ANTHONY BURTON

Craft Of The Inland Waterways

LL Leslie

Craft Of The Inland Waterways:

Craft of the Inland Waterways Anthony Burton, 2023-08-17 The book traces the history of the various craft that have been used for transport on Britain's rivers and canals from the earliest times to the present day The first section deals with the long history of the development of river craft from prehistoric log boats to the whole range of sailing barges such as the Humber keel and the Thames barge By the middle of the 18th century canal construction brought in a new generation of craft not just the familiar narrow boats but the wide boats such as the Leeds Liverpool short boats maintenance craft and even passenger boats Steam power was introduced in the 19th century for a variety of crafts from tugs to pleasure steamers while the 20th century brought in the diesel motors for boats and barges of all kinds Today there is still some commercial traffic but an ever increasing demand for boats for pleasure Much of this story is told in terms of preserved craft and is also based on the author's own experience aboard many of these craft whether crewing a Thames barge or working in the engine room of a Clyde puffer Discovering Craft of the Inland Waterways D. J. Smith, Donald John Smith, 1987 **Discovering Craft of the Inland Waterways** Donald John Smith, 1977-01 *Standards for the Use of Inland Waterways by Recreational Craft* Permanent International Association of Navigation Congresses. Permanent Commission for Sport and Recreational Navigation. Working Group no. 8, 2000 *Inland & Maritime Waterways & Ports* G. Willems, M. Abecasis, M. M. Catena, 2013-10-02 Inland sedimentation reduction and improving and maintaining navigable depths in alluvial channels integration of ocean coastal inland navigation and improvements of maritime ports and inland terminals The second section starts with discussions of the developments in the construction of ships navigational aids waterways and harbors traffic management and installations with particular emphasis on risk analysis and safety criteria regarding transportation unloading and storage of liquefied natural and petroleum gases Other topics covered in this section include economic optimization of the whole dredging cycle cargo handling systems and equipment design and construction of port facilities and arrangement of quay platforms and coastal erosion caused by harbor works and corrective measures This book will prove useful to design and navigation engineers and researchers *Craft of the Inland Waterways and Fishing Vessels on the Scheldt about 1900 ...* R. de Bock, 1942 Route Reconnaissance and Classification United States. Department of the Army, 1965 Field Manual United States.
