Creating The Modern Man American Magazines And Consumer Culture 1900 195:

Creating the Modern Man Tom Pendergast, 2000 Pendergast traces the shift in US periodicals from Victorian masculinity which valued character integrity hard work and duty to modern masculinity which valued personality self realization and image Arguing that the rise of mass consumer culture was a key factor in the change he describes how such magazines as American Magazine Esquire and True presented masculinity in ways that reflected the magazines relationship to advertisers contributors and readers Annotation copyrighted by Book News Inc Portland OR **Pulp Vietnam** Gregory A. Daddis, 2020-10-22 Explores how Cold War men s magazines idealized warrior heroes and sexual conquerors and normalized conceptions of martial masculinity **At Vanity Fair** Kirsty Milne, 2015-05-12 Explores how Vanity Fair transformed from its Puritan origins as an emblem of sin into a modern celebration of hedonism *The Oxford Handbook of American Literary Realism* Keith Newlin, 2019 The Oxford Handbook of American Literary Realism offers fresh interpretations of the artistic and political challenges of representing life accurately It is the first book to treat the subject topically and thematically in wide scope with essays that draw upon recent scholarship in literary and cultural studies to offer an authoritative and in depth reassessment of major and minor figures and the contexts that shaped their work **Magazines and Modern Identities** Tim Satterthwaite, Andrew Thacker, 2023-09-21 In the late nineteenth and early twentieth century ideals of technological progress and mass consumerism shaped the print cultures of countries across the globe Magazines in Europe the USA Latin America and Asia inflected a shared internationalism and technological optimism But there were equally powerful countervailing influences of patriotic or insurgent nationalism and of traditionalism that promoted cultural differentiation In their editorials images and advertisements magazines embodied the tensions between these domestic imperatives and the forces of global modernity *Magazines and Modern Identities* explores how these tensions played out in the magazine cultures of ten different countries describing how publications drew on resisted and informed the ideals and visual forms of global modernism Chapters take in the magazines of Australia Europe and North America as well as China The Soviet Turkic states and Mexico With contributions from leading international scholars the book considers the pioneering developments in European and North American periodicals in the modernist period whilst expanding the field of enquiry to take in the vibrant magazine cultures of east Asia and Latin America The construction of these magazines modern ideals was a complex dialectical process in dialogue with international modernism but equally responsive to their local cultures and the beliefs and expectations of their readers *Magazines and Modern Identities* captures the diversity of these ideals in periodicals that both embraced and criticised the globalised culture of the technological era *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences*, 2000 **Una guerra di meraviglie?** Federico Mazzini, 2019-11-30 La prima guerra mondiale scoppia all apice della seconda rivoluzione industriale Nel giro di poco pi di cinquant anni invenzioni quali il telefono l illuminazione elettrica e l automobile moderna cambiarono la

vita di buona parte della popolazione occidentale Al contempo invenzioni meno quotidiane ma non meno importanti quali la mitragliatrice l aeroplano e il sommergibile rivoluzionarono le modalit con le quali la guerra sarebbe stata combattuta dolorosamente ironico che il lungo Ottocento il Secolo del Progresso si chiuda nel massacro tecnologico che fu la prima guerra mondiale Nel fango delle trincee non si infranse soltanto un idea della guerra come impresa nobile eroica gloriosa ma anche la convinzione che scienza e tecnica fossero necessariamente positive e inevitabilmente volte al miglioramento della condizione umana Attraverso le immagini delle riviste illustrate e di divulgazione tecnoscientifica dell epoca l esposizione Una guerra di meraviglie racconta da una parte la realt delle principali innovazioni tecniche che forgiarono il paesaggio fisico e mentale della prima guerra mondiale e dall altra le invenzioni mai realizzate che articolisti e illustratori proponevano per risolvere il conflitto Attraverso armi che mai videro il campo di battaglia e le fantasie di inventori amatoriali l esposizione racconta un immaginario tecnologico che ebbe un reale effetto tanto sull idea di guerra quanto sull idea di scienza e di comunicazione scientifica *Subject Guide to Books in Print* ,1993 *Arts & Humanities Citation Index* ,2001

Progress Leo Marx,Bruce Mazlish,2025-10-01 Progress perhaps the fundamental secular belief of modern Western society has come under heavy fire recently because after three centuries advances in science and technology seem increasingly to bring problems in their wake alienation environmental degradation the threat of nuclear destruction The idea of progress is brought into question by postmodern critique attacking the notion of science as truth Yet no other meaningful organization of humankind s sense of time looms on the horizon This volume seeks to reassess the meaning and prospects of the idea of progress Looking toward the millennium the volume seeks to evaluate the idea s worth both in theory is it intellectually viable and defensible today and practice even if theoretically defensible is the idea undermined in actual life Approaching these questions from the perspectives of science anthropology economics religion political philosophy feminism medicine environmental studies and the Third World the contributors all distinguished scholars provide a unique and critical balance Ultimately the contributors find that progress is both a fact and an illusion it does occur in certain areas but it does not sweep all before it as its Enlightenment votaries thought it would This foundational idea permeates discourse in the natural and social sciences as well as the humanities and will engage historians students of the history of science and technology sociologists political scientists philosophers literary scholars and art critics as well as those interested in civilization in general Contributors include Jill Ker Conway Zhiyuan Cui Leon Eisenberg Robert Heilbroner Gerald Holton Leo Marx Bruce Mazlish Ali A Mazrui Alan Ryan John M Staudenmaier George W Stocking Jr and Richard White A discerning reconsideration of the idea of progress in a variety of carefully defined theoretical and empirical historical contexts David Hollinger University of California Berkeley Leo Marx is Professor of American Cultural History Emeritus Massachusetts Institute of Technology Bruce Mazlish is Professor of History Massachusetts Institute of Technology

Hangen,2003-12-04 Blending cultural religious and media history Tona Hangen offers a richly detailed look into the world of religious radio She uses recordings sermons fan mail and other sources to tell the stories of the determined broadcasters and devoted listeners who together transformed American radio evangelism from an on air novelty in the 1920s into a profitable and wide reaching industry by the 1950s Hangen traces the careers of three of the most successful Protestant radio evangelists Paul Rader Aimee Semple McPherson and Charles Fuller and examines the strategies they used to bring their messages to listeners across the nation Initially shut out of network radio and free airtime both of which were available only to mainstream Protestant and Catholic groups evangelical broadcasters gained access to the airwaves with paid time programming By the mid twentieth century millions of Americans regularly tuned in to evangelical programming making it one of the medium's most distinctive and durable genres The voluntary contributions of these listeners in turn helped bankroll religious radio's remarkable growth Revealing the entwined development of evangelical religion and modern mass media Hangen demonstrates that the history of one is incomplete without the history of the other both are essential to understanding American culture in the twentieth century **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1901 **America, History and Life** ,1997 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide
