Encyclopedia of Body Image and Human Appearance, 2012-04-11 This scholarly work is the most comprehensive existing resource on human physical appearance how people s outer physical characteristics and their inner perceptions and attitudes about their own appearance body image affect their lives The encyclopedia s 117 full length chapters are composed and edited by the world's experts from a range of disciplines social behavioral and biomedical sciences. The extensive topical coverage in this valuable reference work includes 1 Important theories perspectives and concepts for understanding body image and appearance 2 Scientific measurement of body image and physical attributes anthropometry 3 The development and determinants of human appearance and body image over the lifespan 4 How culture and society influences the meanings of human appearance 5 The psychosocial effects of appearance altering disease damage and visible differences 6 Appearance self change and self management 7 The prevention and treatment of body image problems including psychosocial and medical interventions Chapters are written in a manner that is accessible and informative to a wide audience including the educated public college and graduate students and scientists and clinical practitioners Each well organized chapter provides a glossary of definitions of any technical terms and a Further Reading section of recommended sources for continued learning about the topic Available online via ScienceDirect or in a limited release print version The Encyclopedia of Body Image and Human Appearance is a unique reference for a growing area of scientific inquiry It brings together in one source the research from experts in a variety of fields examining this psychological and sociological phenomenon The breadth of topics covered and the current fascination with this subject area ensure this reference will be of interest to researchers and a lay audience alike Body Image and the Asian Experience Hsiu-Lan Cheng, Yuving Tsong, 2024-11-13 Individuals of Asian descent are a demographic often overlooked in mainstream body image scholarship Historically body image concerns were thought to only affect white upper to middle class women in North America and Western Europe However empirical data accumulated in recent decades have subverted this myth Contrary to popular belief and stereotypes that Asian Americans are a Model Minority in the United States they experience significant body image concerns as well as related disordered eating and mental health challenges Asian diasporas in Western countries also face challenges similar to those faced by Asian Americans e g racialized and objectified views of Asians Asian nationals in Asia on the other hand are juggling between their collective and national standards of beauty fitness and the body image ideals propagated through commercialism and capitalization amidst the historical context of colonization and the contemporary atmosphere of globalization Body Image and the Asian Experience Asians Asian Americans and Asian Diasporas Across the Globe discusses the dearth of knowledge and sometimes misinformation about body image among people of Asian descent including Asian nationals dwelling in Asia and those in the diaspora Asian Americans Asian immigrants in the United Kingdom Australia etc The first section of the book reviews the applicability of existing theories in understanding the body image experiences of

individuals of Asian descent and proposes a new theoretical framework that emphasizes both decolonizing and intersectional perspectives in conceptualizing Asian body image The next section examines the current state of research on body image among Asians Asian Americans and Asian diasporas around the globe including attending to some seriously neglected specific demographic and social identity groups The last section explores mental health and psychosocial implications of body image in the aspects of mental disorders interpersonal and social relationships and identity development Explores the body image of Asians offering new theoretical insights to address their unique experiences globally Focuses on underrepresented groups including Asian sexual and gender minority men advancing understanding in body image research Examines how body image influences mental health relationships identity and societal aspects Proceedings of the International Conference Entitled Language, Literary, and Cultural Studies (ICONLATERALS 2024) Mochamad Ighfir Sukardi, Dany Ardhian, Tantri Refa Indhiarti, Vicky Ashar Dwigantara, Titis Bayu Widagdo, 2025-06-16 This is an open access book The International Conference Entitled Language Literary And Cultural Studies ICON LATERALS is a forum for academic literary linguistic and cultural activists or practitioners as well as the public to present and discuss issues in the fields of language literature and culture ICON LATERALS has historical roots in the Study Program of English Literature as the organizer of the 1st until 2nd ICON LATERALS before being managed in the 3th year by the Department of Languages and Literature

Research Anthology on Combating Cyber-Aggression and Online Negativity Management Association, Information Resources, 2022-03-04 The advent of the internet and social media were landmarks in furthering communication technologies Through social media websites families friends and communities could connect in a way never seen Though these websites are helpful tools in facilitating positive interaction they have also allowed users to verbally attack and bully each other with no fear of repercussion Moreover online predators will often use these tools to harass stalk and in some cases even lure their victims Particularly rampant among adolescents these harmful actions must be mitigated in order to safeguard the mental health and physical safety of users The Research Anthology on Combating Cyber Aggression and Online Negativity discusses the research behind cyber aggression and cyber bullying as well as methods to predict and prevent online negativity It presents policy technological and human intervention practices against cyber aggression Covering topics such as media literacy demographic variables and workplace cyberbullying this major reference work is a critical resource for students and educators of higher education libraries social media administrators government organizations K 12 teachers computer scientists sociologists psychologists human resource managers researchers and academicians Lectures on the Psychology of Women Joan C. Chrisler, Carla Golden, 2018-01-12 Twenty two distinct essays prepared especially for Lectures on the Psychology of Women present readers with topics often not covered in depth in standard texts Essays are written by feminist psychologists all of whom are active and committed teachers and researchers within the psychology of women More than half the lectures are new to this edition and the others have been significantly updated to include recent research and

contemporary examples The book s organization aligns with core texts making it ideal supplemental reading However each lecture stands alone so instructors can assign readings to meet their own course needs Part I on the diversity of women includes lectures on women with disabilities social class immigration relational race privilege aging sexual fluidity and mothering Part II delves into body images and female embodiment with lectures covering such topics as the sexualization of girls PMS weight and body image media representations of Black women genital anxieties and the hairless ideal Part III addresses women s physical and mental health with lectures on depression multicultural therapy Black women s health in the U S and institutional corruption in psychiatry Part IV focuses on discrimination control and violence against women with lectures on slut shaming online gender harassment and microaggressions Part V on social justice and activism includes lectures on awareness of intersectional identities and the relation between the psychology of women and feminist activism

Social Determinants and Psychosocial Factors That Impact on Health Status Manuel Gandoy-Crego, Rubén González-Rodríguez , Teresa Vilaça, 2024-05-02 The Social Determinants of Health SDH are defined by the World Health Organization as the conditions in which people are born grow work live and age and the wider set of forces and systems shaping the conditions of daily life Social determinants as well as psychosocial factors are elements that have a significant influence on people s health and well being These factors include psychological social and also cultural aspects which can affect a person s behavior and health These psychosocial determinants may include stress education poverty social exclusion discrimination and violence Such factors can act as protective or on the contrary increase the risk of physical and mental **Cancer** Vincent T. DeVita, Theodore S. Lawrence, Steven A. illness and affect the quality of life of individuals Rosenberg, 2010 Introducing the first volume of a new series Cancer Principles Practice of Oncology Annual Advances in Oncology This series of annual volumes will focus on the most significant changes in oncologic research and practice that have taken place during the preceding year Each volume identifies scientific and clinical areas in oncology that are rapidly changing and show a high potential for affecting the management of cancer patients in the future These areas may reflect current controversies in oncology and every effort is made to provide clear direction for the practicing oncologist In and Out of Our Right Minds Diane Brown, Verna Keith, 2003-10-01 African American women have commonly been portrayed as pillars of their communities resilient mothers sisters wives and grandmothers who remain steadfast in the face of all adversities While these portrayals imply that African American women have few psychological problems the scientific literature and demographic data present a different picture They reveal that African American women are at increased risk for psychological distress because of factors that disproportionately affect them including lower incomes greater poverty and unemployment unmarried motherhood racism and poor physical health Yet at the same time rates of mental illness are low This invaluable book is the first comprehensive examination of the contradictions between the strengths and vulnerabilities of this population Using the contexts of race gender and social class In and Out of Our Right Minds challenges the traditional notions of mental health and mental illness as they apply to African American women
Opportunity Paola Paoloni, Rosa Lombardi, 2023-03-16 This edited volume analyzes how the COVID 19 crisis could be transformed into opportunities for those organizations that correctly interpret the change adapt their strategies accordingly and increase their chances of success in a post pandemic scenario Through this lens the female role and contribution to recovery are analyzed and discussed in the economic financial and social context Even if many aspects set the COVID 19 crisis apart from the latest global financial crises such as the unusual shutdown of businesses in specific sectors social distancing regulations and general uncertainty sparked by the pandemic the challenges facing all organizations in the current recovery phase can present an opportunity for extraordinary growth and development in Europe The focus of the contributions gathered here is not on counting the damages and losses but rather on monitoring the recovery and on emerging instruments to support national and global economic recovery while paying special attention to women s role in it

Mixed Methods Research Sharlene Nagy Hesse-Biber, 2010-01-15 Introduction to mixed methods research Formulating questions conducting a literature review sampling design and the centrality of ethics in mixed methods research A qualitative approach to mixed methods design analysis interpretation writing up and validity Interpretative approaches to mixed methods research Feminist approaches to mixed methods research Postmodernist approaches to mixed methods research with Chris Kelly Putting it together qualitative approaches to mixed methods research praxis Conclusion the prospects and challenges of mixed methods praxis **Encyclopedia of Social Problems** Vincent N. Parrillo, 2008-05-22 Social problems affect everyone Because so many actual and potential problems confront us it is often difficult to decide which ones affect us most severely Is it the threat of death or injury during a terrorist attack Is it the threat caused by industrial pollution that may poison us or destroy our physical environment Or does quiet but viciously damaging gender age class racial or ethnic discrimination have the most far reaching effect Do the problems of cities affect us if we live in the suburbs Do poorer nations problems with overpopulation affect our quality of life The Encyclopedia of Social Problems offers an interdisciplinary perspective into many social issues that are a continuing concern in our lives whether we confront them on a personal local regional national or global level With more than 600 entries these two volumes cover all of the major theories approaches and contemporary issues in social problems and also provide insight into how social conditions get defined as social problems and the ways different people and organizations view and try to solve them Key Features Provides as comprehensive an approach as possible to this multifaceted field by using experts and scholars from 19 disciplines anthropology biology business chemistry communications criminal justice demography economics education environmental studies geography health history languages political science psychology social work sociology and women s studies Presents a truly international effort with contributors from 17 countries Argentina Australia Canada England France Germany Greece Hong Kong India Ireland Italy Kenya New Zealand Romania Scotland Turkey and the United States Addresses social problems that

are fairly new such as computer crimes and identity theft and others that are centuries old such as poverty and prostitution Examines social problems differently from place to place and from one era to another Explains the perspectives and foundations of various social theories and offers different lenses to view the same reality Key Themes Aging and the Life Course Community Culture and Change Crime and Deviance Economics and Work Education Family Gender Inequality and Sexual Orientation Health Housing and Urbanization Politics Power and War Population and Environment Poverty and Social Class Race and Ethnic Relations Social Movements Social Theory Substance Abuse Readers investigating virtually any social problem will find a rich treasure of information and insights in this reference work making it a must have resource for any academic library The Routledge Handbook of Tourism Geographies Julie Wilson, 2012-03-15 Geographical analysis of tourism spaces and places is advancing fast In terms of human geography the various recent academic turns have led to fresh examination of existing debates and have advanced new theoretical ideas in geography that are more salient than ever for tourism studies The Routledge Handbook of Tourism Geographies seeks to examine such recent developments by providing a state of the art review of the field documenting advances in research and evaluating different perspectives approaches techniques and contexts The Routledge Handbook of Tourism Geographies considers recent disciplinary developments including post disciplinarily in geography in relation to the study of tourism It also analyzes the fledging relationships of the new mobilities paradigm critical tourism studies and cultural political economy to tourism spaces and places as well as acknowledging a spatial turn in poststructuralist social sciences more generally In addition it evaluates how postcolonial feminist sensory performative and queer perspectives have diversified research in the tourism geographies field Spatial analysis time geography placemaking and landscape concerns are addressed and issues such as transport environmental discourses and development are also analyzed Finally the volume s contributions highlight key areas for advancing research and map out the dimensions of future trajectories in tourism geographies in different theoretical and thematic contexts Written by leading scholars in the tourism geographies field this text will provide an invaluable resource for all those with an interest in tourism geographies encouraging dialogue across disciplinary boundaries and areas of study

The SAGE Encyclopedia of Abnormal and Clinical Psychology Amy Wenzel, 2017-03-16 Abnormal and clinical psychology courses are offered in psychology programs at universities worldwide but the most recent major encyclopedia on the topic was published many years ago Although general psychology handbooks and encyclopedias include essays on abnormal and clinical psychology such works do not provide students with an accessible reference for understanding the full scope of the field The SAGE Encyclopedia of Abnormal and Clinical Psychology a 7 volume A Z work print and electronic formats will be such an authoritative work Its more than 1 400 entries will provide information on fundamental approaches and theories various mental health disorders assessment tools and psychotherapeutic interventions and the social legal and cultural frameworks that have contributed to debates in abnormal and clinical psychology Key features include 1 400 signed articles
