Gary W. Babb, 2006-03-01 Earth is Ours is a fresh and uniquely original story line that bridges many genres It is a story of a symbiotic

relationship between a self aware female computer and an American Indian man dying of old age This is a forced relationship dictated by mutual needs for survival in a world stripped of technology by aliens The main characters begin the fight of their lives but before they can fight the fierce aliens Levi and Amy must fight for control of who they will be jointly What begins as conflict of minds develops into tolerance then cooperation and finally love This love of total oneness creates a unity of incredible power and strength that provides the means to fight the aliens Female brains and male brawn unite to battle against incredible odds for the survival of the human race The conflict of minds action adventure and suspense are all interlaced into a compelling and fast paced adventure The characters are three dimensional with real emotions not always perfect but always interacting The story is presented from differing viewpoints with the two main characters expressing some of the same events from both a male and female perspective As they interface the events are often seen from conflicting emotions and motivations sometimes cynical and often humorous It is the ultimate struggle of male versus female while combating monstrous aliens As expected this action story has a strong appeal to men while the romance aspect compliments the story expanding the appeal to women Additionally one of the main characters is Amy a particularly brilliant and forceful female who demands attention from both sexes Her male counterpart is very physical and masculine representing everything Amy is not Both characters and sexes are presented in a positive although conflicting way at times These characters and the story are strong and their saga continues in its sequel Target Earth The Awakening Word Robert W Mitchell,2011-11-23

Are you being called to the spiritual path If so are you doing anything about it I am reminded of the concept faith without works is dead If we are being called to find out wonderful things about ourselves God and the universe we have to do something about it Stepping onto a spiritual path is a way Paths are all about doing In this book you will find many encouraging words about different paths and the rewards and challenges that come with them You will find that paths do not have to be organized or supervised but they must be approached with consciousness and intent and contribute to our lives and the life of the world This book is one of my many paths within my one journey My goal here is to in some way touch those who have not yet found a path or those who may be looking but do not know what they are looking for those who may be wondering about life and God as I was and still do If you are at a place and time in your life where you are wondering or feel as though something is missing this book may be for you It is written for the beginners mind The short easy to read essays poems and inspiring quotes are meant to send your mind off into wonderful directions and your life on amazing paths that allow you to grow and blossom and be the divine person you were meant to be The different chapters address life and how we live it our humanness as well as our divine nature Some of the essays are about the rules of life life as a game or a gamble getting ready for our paths and stepping on to them **New Beginning** Shamayel Roidel,2024-08-30 You know that traveling is not always about packing our bags and going to other places but once in a while it comes back to our minds and the events that happen there can be more interesting and exciting for us than any trip between countries you know the way
