Creative Colour Photography Raimo Gareis, Theo M. Scheerer, 1969 *Creative Colour Photography* Roger Hicks, Colin Glanfield, 1986 **Creative colour photography**, 1972 **Creative Techniques for Color Photography** Bobbi Lane, 2003 Photographers learn to maximize color skills to create images that match their own unique visions with this practical and comprehensive guide to creative color photography The science behind color what it is how we see it and how it changes is explored in depth Presented are the scientific principles behind light the technical aspects of film and processing and information about how weather affects results how to use filters and photographic gels to maximize color saturations and how to correct unwanted color casts An artistic study of color is also included with commentary on the properties of color and shade the psychological effects of color the tenets of color harmony and the uses of advancing and receding colors Also discussed are alternative processes such as using daylight film in tungsten lighting and vice versa using extreme close up to capture details and using color infrared film to capture invisible light **Creative Colour Photography** Raimo Gareis, Scheerer, 1972 *Photographing People and Places*, 1985 *Creative Color Photography* R. Hicks, Roger William Hicks, 1987 An informative and readable text overflowing with ideas and suggestions and covering subjects as diverse as close up and erotic photography has been combined with a superb selection of pictures aimed at instilling or reawakening in the reader an interest in color photography as a creative art Basics Creative Photography 01: Design Principles Jeremy Webb, 2010-12-05 This resource takes readers through the basic elements of design line shape color space texture and light and shows how design awareness through the application of these concepts can add rhythm movement contrast and a new level of depth and dimension to their images Techniques of Colour Photography Roger William Hicks, Philip Clucas, 1982 *Creative Color Photography of Robin Perry* Robin Perry, 1974 **In the Picture** Joan Chambers, Molly Hood, 1999 An inspirational range of language and creative activities based on famous paintings by artists from the fourteenth century through to the twentieth century The ideas are suitable for children of all ages Back cover **The Fundamentals of Creative Photography** David Praker, 2021-01-14 The Fundamentals of Creative Photography offers a comprehensive introduction to the world of applied creative photography It is concerned with photography in a professional context images that are to be used in the fulfilment of a brief rather than those created solely for self expression Creativity is important but must be focused on meeting the client's needs The book explores the principles that underpin the discipline guiding the reader through the practical considerations involved in executing the perfect shot It includes guidance on acquiring and developing new skills the practice of self promotion and self administration and a discussion of the image workflow **Basics Photography 03: Capturing Colour** Phil Malpas, 2007-11 Providing students with an introduction to the subject of colour in a photographic context this book explains how to master its use in the image making process *Movie Maker*, 1982 **Gabriel Lippmann's Colour Photography** Hanin Hannouch, 2025-10-01 Physicist Gabriel Lippmann's 1845-1921

photographic process is one of the oldest methods for producing colour photographs So why do the achievements of this 1908 Nobel laureate remain mostly unknown outside niche circles Using the centenary of Lippmann's death as an opportunity to reflect upon his scientific photographic and cultural legacy this book is the first to explore his interferential colour photography Initially disclosed in 1891 the emergence of this medium is considered here through three shaping forces science media and museums A group of international scholars reassess Lippmann's reception in the history of science where he is most recognised by going well beyond his endeavours in France and delving into the complexity of his colour photography as a challenge to various historiographies Moreover they analyse colour photographs as optical media thus pluralising Lippmann photography's ties to art cultural and imperial history as well as media archaeology The contributors also focus on the interferential plate as a material object in need of both preservation and exhibition one that continues to fascinate contemporary analogue photographers This volume allows readers to get to know Lippmann grasp the interdisciplinary complexity of his colourful work and ultimately expand his place in the history of photography
