## **Creating Life The Aesthetic Utopia Of Russian Modernism:**

Creating Life Irina Paperno, Joan Delaney Grossman, 1994 Russian modernists viewed art as a creative force destined to create not artistic texts but life itself and viewed life as an artistic creation Originating in Russian Symbolism of the 1890 s these views continued into the 1920 s and 1930 s informing Futurism and early Soviet culture and influencing socialist realism Selected Essays Viacheslav Ivanovich Ivanov, 2001 A poet critic and theoretician at the turn of the 20th century Viacheslav Ivanov was dubbed Viacheslav the Magnificent by his contemporaries This volume of essays covers a broad range of Ivanov s interests including the aesthetics of Symbolism theatre and culturological concerns *The Cambridge Companion to European Modernism* Pericles Lewis, 2011-09-08 Modernism arose in a period of accelerating globalization in the late nineteenth century Modernist writers and artists while often loyal to their country in times of war aimed to rise above the national and ideological conflicts of the early twentieth century in service to a cosmopolitan ideal This Companion explores the international aspects of literary modernism by mapping the history of the movement across Europe and within each country The essays place the various literary traditions within a social and historical context and set out recent critical debates Particular attention is given to the urban centers in which modernism developed from Dublin to Zurich Barcelona to Warsaw and to the movements of modernists across national borders A broad accessible account of European modernism this Companion explores what this cosmopolitan movement can teach us about life as a citizen of Europe and of the world

Reframing Russian Modernism Irina Shevelenko, 2018-12-11 Presenting a multifaceted portrait of modernist culture in Russia an array of distinguished scholars shows how artists and writers in the early twentieth century engaged with politics science and religion At a time when many Russian social institutions looked to the past modernist arts powerfully amplified a gamut of new ideas about individual and collective transformation Expanding upon prior studies that focus more specifically on literary manifestations of the movement Reframing Russian Modernism features original research that ranges broadly from political aesthetics to Darwinism to yoga These unique complementary perspectives counter reductionism of any kind integrating the study of Russian modernism into the larger body of humanistic scholarship devoted to modernity *Russia's Legal Fictions* Harriet Murav, 1998-07-06 DIVE explores the relationship between law literature and authority in nineteenth and twentieth century Russia div **Belomor** Julie S. Draskoczy, 2019-08-28 Containing analyses of everything from prisoner poetry to album covers Belomor Criminality and Creativity in Stalin s Gulag moves beyond the simplistic good evil paradigm that often accompanies Gulag scholarship While acknowledging the normative power of Stalinism an ethos so hegemonic it wanted to harness the very mechanisms of inspiration the volume also recognizes the various loopholes offered by artistic expression Perhaps the most infamous project of Stalin s first Five Year Plan the Belomor construction was riddled by paradox above all the fact that it created a major waterway that was too shallow for large crafts Even more significant and sinister is that the project won the backing of famous creative luminaries who enthusiastically professed the doctrine of self

fashioning Belomor complicates our understanding of the Gulag by looking at both prisoner motivation and official response from multiple angles thereby offering a more expansive vision of the labor camp and its connection to Stalinism

**A Soviet Credo: Shostakovich's Fourth Symphony** Pauline Fairclough, 2017-07-05 Composed in 1935-36 and intended to be his artistic credo Shostakovich's Fourth Symphony was not performed publicly until 1961 Here Dr Pauline Fairclough tackles head on one of the most significant and least understood of Shostakovich's major works She argues that the Fourth Symphony was radically different from its Soviet contemporaries in terms of its structure dramaturgy tone and even language and therefore challenged the norms of Soviet symphonism at a crucial stage of its development With the backing of prominent musicologists such as Ivan Sollertinsky the composer could realistically have expected the premiere to have taken place and may even have intended the symphony to be a model for a new kind of democratic Soviet symphonism Fairclough meticulously examines the score to inform a discussion of tonal and thematic processes allusion paraphrase and reference to musical types or intonations Such analysis is set deeply in the context of Soviet musical culture during the period 1932-36 involving Shostakovich's contemporaries Shostakovich's contemporaries Shebalin Myaskovsky Kabalevsky and Popov A new method of analysis is also advanced here where a range of Soviet and Western analytical methods are informed by the theoretical work of Shostakovich's contemporaries Viktor Shklovsky Boris Tomashevsky Mikhail Bakhtin and Ivan Sollertinsky together with Theodor Adorno's late study of Mahler In this way the book will significantly increase an understanding of the symphony and its context

**Decadence and Modernism in European and Russian Literature and Culture** Jonathan Stone, 2019-12-12 Decadence and Modernism in European and Russian Literature and Culture Aesthetics and Anxiety in the 1890s rewrites the story of early modernist literature and culture by drawing out the tensions underlying its simultaneous engagement with Decadence and Symbolism the unsustainable combination of this world and the other With a broadly framed literary and cultural approach Jonathan Stone examines a shift in perspective that explodes the notion of reality and showcases the uneasy relationship between the tangible and intangible aspects of the surrounding world Modernism quenches a growing fascination with the ephemeral and that which cannot be seen while also doubling down on the significance of the material world and finding profound meaning in the physical and the corporeal Decadence and Symbolism complement the broader historical trajectory of the fin de siècle by affirming the novelty of a modernist mindset and offering an alternative to the empirical and positivistic atmosphere of the nineteenth century Stone seeks to recreate a significant historical and cultural moment in the development of modernity a moment that embraces the concept of Decadence while repurposing its aesthetic and social import to help navigate the fundamental changes that accompanied the dawn of the twentieth century
