The Creation of the British Personal Social Services, 1962-1974 Joan D. Cooper, 1983 *British Social Welfare* David Gladstone, 2005-08-02 Annotation First published in 1995 Routledge is an imprint of Taylor Francis an informa company *Understanding the Roots of Voluntary Action* Colin Rochester, George Campbell Gosling, Alison Penn, Meta Zimmeck, 2011-03-01 Draws on a range of empirical studies of aspects of the history of voluntary action This title includes chapters that range across two centuries and a variety of fields of activity geographical areas and organisational forms *A Bibliography of British History, 1914-1989* Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index

Social Work, the Media and Public Relations (Routledge Revivals) Bob Franklin, Nigel Parton, 2014-06-17 Over the past few decades relationships between social workers and the media have become increasingly challenging Social workers feel aggrieved by media reporting of their profession and believe that journalists lack sufficient knowledge and experience of the social services to report matters adequately and sensitively whilst some journalists have urged social workers to adopt a more proactive public relations strategy This book first published in 1991 analyses the causes and consequences of the negative portrayal of social work within the media and considers various ways in which this image might be improved The authors consider a variety of developments during the 1990s designed to redress imbalances in media reporting and present a more accurate picture of social workers and the people with whom they work This title remains very relevant in light of the high profile cases related to the social service that continue to feature in the British press and will be of particular value to students and researchers with an interest in the relationship between the media and social policy

Understanding Social Work Pierson, John, 2011-10-01 Introduces students to the evolution of social work and enhances understanding of contemporary policy and practice *The Personal Social Services* Robert Adams, 1996 Covers the full range of community

care social care social work and social service provision that exists in the statutory voluntary private and informal sectors in Britain dealing with their strengths shortcomings and impact on workers and service users **Social Work on Trial** Ian Butler, Mark Drakeford, 2012 This book describes the local and national politics professional concerns and public interest that surrounded the inquiry following the death of Maria Colwell in 1973 **Beyond Westminster & Whitehall** R. A. Rhodes, 2002-09-11 Beyond Westminster and Whitehall provides the first comprehensive account of the range of sub central government institutions that are responsible for the delivery of services to citizens These bodies are the warp and weft of the British system of government and yet are all too frequently ignored For a full understanding of British government the study of sub central government is of equivalent importance to that of the Prime Minister the Cabinet and Parliament Westminster and Whitehall do not always get what they want There are a great many restraints upon the actions of the centre and central policies all too often have unintended consequences This book demonstrating that Britain is not a unitary state but a differentiated polity in which sub central governments play a key role will be essential reading for teachers and students of British politics **Narcissistic Parenting in an Insecure World** Harry Hendrick, 2016-07-06 In this provocative history of parenting Harry Hendrick analyses the social and economic reasons behind parenting trends He shows how broader social changes including neoliberalism feminism the collapse of the social democratic ideal and the new behaviourism have led to the rise of the anxious and narcissistic parent The book charts the shift from the liberal and progressive parenting styles of the 1940s 70s to the more behavioural punitive and managerial methods of childrearing today made popular by experts such as Gina Ford and Supernanny Jo Frost and by New Labour's parent education programmes This trend Hendrick argues is symptomatic of the sour mean spirited and vindictive social norms found throughout society today It undermines the better instincts of parents and therefore damages parent child relations Instead he proposes parents should focus on understanding and helping their children as they work at growing up **From Transmitted Deprivation to Social Exclusion** John Welshman, 2007-09-13 This book explores the history of debates over transmitted deprivation and their relationship with current initiatives on social exclusion It examines the content and background to Sir Keith Joseph's famous cycle of deprivation speech of 1972 and traces the direction taken by the DHSS SSRC Research Programme **Family Law in the Twentieth Century** Stephen Michael Cretney, 2003 The law governing family relationships has changed dramatically in the course of the 20th century and this book drawing extensively on both published and archival material and on legal as well as other sources gives an account of the processes and problems of reform **Caring and Coping** Anthony Douglas, Terry Philpot, 2002-03-11 Caring and Coping provides a clear and accessible explanation of the history politics management funding and day to day work of the social services in Britain Social Care now encompasses a wide range of increasingly specialised professions Caring and Coping aims to improve the practitioner's and the general public's understanding not only of what these various professions do but also what the legal political ethical and financial constraints are upon them It

succinctly addresses issues such as the terms and effects of the Children Act and the Community Care Act the role of charities in the modern welfare state the role of management relationships with other agencies and the place of social work within the community Social services are so often portrayed in the media in a sensationalist way and this book counterbalances the hype by providing solid research and a more down to earth picture It is an ideal introductory text for those training to be social workers

Best Practice with Children and Families Barry Cooper, Jean Gordon, Andy Rixon, 2014-12-12 Social work practice with children young people and families is complex highly skilled and fascinating Writing about social work increasingly acknowledges the complexities and uncertainties of practice but rarely features the voice of the social worker themselves This book takes a different approach that of Critical Best Practice a constructive realistic and strengths based approach that takes as its starting point the telling and analysing of in depth stories about live practice The reader is encouraged to join the social work practitioner or manager as they engage with the everyday dilemmas and uncertainties of 21st century practice Ten narratives based round the themes of relationships risk and negotiation problem solving provide varied opportunities for critical reflection and learning about social work in different contexts Insights are offered into social work with children from young babies to adolescents and families with differing needs in different parts of the UK England Scotland and Wales

Underclass John Welshman, 2007-01-10 Who are those at the bottom of society There has been much discussion in recent years on both Left and Right about the existence of an alleged underclass in both Britain and the USA It has been claimed this group lives outside the mainstream of society is characterised by crime suffers from long term unemployment and single parenthood and is alienated from its core values In *Underclass A History of the Excluded 1880 2000* John Welshman shows that there have always been concerns about an underclass whether constructed as the social residuum of the 1880s the problem family of the 1950s or the cycle of deprivation of the 1970s There are marked differences between these concepts but also striking continuities Indeed a concern with an underclass has in many ways been as long as an interest in poverty itself This book is the first to look systematically at the question providing new insights on contemporary debates about behaviour poverty and welfare reform In a speech in 2006 Tony Blair signalled a major push on social exclusion He aimed to show the Government's determination to tackle a hard core underclass estimated at 1 m people The focus in Whitehall had moved to what were termed high risk high harm and high cost families and to children in care teenage mothers and people with mental health problems on benefit In all of this the rhetoric of a cycle of deprivation and of inter generational continuities was ever present and it is those continuities that this book seeks to explore

Matching Resources to Needs in Community Care Bleddyn Davies, David Challis, 2018-08-09 First published in 1986 *Matching Resources to Needs* describes the PSSRU's community care approach and analyses the first of the community care projects a seminal set of experiments in the care of the elderly at high risk of institutional long term care The experiments create field structures which provide incentives to improve efficiency

decentralised power over resources being balanced by enhanced accountability The first part explains the approach analyses the causes of inefficiency in British social care and reviews British and American evidence about the relationships between resources recipient characteristics and outcomes The approach is compared with some two dozen American experiments hitherto unknown in the UK It describes the design of the project and its evaluation The authors then examine the experimental results They show that cost and welfare effects are better and the costs of outcomes are lower for recipients of community care The third part of the book uses observational and other data to explore the relationships between structures assumptive worlds causal processes and outcomes and their costs It also analyses the performance of the core tasks of entrepreneurial case management for types of case The book concludes with a discussion of the broader implications of this approach to community care
