Teixeira, Fabiano Eloy Atílio Batista, Glauber Soares Júnior, Aline Gabriel Freire, Marcelo Curth, Joseclebio da Fonseca Lucena, Alan Jones Lira de Melo, Ana Clara da Silva, Fatih Mehmet Alhan, Aysu Ceren Yılmaz Barış, Gül Ağaoğlu Çobanlar, Triesanto Romulo Simanjuntak, Tunjung Wijanarka, Rizki Amalia Yanuartha, Putri Hergianasari, 2023-12-28 Our book titled *Academic Research Reviews in Art Design Architecture and Fashion Breaking Creative Boundaries* consists of seven chapters. This book opens up a comprehensive exploration in the fields of art design architecture and fashion. It outlines rigorous research efforts examining topics ranging from proposing innovative solutions for color identification among individuals with color blindness in clothing to analyzing the complex relationship between social media influences such as TikTok and consumption patterns on platforms such as Shein. Moreover, the discourse extends to the subtle use of non-woven fabric in the textile clothing and fashion industries, providing a comprehensive look at industry practices. The chapters also shed light on practical applications of theoretical knowledge as evidenced in the study detailing professional practices at Braz Fashion Company, particularly the curation of visual content for social media platforms, further highlighting the synergy between industry practices and academic research. Additionally, the book introduces intriguing concepts such as spatial production and the role of pop-up dynamics in urban interiors and culminates in an exploration of the multifaceted influence of central and regional governments on community behavior in Sangiran, a UNESCO heritage site. This collaborative effort, curated by expert participants, aims not only to expand knowledge horizons in relevant fields but also to serve as a catalyst for interdisciplinary dialogue and innovation. I would like to express my heartfelt gratitude to the valuable authors who enriched this book with their dedication. I sincerely hope that this book will illuminate uncharted paths for researchers and provide an inspiring guide.

Thirty years ago when Janet Tubbs began working with children who had low self-esteem and behavioral problems, she developed a successful program using art, music, and movement. Believing that unconventional children required unconventional therapies, she then took her program one step further; she applied it to children with autism, ADD, ADHD, and Asperger's Syndrome. Her innovative methods and strategies not only worked but they actually defied the experts. In this new book, Janet Tubbs has put together a powerful teaching tool to help parents, therapists, and teachers work with their children. *Creative Therapy for Children with Autism, ADD, and Asperger's* is divided into two parts. Part One provides an overview of Autism Spectrum Disorders and introduces and explains Janet's novel approach to teaching. Her goal is to balance the child's body, mind, and spirit through proven techniques. Part Two provides a wide variety of exercises, activities, and games.
