Russia on the Edge Edith W. Clowes, 2011-04-15 Since the dissolution of the Soviet Union in 1991 Russians have confronted a major crisis of identity Soviet ideology rested on a belief in historical progress but the post Soviet imagination has obsessed over territory Indeed geographical metaphors whether axes of north vs south or geopolitical images of center periphery and border have become the signs of a different sense of self and the signposts of a new debate about Russian identity In *Russia on the Edge* Edith W. Clowes argues that refurbished geographical metaphors and imagined geographies provide a useful perspective for examining post Soviet debates about what it means to be Russian today Clowes lays out several sides of the debate She takes as a backdrop the strong criticism of Soviet Moscow and its self image as uncontested global hub by major contemporary writers among them Tatyana Tolstaya and Viktor Pelevin The most vocal visible and colorful rightist ideologue Aleksandr Dugin the founder of neo Eurasianism has articulated positions contested by such writers and thinkers as Mikhail Ryklin Liudmila Ulitskaia and Anna Politkovskaia whose works call for a new civility in a genuinely pluralistic Russia Dugin's extreme views and their many responses in fiction film philosophy and documentary journalism form the body of this book In *Russia on the Edge* literary and cultural critics will find the keys to a vital post Soviet writing culture For intellectual historians cultural geographers and political scientists the book is a guide to the variety of post Soviet efforts to envision new forms of social life even as a reconstructed authoritarianism has taken hold The book introduces nonspecialist readers to some of the most creative and provocative of present day Russia's writers and public intellectuals *The cranes are flying*, 2007 *A Preliminary Survey of Faunal Relations in National Parks* George Melendez Wright, Joseph Scattergood Dixon, Benjamin Hunter Thompson, 1933 **Bird Migration across the Himalayas** Herbert H. The beach combines water and a boundary and is the most resonant of the key sites to which film endings gravitate Although beach endings go back to at least 1910 they have increased markedly in post classical cinema and can be found across all genres and in films from many different countries As the leading example of the book s argument they illustrate both the aesthetic richness and the structural complexity of film endings Fauna of the National Parks of the United States ,1934

Conservation Bulletin ,1940 The World of Roman Song Thomas N. Habinek,2005-07-27 In this bold work Thomas Habinek offers an entirely new theoretical perspective on Roman cultural history Although English words such as literature and religion have their origins in Latin the Romans had no such specific concepts Rather much of the sense of these words was captured in the Latin word carmen usually translated into English as song Habinek argues that for the Romans song encompassed a wide range of ritualized speech including elements of poetry storytelling and even the casting of spells Habinek begins with the fraternal societies or sodalitates which predated the Republic and endured into the Imperial era and whose rites although adapted over time to different deities and cults were from the beginning centered on song perhaps most notably in the ancient Carmen Saliare He goes on to show how this early use of song became a paradigm for cultural reproduction throughout Roman history Ritual mastery of the chaos of everyday life embodied and enacted in song produced and transmitted the beliefs on which Roman culture was founded and by which Roman communities were sustained By the emergence of the Empire song in all of its senses served in particular to reproduce the power of the state organizing relations of power at every level of society Johns Hopkins University Press THE CRANES ARE FLYING (LETYAT ZHURAVLI) , Veronic and Boris are blissfully in love until the eruption of World War II tears them apart Boris is sent to the front lines and then communication stops Meanwhile Veronica tries to ward off spiritual numbness while Boris draft dodging cousin makes increasingly forceful overtures Winner of the Palme dOr at the 1958 Cannes Film Festival The Role of the Physical Environment in Ancient Greek Seafaring Jamie Morton,2017-09-18 In this study of the world of ancient Greek mariners the relationship between the natural environment and the techniques and technology of seafaring is focused upon An initial description of the geology oceanography and meteorology of Greece and the Mediterranean is followed by discussion of the resulting sailing conditions such as physical hazards sea conditions winds and availability of shelter and environmental factors in sailing routes sailing directions and navigational techniques Appendices discuss winter and night sailing ship design weather prediction and related areas of socio maritime life such as settlement religion and warfare Wide ranging sources and illustrations are used to demonstrate both how the environment shaped many of the problems and constraints of seafaring and also that Greek mariners understanding of the environment was instrumental in their development of a highly successful seafaring tradition **UAV Networks and Communications** Jae H.
