Violent Criminal Acts and Actors Revisited Lonnie H. Athens, 1997 Rather than finding the causes of criminal behavior in external forces or personality disorders as conventional wisdom often does the author renews his fundamental argument that a violent situation comes into being when defined by an individual as a situation that calls for violence that an actor responds to the circumstance as he or she defines it Based on the author s many firsthand interviews with offenders and on his personal experience this book augments his call to reexamine the source and locus of violent criminal behavior

Wiest, 2011-06-06 Providing a comprehensive exploration, this volume explains connections between American culture and the incidence of serial murder, including reasons why most identified serial murderers are white male Americans. Presenting empirically supported arguments that have the potential to revolutionize how serial murder is understood, this volume includes an illustrated model that explains how people utilize cultural values to construct lines of action according to their cultural competencies. It demonstrates how the American cultural milieu fosters serial murder and the creation of white male serial murderers and provides a critique of the American mass media's role in the notoriety of serial murder.

African American Males Dionne J. Jones, **African American Males** **Crime and Coercion** M. Colvin, 2000-09-01 In a major new theory of criminal behavior, Mark Colvin argues that chronic criminals emerge from a developmental process characterized by recurring erratic episodes of coercion. Colvin's differential coercion theory, which integrates several existing criminological perspectives, lays out a compelling argument that coercive forces create social and psychological dynamics that lead to chronic criminal behavior. While Colvin's presentation focuses primarily on chronic street criminals, the theory is also applied to exploratory offenders and white-collar criminals. In addition, Colvin presents a critique of current crime control measures which rely heavily on coercion and offers in their place a comprehensive crime reduction

This serves as a reference source for anyone interested in the roots of contemporary criminological theory. Drawing together a team of international scholars, it examines the global landscape of all the key theories and the theorists behind them, presenting them in the context needed to understand their strengths and weaknesses. In addition to interpretations of long established theories, it also offers essays on cutting edge research as one might find in a handbook. And like an unabridged dictionary, it provides concise to the point definitions of key concepts, ideas, schools, and figures. Coverage will include contexts and concepts in criminological theory, the social construction of crime, policy implications of theory, diversity and intercultural contexts, conflict theory, rational choice theories, conservative criminology, feminist theory. Victim Policies and Criminal Justice on the Road to Restorative Justice Tony Peters, 2001. This edited volume contains 22 papers organized into three sections under the following headings: part I is entitled On Promoting Victim Policies, Part II On Reforming Criminal Justice, and Part III On Restorative Justice. All three areas are ones to which Tony Peters, former Professor of Criminology in Leuven, has made a significant contribution and for which he is known as an international authority. During his long and productive academic career, Tony Peters led many struggles for criminal justice reform. He was a leading figure in the movement to recognize crime victims' plight and to reaffirm their rights. In Belgium, he spearheaded the early initiatives in restorative justice and became one of its outspoken proponents nationally and internationally. There is no doubt that these three major topics and the various developments and reforms that are addressed in the papers will dominate the thinking about and the practice of criminal justice in the years to come. Thus, in addition to paying homage to a congenial friend and an illustrious colleague, it is hoped that this book will appeal and prove useful to all those who have an interest in victims' issues in criminal justice reform and last but not least in the promising paradigm of restorative justice. **Analytic Reflections from Conflict Zones** James R. Adams, 2021-09-22. This book details the compelling story of the author's life journey through conflict zones and his return home with innovative conflict assessment and transformation frameworks and models to help people better see their conflict circumstances and peacebuilding possibilities. Analytic reflections aimed directly at academics, professionals, and citizens. This engaging approach contains a blend of on-the-ground stories, mix of professional and personalized writing styles, astute historical and policy contextualization, and accessible field-tested analytic tools with community, societal, and international intervention implications. It is also a cautionary tale for increasingly conflicted societies. Political polarization, caustic commentary, and societal discord in America and elsewhere remind the author an informed eyewitness of dangerous conflict patterns and consequences that he has seen before in various conflict zones.
