Craftsmen In Greek And Roman Society:

Craftsmen in Greek and Roman Society Alison Burford,1972 *Mosaics of the Greek and Roman World* Katherine M. D. Dunbabin,1999 This book provides a comprehensive account of mosaics in the ancient world from the early pebble mosaics of Greece to the pavements of Christian churches in the East Separate chapters in Part I cover the principal regions of the Roman Empire in turn in order to bring out the distinctive characteristics of their mosaic workshops Questions of technique and production of the role of mosaics in architecture and of their social functions and implications are treated in Part II The book discusses both well known works and recent finds and balances consideration of exceptional masterpieces against standard workshop production Two main lines of approach are followed throughout first the role of mosaics as a significant art form which over an unbroken span illuminates the evolution of pictorial style better than any comparable surviving medium and secondly their character as works of artisan production closely linked to their architectural context

Craftsmen in Greek and Roman Society Alison Burford,1972 **Roman Artisans and the Urban Economy** Cameron Hawkins,2016-07-19 Vividly reconstructs economic conditions in ancient Roman cities and the socio economic strategies of artisans who lived in them *The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7* Michael Gagarin,2010 **The Archaeology of the Roman Economy** Kevin Greene,1986 **Ravenna and the Traditions of Late Antique and Early Byzantine Craftsmanship** Salvatore Cosentino,2020-08-10 In the last twenty years scholarship on late antique and early medieval Ravenna has resulted in a certain number of publications mainly focused on the fields of architecture mosaics and archaeology On the contrary much less attention has been paid on labour both manual and intellectual as well as the structure of production and objects derived from manufacturing activities despite the fact that Ravenna is the place which preserves the highest number of historical evidence among all centres of the late Roman Mediterranean Its cultural heritage is vast and composite ranging from papyri to inscriptions from ivories to marbles as well as luxury objects pottery and coins Starting from concrete typologies of hand manufactured goods existing in the Ravennate milieu the book aims at exploring the multifaceted traditions of late antique and early Byzantine handicraft from the fourth to the eighth century AD Its perspective is to pay attention more on patronage social taste acculturation workers and the economic industry of production which supported the demand circulation and distribution of artefacts than on the artistic evaluation of the objects themselves *Work, Labour, and Professions in the Roman World* ,2016-10-11 The economic success of the Roman Empire was unparalleled in the West until the early modern period While favourable natural conditions capital accumulation technology and political stability all contributed to this economic performance ultimately depended on the ability to mobilize train and co ordinate human work efforts In *Work Labour and Professions in the Roman World* the authors discuss new insights ideas and interpretations on the role of labour and human resources in the Roman economy They study the various ways in which work was mobilised and organised and how these processes were regulated Work as a

production factor however is not the exclusive focus of this volume Throughout the chapters the contributors also provide an analysis of work as a social and cultural phenomenon in Ancient Rome Archaic and Classical Greece Michael Hewson Crawford, David Whitehead, 1983-01-13 A sourcebook in translation covering the history of Greece from archaic times through to the rise of Philip of Macedon Sources translated are mainly the Greek historians themselves **Environmental Problems of the Greeks and Romans** Johnson Donald Hughes, 2014-02-15 How did ancient societies change the environment and how do their actions continue to affect us today In this dramatically revised and expanded second edition of the work entitled *Pan's Travail* J Donald Hughes examines the environmental history of the classical period and argues that the decline of ancient civilizations resulted in part from their exploitation of the natural world Focusing on Greece and Rome as well as areas subject to their influences Hughes offers a detailed look at the impact of humans and their technologies on the ecology of the Mediterranean basin Evidence of deforestation in ancient Greece the remains of Roman aqueducts and mines and paintings on centuries old pottery that depict agricultural activities document ancient actions that resulted in detrimental consequences to the environment Hughes compares the ancient world's environmental problems to other persistent social problems and discusses attitudes toward nature expressed in Greek and Latin literature In addition to extensive revisions based on the latest research this new edition includes photographs from Hughes's worldwide excursions a new chapter on warfare and the environment and an updated bibliography **The Temple of Jerusalem: From Moses to the Messiah** Steven Fine, 2011-01-17 This volume is the product of the inaugural conference of the Yeshiva University Center for Israel Studies which took place on May 11-12 2008 Preface Art and Judaism in the Greco-Roman World Steven Fine, 2005-06-08 Publisher Description **Art, History and the Historiography of Judaism in Roman Antiquity** Steven Fine, 2013-10-10 Art History and the Historiography of Judaism in Roman Antiquity explores the complex interplay between visual culture texts and their interpretations arguing for an open ended and self aware approach to understanding Jewish culture from the first century CE through the rise of Islam The essays assembled here range from the thick description of Josephus's portrayal of Bezalel son of Uri as a Roman architect through the inscriptions of the Dura Europos synagogue Jewish reflections on Caligula in color the polychromy of the Jerusalem temple new old approaches to the zodiac and to the Christian destruction of ancient synagogues Taken together these essays suggest a humane approach to the history of the Jews in an age of deep and long lasting transitions both in antiquity and in our own time Taken as a whole Fine's book exhibits the value of bridging disciplines The historiographical segments integrated throughout this volume offer essential insights that will inform any student of Roman and late antiquity Yael Wilfand Hebrew University Review of Biblical Literature 2014 *The Oxford Classical Dictionary* Simon Hornblower, Antony Spawforth, Esther Eidinow, 2012-03-29 The revised third edition of the Oxford Classical Dictionary is the ultimate reference on the classical world containing over 6 200 entries The 2003 revision includes minor corrections and updates and all Latin and Greek words in the text are now

translated into English **The Class Struggle in the Ancient Greek World** G. E. M. Ste. Croix, 2025-07-01 The Class Struggle in the Ancient Greek World is an original and provocative reconstruction of 1 400 years of classical antiquity Sharply written it is a major intervention in Marxist theories of class seeking to explain and illustrate the value of Marx's general analysis of society to ancient Greek studies G E M de Ste Croix makes slavery central to the achievements of the Greek city states and wider classical civilisation He traces the social origins of Athenian democracy and advances an innovative explanation for the decline and fall of the Roman Empire Comparing the late Roman political system to a vampire bat Ste Croix argues that serfdom and a tightening fiscal screw left the peasant masses indifferent to the Empire's fate Widely reviewed and debated The Class Struggle in the Ancient Greek World was hailed by the New York Review of Books as the only work in a Western language that has ever attempted to tell the story of the greatest part of the ancient world with the interests of the lower classes as its central theme **The Eerdmans Encyclopedia of Early Christian Art and Archaeology** Finney, 2017 One of the most widely respected theological dictionaries put into one volume abridged form Focusing on the theological meaning of each word the abridgment contains English keywords for each entry tables of English and Greek keywords and a listing of the relevant volume and page numbers from the unabridged work at the end of each article or section *"The Poor, the Crippled, the Blind, and the Lame"* Louise A. Gosbell, 2018-08-03 The New Testament gospels feature numerous social exchanges between Jesus and people with various physical and sensory disabilities Despite this traditional biblical scholarship has not seen these people as agents in their own right but existing only to highlight the actions of Jesus as a miracle worker In this study Louise A Gosbell uses disability as a lens through which to explore a number of these passages anew Using the cultural model of disability as the theoretical basis she explores the way that the gospel writers as with other writers of the ancient world used the language of disability as a means of understanding organising and interpreting the experiences of humanity Her investigation highlights the ways in which the gospel writers reinforce and reflect as well as subvert culturally driven constructions of disability in the ancient world **The Concept of Work** Herbert A. Applebaum, 1992-01-01 Se analiza el concepto de trabajo desde el punto de vista de la civilizaci n occidental Se ofrece una proyecci n de lo que puede ser el trabajo en el futuro basado en las nuevas tecnolog as y en el contexto de las nuevas condiciones sociales creadas por las modernas culturas industriales **Technology in Transition A.D. 300-650** Luke Lavan, Enrico Zanini, Alexander Sarantis, 2008-03-31 This book is the first general work to be published on technology in Late Antiquity It seeks to survey aspects of the technology of the period and to respond to questions about technological continuity stagnation and decline The book opens with a comprehensive bibliographic essay that provides an overview of relevant literature The main section then explores technologies in agriculture production metal ceramics and glass engineering and building Papers draw on both archaeological and textual sources and on analogies with medieval and early modern technologies Reference is made not only to the periods which preceded it but to the transition to the Early Middle

Ages and to the technological heritage of Late Antiquity to the Islamic world Several papers focus on Italy whilst others consider North Africa Asia Minor and the Near East Luke's Portrait of Paul John Clayton Lentz, 1993 The purpose of this book is to seek a fuller understanding of how the characterisation of Paul in Acts would have been perceived by those who first read or heard the Lucan narrative As the author makes clear the careful reader of Acts should be amazed at the way St Paul is portrayed therein Dr Lentz demonstrates through a careful examination of particular texts the great improbability that a Jew of strict Pharisaic background would have held let alone been proud of Roman citizenship and citizenship of the city of Tarsus By investigating the social and legal expectations of the first century the author shows that Paul is seen to be deferred to in matters of legal minutiae by those in positions of authority He is given high social status and abundant moral virtue in order to attract to Christianity the high ranking citizen who would recognise in Paul the classical cardinal virtues
