Crashing The Gates The De Wasping Of Americas Power Elite:

Crashing the Gates Robert C. Christopher, 1989 Charts the gradual shift away from WASP domination in many major fields of endeavor like politics business academia etc *The Power of Privilege* Joseph A. Soares, 2007 An examination of why acceptance into America's most prestigious colleges remains beyond the reach of most students except those from high income professional families *Sharing the Dream* Dominic J. Pulera, 2006-02-20 States that White males matter very much to discussions of race ethnicity and gender in the US due to their numbers and the influence they wield This book explores the heterogeneity of white male America taking into account such factors as age ethnicity ideology social class regional background occupational status and sexual orientation *The Simpsons, Satire, and American Culture* M. Henry, 2012-09-25 How is *The Simpsons* a satirical artwork engaged with important social political and cultural issues In time for the twenty fifth anniversary Henry offers the first comprehensive understanding of the show as a satire and explores the ways in which *The Simpsons* participates in the so called culture war debates taking place in American society **Crashing the Gates** Robert C. Christopher, 1989 Charts the gradual shift away from WASP domination in many major fields of endeavor like politics business academia etc **Mazal Tov, Amigos! Jews and Popular Music in the Americas** Amalia Ran, Moshe Morad, 2016-01-12 Winner of the Jewish Music Special Interest Group Paper Prize of 2018 *Mazal Tov Amigos! Jews and Popular Music in the Americas* seeks to explore the sphere of Jews and Jewishness in the popular music arena in the Americas It offers a wide ranging review of new and old trends from an interdisciplinary standpoint including history musicology ethnomusicology ethnic studies cultural studies and even Queer studies The contribution of Jews to the development of the music industry in the United States Argentina or Brazil cannot be measured on a single scale Hence these essays seek to explore the sphere of Jews and popular music in the Americas and their multiple significances celebrating the contribution of Jewish musicians and Jewishness to the development of new musical genres and ideas **History and Memory in African-American Culture** Genevieve Fabre, Robert O'Meally, 1994-12-08 As Nathan Huggins once stated altering American history to account fully for the nation's black voices would change the tone and meaning the frame and the substance of the entire story Rather than a sort of Pilgrim's Progress tale of bold ascent and triumph American history with the black parts told in full would be transmuted into an existential tragedy closer Huggins said to Sartre's *No Exit* than to the vision of life in Bunyan The relation between memory and history has received increasing attention both from historians and from literary critics In this volume a group of leading scholars has come together to examine the role of historical consciousness and imagination in African American culture The result is a complex picture of the dynamic ways in which African American historical identity constantly invents and transmits itself in literature art oral documents and performances Each of the scholars represented has chosen a different site of memory from a variety of historical and geographical points and from different ideological theoretical and artistic perspectives Yet the book is unified by a common concern with the

construction of an emerging African American cultural memory The renowned group of contributors including Hazel Carby Werner Sollors V v Clark Catherine Clinton and Nellie McKay among others consists of participants of the five year series of conferences at the DuBois Institute at Harvard University from which this collection originated Conducted under the leadership of Genevieve Fabre Melvin Dixon and the late Nathan Huggins the conferences and as a result this book represent something of a cultural moment themselves and scholars and students of American and African American literature and history will be richer as a result

The Rise and Fall of Anglo-America Eric P. KAUFMANN, 2004 As the 2000 census demonstrated the Anglo Protestant ethnic core of the U S has all but dissolved This demographic shift has spawned a culture war within white America Kaufmann traces the conflict s roots from the rise of WASP America to its fall in the 1960s when social institutions finally began to reflect the nation s ethnic composition

Blacks in the Jewish Mind Seth Forman, 2000-10 Since the 1960s the relationship between Blacks and Jews has been a contentious one While others have attempted to explain or repair the break up of the Jewish alliance on civil rights Seth Forman here sets out to determine what Jewish thinking on the subject of Black Americans reveals about Jewish identity in the U S Why did American Jews get involved in Black causes in the first place What did they have to gain from it And what does that tell us about American Jews In an extremely provocative analysis Forman argues that the commitment of American Jews to liberalism and their historic definition of themselves as victims has caused them to behave in ways that were defined as good for Blacks but which in essence were contrary to Jewish interests They have not been able to dissociate their needs religious spiritual communal political from those of African Americans and have therefore acted in ways which have threatened their own cultural vitality Avoiding the focus on Black victimization and white racism that often infuses work on Blacks and Jews Forman emphasizes the complexities inherent in one distinct white ethnic group s involvement in America s racial dilemma

Wealth, Whiteness, and the Matrix of Privilege Jessica Holden Sherwood, 2012-07-10 Exclusive social clubs are traditionally an important site for the consolidation of upper class power Wealth Whiteness and the Matrix of Privilege shows that while the particulars of admission have changed these clubs remain socially significant incubators Having interviewed typically inaccessible members of exclusive clubs in the Northeast Jessica Holden Sherwood reports and analyzes what they have to say about who is in who is out and why The members talk frankly about their exclusiveness based on money and style but they are quick to point out that ethnically based exclusion is a thing of the past Club members also address the status of their women members which is at times distinctly second class The talk of country club members is shown to draw on elements in popular discourse And even if it s not their intention as club members exclude and account for their exclusion they contribute to reproducing class race and gender inequalities

The American Family Yasushi Watanabe, 2004-12-20 White middle class Americans are one of the most understudied groups in the anthropology of the United States perhaps because of their hegemonic presence in society This book offers the first ethnography of white middle class America from a non native perspective Yasushi Watanabe a Japanese anthropologist examines two social groups in the Boston area to reveal an intimate portrait of the American family These two groups are at opposite ends of the social spectrum in terms of religious ethnic and class backgrounds and in terms of cultural tastes and lifestyles The first group is upper middle class Anglo Saxon Protestant mostly Unitarian or Episcopalian often identified as archetypical middle class America This is a wealthy group that includes descendants of the Boston Brahmins one of America s oldest aristocratic families closely related to Democratic hopeful John Kerry The second group is working class or lower middle class Irish Catholic often referred to as Boston Irish Informed by a wide range of social theory The American Family is a fascinating study of family dynamics in modern America that explores how Americans construct their social realities and cultural histories and how modern society shapes their lived experience

The Transformation of American Politics David M. Ricci, Professor David M Ricci, 1993-01-01 Washington think tanks such as the Brookings Institution the American Enterprise Institute and the Heritage Foundation have become so large and influential in recent years that they now constitute virtually a new branch of the political system In this engrossing and lively book David M Ricci brilliantly explores the parallel and convergent social economic and political trends within America that have transformed government in Washington and led to the development and prestige of these public policy research centers Ricci argues that since the late 1960s Americans have lost sight of the familiar guidelines that used to help them assess issues and have become more hospitable to think tank research and advice He examines the flood of policy relevant information that has resulted from the growth of expertise and the advent of big government the confusion over national goals that comes from the decline of the Protestant ethic and the empowerment of minorities the growing influence of television and its focus on instant testimony from experts political changes such as the decline of parties the move to an open Congress and the growth of an independent presidency the pervasive power of modern marketing and much more According to Ricci policy ideas generated by think tank research and commentary are helpful in providing greater objectivity and political insight not only because of their general reliability but also because in their ideological variety think tanks generate a substantial range of policy proposals giving voice to a healthy factional pluralism and facilitating a constant testing of ideas In today s dissonant politics Ricci concludes think tanks contribute some order and occasionally wisdom in the ongoing battle in Washington over political ideas

Coexisting Contemporary Civilizations Guy Ankerl, 2000 Some important questions are discussed in this book Are there any civilisations other than the Western one living in our so called Global Age Eastern civilisation Is the concept of East anything more than non West Or does there exist in reality a distinct Chinese Indian Arabo Muslim and Western civilisation Is the construction of large civilisation states such as China and India an unparalleled historical achievement Do economic ties always eclipse other forms of affiliation such as those formed through kinship or between speech communities What is the role of the Latin and the Jewish Peoples in our Anglo American led Western world Is English today the global language or merely an international one Is the Chinese thought pattern closely related to its writing system Is today's world one of symmetrical interdependence Or rather one of hegemony If the so called North South or East West dialogue fails in constructing a universally accepted world civilisation then what is the appropriate arrangement for reaching such a consensus within humankind
