Fake Physics: Spoofs, Hoaxes and Fictitious Science Andrew May, 2019-04-12 People are used to seeing fake physics in science fiction concepts like faster than light travel antigravity and time travel to name a few The fiction label ought to be a giveaway but some SF writers especially those with a background in professional science are so adept at technobabble that it can be difficult to work out what is fake and what is real To confuse matters further Isaac Asimov s 1948 piece about the fictitious time travelling substance thiotimoline was written not as a short story but in the form of a spoof research paper The boundaries between fact and fiction can also be blurred by physicists themselves sometimes unintentionally sometimes with tongue in cheek sometimes to satirize perceived weaknesses in research practices Examples range from hoaxes aimed at exposing poor editorial standards in academic publications through thought experiments that sound like the plot of a sci fi movie to April Fools jokes Even the latter may carry a serious message whether about the sociology of science or poking fun at legitimate but far out scientific hypotheses This entertaining book is a joyous romp exploring the whole spectrum of fake physics from science to fiction and back again

Mother Figured Deirdre de la Cruz, 2015-12-30 There is no female religious figure so widely known and revered as the Virgin Mary Mary has inspired in cultures around the world a deep devotion a desire to emulate her virtue and a strong belief in her power Perhaps no population has been so deeply affected by this maternal figure as Filipino Catholics whose apparitions of Mary have increased in response to recent events drawing from a broad repertoire of the Catholic supernatural and pulling attention to new articulations of Christianity in the Global South In *Mother Figured* historical anthropologist Deirdre de la Cruz offers a detailed examination of several appearances and miracles of the Virgin Mary in the Philippines from materials and sites

ranging from the mid nineteenth century to the present By analyzing the effects of the mass media on the perception and proliferation of apparition phenomena de la Cruz charts the intriguing emergence of new voices in the Philippines that are broadcasting Marian discourse globally Based on two years of ethnographic fieldwork and hitherto unexplored archives in the Philippines the United States and Spain Mother Figured documents the conditions of Marian devotion s modern development and tracks how it has transformed Filipinos social and political role within the greater Catholic world A History of Ambition in 50 Hoaxes Gale Eaton,2016-09-06 What do the Trojan Horse Piltdown Man Keely Motor Company and Ponzi Scheme have in common They were all famous hoaxes carefully designed and bolstered with false evidence The con artists in this book pursued a variety of ambitions making money winning wars mocking authority finding fame trading an ordinary life for a glamorous one but they all chose the lowest fastest road to get there Every hoax is a curtain and behind it is a deceiver operating levers and smoke machines to make us see what is not there and miss what is As P T Barnum knew you can short circuit critical thinking in any century by telling people what they want to hear Most scams operate on a personal scale but some have shaped the balance of world power inspired explorers to sail uncharted seas derailed scientific progress or caused terrible massacres A HISTORY OF AMBITION IN 50 HOAXES guides us through a rogue s gallery of hustlers liars swindlers imposters scammers pretenders and cheats In Gale Eaton s wide ranging synthesis the history of deception is a colorful tour with surprising insights behind every curtain Fountas Pinnell Level Z Parodies, Hoaxes, Mock Treatises Jonathan Swift,2013-07-18 Swift s parodies are among his most fascinating works but perhaps require most explication for the modern reader Valerie Rumbold brings a new depth and detail to the editing of Swift s Bickerstaff papers Polite Conversation Directions to Servants and other works on language and conduct Highlights include a fresh investigation of the political and print contexts of the Bickerstaff papers full commentaries on such smaller works as A Modest Defence of Punning and On Barbarous Denominations in Ireland identification and explanation of many additional sayings in Polite Conversation and a detailed contextualisation of Directions to Servants in contemporary domestic theory and practice A substantial thematic Introduction is supplemented by an individual headnote and full annotation to each work The Textual Introduction explores the publishing strategies adopted by Swift and his booksellers and a separate Textual Account of each work presents and discusses changes in the texts over time **A Quick History of Money** Clive Gifford,2021-07-06 A Quick History of Money takes us from barter to Bitcoin packed with facts and jokes about how and why money works and sometimes doesn t *Hoaxes, Myths, and Manias* Robert E. Bartholomew,Benjamin Radford,2003 Thinking is an innate ability that most people take for granted But like writing well or speaking effectively before the public thinking well is a skill that can be learned and improved with practice In this unique introduction to critical thinking Robert Bartholomew and Benjamin Radford first lay out the principles of critical thinking and then invite readers to put these principles to the test by examining a series of unusual and challenging case studies Assembling a wide range of bizarre but actual incidents from

many cultures and various time periods they demonstrate how the tools of critical thinking can help to unravel alleged paranormal events and seemingly mysterious behavior What factors led to the Martian panic of 1938 Why did many people conclude that an alien spaceship crashed in Roswell New Mexico in 1947 How do we explain the panic expressed by otherwise normal Southeast Asian men who came to believe that a contagious disease was causing their genitals to shrink or the frenzied dance manias that captivated thousands of Europeans during the Middle Ages Bartholomew and Radford show that reality is very much a social construction that cultural assumptions play a large part in our judgments about what is normal and what is deviant and that the use of critical reasoning is our best means of ensuring an objective perspective

Online! John Dvorak,Chris Pirillo,Wendy Taylor,2004 A perfect gift for any Internet user whatever their level of experience bull Written in a straight to the point understandable format in jargon free language by some of the most popular personalities in the field bull Backed by a massive marketing campaign including TV radio print and online appearances by the authors *Prank Science* Michael Brown,AI,2025-03-06 Prank Science explores the surprising science and psychology behind harmless practical jokes arguing that their success stems from a careful balance of surprise cognitive dissonance and shared understanding The book reveals how pranks often dismissed as mere mischief are actually carefully engineered social experiments that offer insights into human behavior For example the element of surprise in a prank triggers specific neurological responses while successful pranks often exploit cognitive biases to create humor The book begins by

establishing the historical and social context of pranks then moves to dissecting the psychological mechanisms behind different types of pranks using case studies and experimental psychology It examines how timing target selection and the element of surprise contribute to a prank s effectiveness Finally the book considers the ethical dimensions of pranking navigating the line between harmless fun and potentially harmful actions *Global Stigmas and Attitudes Towards Persons With Disabilities* Phasha, Nareadi Tlakale,2025-09-25 Inclusion requires changed mindsets and actions towards every member of society particularly towards the historically marginalized and people with disabilities Their inclusion has been a major problem due to numerous factors such as conceptions about disability and what it constitutes as they often come with stigma and stereotypes Current sources often present disability conceptions in general terms as if they apply to all categories of disabilities making it difficult to extract correct information about each disability Disability is not a homogenous category Conceptions about each category may differ among cultures and communities Uncovering conceptions about each category is a crucial step towards creating positive living and safe educational environment for people with disabilities *Global Stigmas and Attitudes Towards Persons With Disabilities* discusses conceptions about different disabilities children or family members with a disability and organizations for people with disabilities It demonstrates how negative conceptions influence service provision in various sectors and perpetuates their exclusion in education and society Covering topics such as stereotypes support services and promoting dignity this book is an excellent resource for sociologists caregivers educators policymakers advocates business owners researchers academicians and more **Another Throat** Ryan Sharp,2024-10-25 The early twenty first century has seen a sharp rise in Black US poets employing the mask of persona often including and interrogating archival materials as they do so While some have observed this rise and noted its connection to historical figures Ryan Sharp explores it more deeply as a project based historical and poetic practice Sharp examines its sustained use of historical persona and capacity for conjuring Black speakers as a countermeasure against the archival silencing and misrepresentation of Black voices and histories a tactic he theorizes as poetic fabulation through the poetry of Elizabeth Alexander Cornelius Eady Adrian Matejka Patricia Smith Natasha Trethewey and Frank X Walker This poetic practice is not only about looking back but about critically and creatively re imagining the past to expand the possibilities for Black presents and futures Through his argument Sharp demonstrates how the unique aesthetic and rhetorical license afforded to poetry along with the interiority of persona empowers such historically minded projects to be concurrently invested in the curation of Black narratives and identities **Best Horror of the Year** Ellen Datlow,2015-08-04 For over three decades Ellen Datlow has been at the center of horror Bringing you the most frightening and terrifying stories Datlow always has her finger on the pulse of what horror readers crave Now with the seventh volume of this series Datlow is back again to bring you the stories that will keep you up at night Encompassed in the pages of *The Best Horror of the Year* have been such illustrious writers as Neil Gaiman Kim Robinson Stephen King Linda Nagata Laird Barron Margo Lanagan And many others With each

passing year science technology and the march of time shine light into the craggy corners of the universe making the fears of an earlier generation seem quaint But this light creates its own shadows The Best Horror of the Year chronicles these shifting shadows It is a catalog of terror fear and unpleasantness as articulated by today s most challenging and exciting writers The British Character, Studied and Revealed Pont,1982 The British National Bibliography Arthur James Wells,2000
