Creating Value From Mergers And Acquisitions The Challenges:

Creating Value from Mergers and Acquisitions Sudi Sudarsanam, 2003 This text studies mergers and acquisitions in Europe within a common framework and provides a comparative analysis of the M A scene in Europe and in the US It develops a coherent international and multidisciplinary perspective of the M A scene **Creating Value from Mergers and Acquisitions** Sudi Sudarsanam, 2010 This text studies mergers and acquisitions in Europe within a common framework and provides a comparative analysis of the M A scene in Europe and in the US It develops a coherent international and multidisciplinary perspective of the M A scene **Creating Value from Mergers and Acquisitions** Sudi Sudarsanam, 2004 Creating Value from Mergers and Acquisitions P. S. Sudarsanam, 2003 Mergers and Acquisitions Michael A. Hitt, Jeffrey S. Harrison, R. Duane Ireland, 2001 This work is a comprehensive guide to planning and executing successful mergers and acquisitions **Advances in Mergers and Acquisitions** Sydney Finkelstein, Cary L. Cooper, 2010-12-20 Helps scholars think about mergers and acquisitions in new ways building our knowledge base on this critical topic This book focuses on all three characteristics that make up this research field studies from scholars in different countries with different research questions and relying on different theoretical perspectives Mergers and Acquisitions Mark E. Mendenhall, 2005 This book examines the dynamics of the sociocultural processes inherent in mergers and acquisitions and draws implications for post merger integration management **The Handbook of Mergers and Acquisitions** David Faulkner, Satu Teerikangas, Richard J. Joseph, 2012-06-07 The Handbook bridges hitherto separate disciplines engaged in research in mergers and acquisitions M A to integrate strategic financial socio cultural and sectoral approaches to the field It examines the management processes involved as well as valuations and post acquisition performance and considers international and sectoral dimensions **The Practice of Behavioral Strategy** T. K. Das, 2015-10-01 Behavioral strategy continues to attract increasing research interest within the broader field of strategic management Research in behavioral strategy has clear scope for development in tandem with such traditional streams of strategy research that involve economics markets resources and technology The key roles of psychology organizational behavior and behavioral decision making in the theory and practice of strategy have yet to be comprehensively grasped Given that strategic thinking and strategic decision making are importantly concerned with human cognition human decisions and human behavior it makes eminent sense to bring some balance in the strategy field by complementing the extant emphasis on the objective economics based view with substantive attention to the subjective individual oriented perspective This calls for more focused inquiries into the role and nature of the individual strategy actors and their cognitions and behaviors in the strategy research enterprise For the purposes of this book series behavioral strategy would be broadly construed as covering all aspects of the role of the strategy maker in the entire strategy field The scholarship relating to behavioral strategy is widely believed to be dispersed in diverse literatures These existing contributions that

relate to behavioral strategy within the overall field of strategy has been known and perhaps valued by most scholars all along but were not adequately appreciated or brought together as a coherent sub field or as a distinct perspective of strategy This book series on Research in Behavioral Strategy will cover the essential progress made thus far in this admittedly fragmented literature and elaborate upon fruitful streams of scholarship More importantly the book series will focus on providing a robust and comprehensive forum for the growing scholarship in behavioral strategy In particular the volumes in the series will cover new views of interdisciplinary theoretical frameworks and models dealing with all behavioral aspects significant practical problems of strategy formulation implementation and evaluation and emerging areas of inquiry The series will also include comprehensive empirical studies of selected segments of business economic industrial government and non profit activities with potential for wider application of behavioral strategy Through the ongoing release of focused topical titles this book series will seek to disseminate theoretical insights and practical management information that will enable interested professionals to gain a rigorous and comprehensive understanding of the subject of behavioral strategy The Practice of Behavioral Strategy contains contributions by leading scholars in the field of behavioral strategy research The 9 chapters in this volume cover a number of significant topics that speak to the practice perspectives on behavioral strategy covering diverse topics such as M A decision making in the high tech sector scenario thinking business modeling project based organizations fair trade market certification and the movie and insurance industries The chapters include empirical as well as conceptual treatments of the selected topics and collectively present a wide ranging review of the noteworthy research perspectives on the practice of behavioral strategy

Acquisitions Ilaria Galavotti, 2018-10-25 This book analyses mergers and acquisitions within the broader framework of strategic decisions Existing studies on corporate acquisitions have produced a variegated and inconclusive spectrum of findings on the strategic mechanisms that contribute to value creation By building on the widespread recognition that firms substantially differ in their ability to carry out successful acquisitions this book focuses on the diverse effects of experiential

learning A unique systematic literature review is provided which thematically highlights the connections between various streams of research The author aims to systematise our knowledge on experience and learning dynamics in corporate acquisitions providing a detailed analysis of conceptual implications and presenting potential avenues for future exploration

Acquisitions and Corporate Strategy David R. King, 2022-04-19 Corporate restructuring acquisitions alliances and divestment is a visible form of corporate strategy For example firm investments in buying and selling assets exceed the gross domestic product of the majority of nations Most research in this area examines acquisitions but informing practice is limited by examining acquisitions in isolation or using a narrow focus For example a lingering problem is that average acquisition performance is consistently around zero suggesting a need to identify practically relevant relationships In addressing this need research on three fundamental questions is covered 1 How do acquisitions relate to other corporate strategy options 2 What helps to predict acquisition performance and 3 What are persistent acquisition research issues The first question is intended to overcome a research limitation that acquisitions are often examined independent of other corporate strategies including internal development alliances and divestment The second question addresses novel relationships associated with the primary focus of acquisition research in examining what drives acquisition performance The third question reflects on the underlying complexity of the phenomenon that makes it a challenge to identify what drives acquisition performance Overall the intent of presenting ideas on these fundamental questions is to illustrate promising areas for future research This book presents the latest state of knowledge on the topic and will be of interest to researchers academics and advanced students in the fields of strategic management international business and organizational studies
