Crawley The Making Of A New Town:

Crawley Roger Bastable,1986 *Street Trees in Britain* Mark Johnston,2017-07-31 The trees which line many of the streets in our towns and cities can often be regarded as part of a heritage landscape Despite the difficult conditions of an urban environment these trees may live for 100 years or more and represent living history in the midst of our modern streetscapes This is the first book on the history of Britain s street trees and it gives a highly readable authoritative and often amusing account of their story from the tree lined promenades of the seventeenth century to the majestic boulevards that grace some of our modern city centers The impact of the Victorian street tree movement is examined not only in the major cities but also in the rapidly developing suburbs that continued to expand through the twentieth century There are fascinating descriptions of how street trees have helped to improve urban conditions in spa towns and seaside resorts and also in visionary initiatives such as the model villages garden cities garden suburbs and new towns While much of the book focuses on the social and cultural history of our street trees the last three chapters look at the practicalities of how these trees have been engineered into concrete landscapes This includes the many threats to street trees over the years such as pollution conflict with urban infrastructure pests and diseases and what is probably the greatest threat in recent times the dramatic growth in car ownership *Street Trees in Britain* will have particular appeal to those interested in heritage landscapes urban history and the natural and built environment Some of its themes were introduced in the author s previous work the widely acclaimed *Trees in Towns and Cities A History of British Urban Arboriculture*

The Planning of a New Town London County Council,2015-03-05 The publication of *The Planning of a New Town* in 1961 aroused remarkable interest Its pages described a private new town sponsored by the London County Council LCC to be built at Hook in Hampshire a scheme that innovatively combined Garden City New Town traditions with sensitivity to modern design At its heart lay a multilevel and megastructural town centre intended to serve as a genuine focus for the gathering community featuring shops and amenities placed on a pedestrian deck with cars and servicing beneath The report itself proved extremely popular even though the New Town had fallen foul of political opposition at local and national levels and had been abandoned before any construction took place It offers an insight into the flux of ideas that surrounded New Town development in the early 1960s Analysing the world as it might have been not only identifies choices that were once available for shaping the built environment it also often reveals once cherished hopes and aspirations about how people might live in cities

Place Tim Cresswell,2014-12-03 Thoroughly revised and updated this text introduces students of human geography and allied disciplines to the fundamental concept of place combining discussion about everyday uses of the term with the complex theoretical debates that have grown up around it A thoroughly revised and updated edition of this highly successful short introduction to place Features a new chapter on the use of place in non geographical arenas such as in ecological theory art theory and practice philosophy and social theory Combines discussion about everyday uses of the term place with

the more complex theoretical debates that have grown up around it Uses familiar stories drawn from the news popular culture and everyday life as a way to explain abstract ideas and debates Traces the development of the concept from the 1950s through its subsequent appropriation by cultural geographers and the linking of place to politics **New Towns** Frederic James Osborn, Arnold Whittick, 1977 Nieuwe steden ontstaan over de hele wereld als door de overheid aangewezen groeikernen of spontaan rond industrietakken universiteiten en toeristische plekken Dit boek is een historisch overzicht van een aantal nieuwe steden in Groot Brittannië en de manier waarop zij tot stand kwamen In de appendix is ook een overzicht opgenomen van nieuwe steden over de gehele wereld sinds 1900 met informatie over de targetpopulation en de behaalde bevolkingscijfers ten tijde van 1977 **The Urbanism of Frank Lloyd Wright** Neil Levine, 2016 This is the first book devoted to Frank Lloyd Wright's designs for remaking the modern city Stunningly comprehensive The Urbanism of Frank Lloyd Wright presents a radically new interpretation of the architect's work and offers new and important perspectives on the history of modernism Neil Levine places Wright's projects produced over more than fifty years within their historical cultural and physical contexts while relating them to the theory and practice of urbanism as it evolved over the twentieth century Levine overturns the conventional view of Wright as an architect who deplored the city and whose urban vision was limited to a utopian plan for a network of agrarian communities he called Broadacre City Rather Levine reveals Wright's larger more varied interesting and complex urbanism demonstrated across the span of his lengthy career Beginning with Wright's plans from the late 1890s through the early 1910s for reforming residential urban neighborhoods mainly in Chicago and continuing through projects from the 1920s through the 1950s for commercial mixed use civic and cultural centers for Chicago Madison Washington Pittsburgh and Baghdad Levine demonstrates Wright's place among the leading contributors to the creation of the modern city Wright's often spectacular designs are shown to be those of an innovative precursor and creative participant in the world of ideas that shaped the modern metropolis Lavishly illustrated with drawings plans maps and photographs this book features the first extensive new photography of materials from the Frank Lloyd Wright Foundation Archives The Urbanism of Frank Lloyd Wright will serve as one of the most important books on the architect for years to come **The New Towns** Frederic James Osborn, Arnold Whittick, 1963 **The Anatomy of the Village** Thomas Sharp, 2013-07-24 Thomas Sharp was a key figure in mid C20 British planning whose renown stems from two periods in his career First he came to attention as a polemical writer in the 1930s on planning issues including as a virulent opponent of garden cities His prose tempered over time and this phase perhaps culminated in Town Planning first published in 1940 and reputed to have sold over 250 000 copies Subsequently the plans he produced for historic towns in the 1940s such as Oxford were very well known and were influential in developing ideas of townscape Started as an official manual on village planning The Anatomy of the Village followed on from the Scott Report for which Sharp had been one of the Secretaries When the Ministry decided not to proceed with the publication Sharp himself published it in 1946 It became one of Sharp's best known

works with lucid prose and generous illustration by photograph and beautiful line drawings of village plans The aim of *The Anatomy of the Village* was to set out the main principles of village planning especially in relation to physical design *Anatomy* became a key text in thinking about villages in the post war period a period when there was great concern that settlements should develop in more sensitive ways than inter war ribbon and suburban development patterns The problems of poor quality development unrelated to settlement form was to continue to stimulate books such as Lionel Brett's *Landscape in Distress* and campaigns from the *Architectural Review* Reading the text today it still has much to offer while some of its assumptions about the level of services a village might support clearly belong to another era its beautiful and simple typological analyses of village form continue to be of relevance

Housing, States and Localities

Peter Dickens, Simon Duncan, Mark Goodwin, Fred Gray, 2025-11-18 A continual problem in modern societies is how housing of a good standard can be provided for all those who need it Some countries and some local areas within any one country have clearly succeeded better than others Originally published in 1985 *Housing States and Localities* shows how and why success and failure in housing provision come about It does this using comparative analysis of two countries Britain and Sweden and four localities within Britain Sheffield rural Norfolk Crawley and Brighton Variation in the levels and forms of housing provision are explained by variations in how housing is built how state policies are formed and how consumers react to their housing But the nature of these social relations varies from place to place and the book also relates differences in housing provision to the different characteristics of these states and localities It is very much an argument of the book that success and failure in housing can only be understood in the context of wider social conflicts and social orders The book also examines the strengths and weaknesses of comparative methodology and establishes a general strategy for urban and regional research one that recognizes the similar structures and processes encountered in capitalist societies but at the same time can deal with the actual situations specific to particular places at particular times

Industrial Location and Planning in the United Kingdom

David Keeble, 2022-06-01 First published in 1976 *Industrial Location and Planning in the United Kingdom* investigates in detail the nature of the changes taking place in the location of manufacturing industry since the 1950s and the reasons for them including the effects of government regional policy and of factors such as market accessibility labour availability and cost transport facilities and personal residential preferences by industrialists and workers The book brings together a wide range of published and unpublished material in discussing and evaluating explanations for regional and local manufacturing growth or decline Government regional policy and planning is singled out for special attention in terms of the impact of Development Area grants of local planning controls and of the town programmes Manufacturing movement to new locations and the implications of government regional policies for industrial efficiency are examined in detail together with the reasons for locational change in key but controversial industries such as steel motor vehicles and electronics This book will be of interest to students of urban planning manufacturing and development as well as city planners

Contains the 4th session of the 28th Parliament through the session of the Parliament Kodachrome Magnificence Tristan Hotham, 2021-03-20 This is a book about discovering your ancestors through the images they leave behind My grandpa died when I was very young but I am lucky he had a passion for photography as I can learn about his life through his eyes via his pictures He created thousands of slides covering both work and pleasure even better it was all in Kodachrome My grandfather worked as an architect and town planner he designed buildings and planned housing developments He was very influenced by European design spending 26 years building people houses and making life better for thousands He was also very well travelled photographing the world in beautiful colour from bullet ridden Beirut hotels to neon lit northern European backstreets he captured a world that is now lost This book gathers the best of his photography work across hundreds of images as yet unseen to the world we gain a glimpse into the world of post war architecture as well as what it was like to travel the world in the era before mass tourism Through high quality scans we can see through my grandfather s eyes via the lens of Kodak s Kodachrome An Historical Atlas of Sussex Kim Leslie, Brian Short, 1999 Sussex East and West has been well served by fine cartographers over the past four centuries but this exciting work is no mere collection of historic maps All 70 maps are completely new and original presenting the history of Sussex in a way never previously attempted Prepared by leading experts they plot a huge diversity of subject matter ranging from prehistoric times to the present day and each is accompanied by a text which places it in context and reveals a remarkable amount of new research From the geological structure of Sussex to the Saxon settlement that gave the county its name and from 17th century inns to the patterns of employment and commuting in the late 20th century including such contemporary issues as the Health Service education and planning so much of the past and the life of the county that can be illuminated by a map has been included This major new work of reference is the result of a partnership between the University of Sussex the Sussex Archaeological Society and East and West Sussex County Councils The editors have worked closely with the University s Cartographic Department to produce maps of high quality and accuracy to ensure that this millennial volume is a landmark publication of which Sussex can be proud **Alternative Visions of Post-War Reconstruction** John Pendlebury, Erdem Erten, Larkham J Peter, 2014-08-19 The history of post Second World War reconstruction has recently become an important field of research around the world *Alternative Visions of Post War Reconstruction* is a provocative work that questions the orthodoxies of twentieth century design history This book provides a key critical statement on mid twentieth century urban design and city planning focused principally upon the period between the start of the Second World War to the mid sixties The various figures and currents covered here represent a largely overlooked field within the history of 20th century urbanism In this period while certain modernist practices assumed an institutional role for post war reconstruction and flourished into the mainstream such practices also faced opposition and criticism leading to the production of alternative visions and strategies Spanning from a

historically informed modernism to the increasing presence of urban conservation the contributors examine these alternative approaches to the city and its architecture International Electronics Directory '90 C. G. Wedgwood,2013-10-22
