms behind every corner there is no other choice While Yandosia may not be Praxis's favorite place only the Fellows can provide a safe haven for her and Kaedrich Mannly Except that things at home aren't quite what Praxis planned on With the fate of the family company hanging in the balance rivalries and betrayals become common ground and now something darker is lurking unburied from the deepest depths of the mine How long can Praxis and Kaedrich resist being drawn into the quagmire of family politics And just how much damage is Lanali doing to Kaedrich's own home up north while the two of them are stuck under the ice

Inverse and Crack Identification Problems in Engineering Mechanics Georgios E. Stavroulakis, 2013-11-21 Inverse and crack identification problems are of paramount importance for health monitoring and quality control purposes arising in critical applications in civil aeronautical nuclear and general mechanical engineering Mathematical modeling and the numerical study of these problems require high competence in computational mechanics and applied optimization This is the first monograph which provides the reader with all the necessary information Delicate computational mechanics modeling including nonsmooth unilateral contact effects is done using boundary element techniques which have a certain advantage for the construction of parametrized mechanical models Both elastostatic and harmonic or transient dynamic problems are considered The inverse problems are formulated as output error minimization problems and they are theoretically studied as a bilevel optimization problem also known as a mathematical problem with equilibrium constraints Beyond classical numerical optimization soft computing tools neural networks and genetic algorithms and filter algorithms are used for the numerical solution The book

provides all the required material for the mathematical and numerical modeling of crack identification testing procedures in statics and dynamics and includes several thoroughly discussed applications for example the impact echo nondestructive evaluation technique Audience The book will be of interest to structural and mechanical engineers involved in nondestructive testing and quality control projects as well as to research engineers and applied mathematicians who study and solve related inverse problems People working on applied optimization and soft computing will find interesting problems to apply to their methods and all necessary material to continue research in this field

A Crack in the Mirror Jay Ruby, 2016-11-11 Like Conrad's Marlow whose tale of journeying into the heart of darkness gives us as much insight into one man's personality as it does into the mysteries of the dark world he explored so the anthropologist's record of another culture contains more than objective scientific data about his investigation Embedded within it are clues to the personality of anthropology itself the attitudes approaches even prejudices that at any given stage in history are inextricable from the ideology of the anthropologist Therefore the mirror he holds up to show us another culture can never be a perfect one His own professional attitude toward his subject as well as his choice of medium are factors that create cracks in the mirror of anthropology through which we believe we view the life of other cultures Hence the concept of reflexivity and the striving to recognize how it warps in the portrayal of anthropological truth lie at the core of the twelve finely wrought essays collected in this volume Wide ranging in geography as well as viewpoint they highlight various methods and media film ethnography text through which an anthropologist chooses to portray a culture and the various forms such as art theater and ritual through which a culture portrays itself Recognizing the link between these two processes provides the key to cultural and methodological self awareness Reflexivity is defined and clarified in the introduction and in three of the essays and the remaining nine essays evince the principle through fieldwork and startling case studies Essays by Jay Ruby and Eric Michaels shed new light on the enormous potential of film and video showing how a form generally thought to be nonscientific can in fact give fresh insight into the scientific premises underlying the discipline's methodology Essays by Barbara Babcock and Carol Ann Parssinen focus on the novel and ethnography examining existing works Anthropologists as well as students of film art and theater will find that this intriguing work begins to redefine traditional distinctions between science and the arts and brings to light fresh resources that are utilized in the search for anthropological truth Contributors Richard Schechner Victor Turner Barbara Myerhoff Jay Ruby Eric Michaels Dennis Tedlock George Marcus Paul Rabinow Barbara Babcock Carol Ann Parssinen and Dan Rose
