Creation Vs Evolution What You Need To Know:

The 10 Things You Should Know About the Creation vs. Evolution Debate Ron Rhodes, **Creation Vs Evolution** Selva Sugunendran, 2015-09-18 In this book you will learn about the origins of life which has been a popular topic of debate for decades stirring division among groups of people regarding what to believe whether a higher entity created life the Creation or a series of cosmic accidents Evolution led to life developing on Earth In this book I'll try to find the seemingly elusive answers to the questions involving our very origins Where do we come from Who or what made us a supreme being some cosmic event or both What should we believe in the Creation or Evolution Does it matter what we choose to believe I have attempted to look at both sides of the argument the Creation and Evolution fairly and scientifically without taking sides

Evolution vs Creationism Ronald Qualls, 2019-02-21 *Evolution vs Creationism* by Ronald H Qualls *Creation and Evolution* Jacques Van Heerden, 2014-01-31 The first few chapters of Genesis which give the biblical account of Creation may well be the most underrated text in existence It has been misunderstood by many either read very naively as a simplistic description or otherwise regarded as a bit of the patchwork employed by a final redactor of the text The vast majority of scientists regard it as inferior Ancient Hebrew thought patterns were quite different from our own They were less interested in the process than in the origin the Creator in the Creation stories and the result Symbolism exemplified in numbers and colors were tremendously important Central to all their thinking was the worship of the LORD God Almighty and the tabernacle which was later replaced by the temple All this has a bearing on our interpretation of Genesis The best translation of Gen 1:2 is as follows Gen 1:2 The earth was formless and empty and darkness covered the deep water The Spirit of God was hovering over the water God's Word The two terms formless and empty are the first key to understand what follows namely a giving shape to that which had no form and then filling the forms The whole description speaks of a dynamic system not a rigid structure cast in concrete What transpires in the end is that there is no conflict between Creation and Evolution except that the naturalists natural selection was actually divine selection not a random process but a directed development to reach a very specific goal The Christian believer should take comfort in the fact that our Bible is in perfect harmony with the best up to date science The scientist should take note that the biblical account had to be inspired by God to relate something of real meaning to us through an author who had no proper knowledge of the universe and no understanding of evolution
