Council on the Education of Disadvantaged Children (U.S.),19?? *Investigating Water With Young Children (Ages 3-8)*
Beth Dykstra Van Meeteren,2023 Water is a meaningful context for children to engage in inquiry and acquire and use science and engineering practices such as developing spatial thinking and early concepts of water dynamics This book shows teachers how to engage children with opportunities to engineer water movement through pouring and filling containers of various kinds and shapes observing how water interacts with surfaces in large and small amounts exploring how water can be moved and using water to move objects These experiences build a foundation that will support children s more complex study of this phenomena in later schooling as well as encourage interest in STEM fields The text provides guidance for arranging the physical intellectual social emotional and promotional environments of the early childhood classroom for integrating literacy learning and for building essential partnerships with administrators and families to enhance STEM learning for our youngest learners Book Features Introduces WaterWorks an integrative STEM experience developed by young children their teachers and early childhood researchers Describes an approach that engages children in doing science and engineering rather than teaching children about these fields Offers children the opportunity to engage in STEM experiences every day in their classrooms alongside literacy learning Illustrates ways to plan and use over ten types of engineering experiences appropriate for children ages 3 8 Includes guidance for documenting children s learning over time Aligns to the Early Learning Outcomes Framework and the Next Generation Science Standards Contributors Allison Barness Shelly L Counsell Lawrence Escalada Judith Finkelstein Linda Fitzgerald Sherri Peterson Jull Uhlenberg and Wendy Miller Praise for the STEM for Our Youngest Learners Series This series is an important addition to a very limited field of guides for teaching STEM to young learners While activity books abound this series with its basis in constructivism and its use of an inquiry based teaching model guides teachers in creating in depth experiences for children to examine the natural world while building their critical thinking skills and deepening their curiosity about and interest in the world around them Karen Worth consultant in science education early childhood and elementary years Learning ,1978 Urban Education, Approaches that Work United States. Congress. House. Committee on Small Business. Subcommittee on Empowerment,1998 A hearing was held before the Subcommittee on Empowerment of the House Committee on Small Business to build a record of a lot of things that are working in urban education in high risk zones In his opening remarks Representative Souder Indiana noted that there is no question but that the best way to combat unemployment and the problems that flow from it is to provide people with the best possible training For most of the work force training begins in school Strengthening basic skills is not exclusively an urban problem but it is one that is of particular concern in the cities The purpose of this hearing was not why so many schools are failing but why some succeed Five educators who run successful urban schools appeared at the hearing to explain why their schools work Thaddeus S Lott Sr principal of a charter school district in Houston Texas described the experiences of a successful elementary school that used an intensive reading program beginning in

kindergarten and direct instruction to raise academic achievement Vera White principal of a junior high school in the District of Columbia achieved academic success with a program that focused on student learning and high expectations and that was supported in a partnership with COMSAT Comments by hearing participants follow these statements In the second panel discussion of the hearing Oscar J Underwood headmaster of a Christian college preparatory school Indiana spoke about the importance of the educational environment and teacher attitudes Leah White administrator of an urban Christian school Maryland noted the importance of promoting parent participation and the importance of an atmosphere focused on learning William Elliott headmaster of a Christian academy in Philadelphia Pennsylvania emphasized the importance of good relationships between teachers and students and the importance of accountability and high standards Comments from panelists completed the hearing An appendix contains the prepared statements of the panelists and a letter from Governor George Bush Texas about Dr Lott s Houston school SLD
