Cranberry Harvest Joseph D. Thomas, 1990 **Cranberry Harvest** Joseph D. Thomas, 1990-01-01 **Historic Cultural Land Use Study of Lower Cape Cod** Richard D. Holmes, 1998 **Memories of Belonging: Descendants of Italian Migrants to the United States, 1884-Present** Christa Wirth, 2015-02-11

Memories of Belonging is a three generation oral history study of the offspring of southern Italians who migrated to Worcester Massachusetts in 1913. Supplemented with the interviewees private documents and working from U S and Italian archives Christa Wirth documents a century of transatlantic migration assimilation and later generation self identification. Her research reveals how memories of migration everyday life and ethnicity are passed down through the generations altered and contested while constituting family identities. The fact that not all descendants of Italian migrants moved into the U S middle class combined with their continued use of hyphenated identities points to a history of lived ethnicity and societal exclusion. Moreover this book demonstrates the extent of forgetting that is required in order to construct an ethnic identity.

Speculative Landscapes Ross Barrett, 2022-08-23

Speculative Landscapes offers the first comprehensive account of American artists financial involvements in and creative responses to the nineteenth century real estate economy. Examining the dealings of five painters who participated actively in this economy Daniel Huntington John Quidor Eastman Johnson Martin Johnson Heade and Winslow Homer Ross Barrett argues that the experience of property investment exposed artists to new ways of seeing and representing land inspiring them to develop innovative figural landscape and marine paintings that radically reworked visual conventions. This approach moved beyond just aesthetics however and the book traces how artists creatively interrogated the economic environmental and cultural dynamics of American real estate capitalism. In doing so *Speculative Landscapes* reveals how the provocative experience of land investment spurred painters to produce uniquely insightful critiques of the emerging real estate economy critiques that uncovered its fiscal perils and social costs and imagined spaces outside the regime of private property.
