Creating A Place For Ourselves:

Creating Your Giant Self Robert Rose, 2001-06-05 A critical reason this is well maybe not THE best a useful book is that YOU do the work The more you apply what you learn and understand the greater your growth This is not a quick fix book but one to assist you in a lifelong journey of self discovery It is difficult to understand what another person really thinks or feels because it is dangerous to your career your relationships and even your existence You can learn to know who you really are As you travel you will find things about yourself you dislike and like The more honest you are the more you will like yourself and amazingly enough like and be liked more easily by others By using the metaphors of Giant and diminished self you have a means to constantly evaluate what you are experiencing As you do this you are getting more in tune with what you re thinking and feeling Most people are not congruent that is what they think and what they feel are not in synch In psychology when this happens it is called inappropriate affect The face you show does not reflect what you feel or think Yet in many situations you cannot because the repercussions are too great express or even show what you re thinking and feeling so what you say does not reflect your internal experience As the years pass you move further away from congruency and often can no longer even recognize what you are feeling and thinking You believe that what you re supposed to feel or think in that setting is what you re actually feeling and thinking I will try to help you discover who you are or could have become or still could become In metaphor it is creating your GIANT SELF which is the realization of your inherent potentials plus hard work This self is a marked contrast to your diminished self This self is the brainwashed depressed frightened rigid self that those with greater power have made you believe is who you are Without even knowing you I can say that you can become a person who can look yourself in the mirror and honestly like who you see It means opening up to ideas and concepts that may be confusing unnerving and may mean that your world as you know it now will never be the same Many of the ideas seem to be so simple and logical that you will say I knew that You may know it but have you had the courage to apply it I think one reason Dr Wilson believes in this book is that I send an honest searchlight into my mind body and soul Some of the things I discovered I did not like still do not like However I found that by challenging EVERYTHING I believed I was able to free myself from many of the errors of my past Besides my dark sides I found a rather decent intelligent person who was worthy of being loved and appreciated One thing I had to admit and face was the number and constancy of errors I made on a regular basis Humans are error making machines There are so many things that cause us to make mistakes that each of us could talk for hours about the stupid things we ve done How many times have you pulled instead of pushed even though the sign on the door was very clear I know I have I shake my head and laugh most of the time Other times my inattention or stupidity creates errors of judgement that could have caused a serious accident I misjudge how far away a car is before I shoot out into the intersection Or I m in a rush and I take a chance knowing full well that I m acting like a fool Take our senses Each information bit that stimulates one of our sensory nerves is affected by our attention toward it its magnitude its

intensity its uniqueness and the number and sensitivity of the nerve endings that receive it It then travels through that sensory system with countless chances for the message to be garbled or misinterpreted *EBOOK: Learning Spaces: Creating Opportunities for Knowledge Creation in Academic Life* Maggi Savin-Baden, 2007-11-16 This is a timely and important book which seeks to reclaim universities as places of learning It is jargon free and forcefully argued It should be on every principal and vice chancellor's list of essential reading Jon Nixon Professor of Educational Studies University of Sheffield The ability to have or to find space in academic life seems to be increasingly difficult since we seem to be consumed by teaching and bidding overwhelmed by emails and underwhelmed by long arduous meetings This book explores the concept of learning spaces the idea that there are diverse forms of spaces within the life and life world of the academic where opportunities to reflect and critique their own unique learning position occur Learning Spaces sets out to challenge the notion that academic thinking can take place in cramped busy working spaces and argues instead for a need to recognise and promote new opportunities for learning spaces to emerge in academic life The book examines the ideas that Learning spaces are increasingly absent in academic life The creation and re creation of learning spaces is vital for the survival of the academic community The absence of learning spaces is resulting in increasing dissolution and fragmentation of academic identities Learning spaces need to be valued and possibly redefined in order to regain and maintain the intellectual health of academe In offering possibilities for creative learning spaces this innovative book provides key reading for those interested in the future of universities including educational developers researchers managers and policy makers **Place Yourself , 7**

Gurus - A Journey of Self Fulfilment Virgil H Castleberry, 2018-11-05 This book chronicles the author's search for self fulfillment in the form of a novel Seven people come into his life to share wisdom and assist with his spiritual and mental growth Each Guru will build upon the previous teachings leading him down a road of understanding as his place and purpose in life are explained Drawn from the author's real life learnings this book shares those ideas with others **Light as Air** Jonny Morrison, 2022-09-30 Light as Air offers readers freedom from unmet desires a way to disrupt broken systems and an invitation into a life of depth and creative action How By exploring the story of Jesus and the way his kingdom engages our dissatisfaction and invites us into the life we were made for Jesus kingdom is a political reality that overthrows broken systems cultivates meaningful connection and empowers us for creative action Light as Air shows us how to live into and out of Jesus kingdom in a way that gives hope to a dissatisfied world **Girl Making** Gerry Bloustien, 2003 The resulting material challenges previous findings in those feminist and youth anthropological studies based on too narrow a concept of class ethnicity or populist approaches to culture Rejecting the still prevalent notion of resistance this study reveals instead that the girls activities are more about accommodation to the constraining givens of social life stretching these to discover their possibilities while simultaneously working hard to remain within their parameters of safety and reassurance In this conceptual framework popular music and other global cultural texts emerge to gain a new significance within their local

I am the Reluctant Messiah and So Are YOU Robyn Accetturo,2025-08-21 It took the author Rev Robyn Accetturo L C S W a life s journey that sometimes reads like a fantasy to own and stand in her Spiritual Power We all have the capabilities of doing the same She calls it a journey to uncovering and revealing our wholeness our Spirit operating in human form She shows us through the courageous example of her own life how to become a vessel for the Christ Consciousness to fill us so we too can do what Jesus did I am the Reluctant Messiah and So Are YOU is written with such raw vulnerability and authenticity it compels us to reframe how we view ourselves Our human body is a vehicle of transport for our Spirit similar to how a 4 stroke cycle combustion engine

operates a car We have five spiritual senses that coincide with our five human ones Once we name them we can claim them Let Rev Robyn be our guide to usher in a New Humanity one Heart and Spirit at a time Join us to bring Heaven on Earth
