Creation Out Of Nothing:

Creation Out of Nothing Paul Copan, William Lane Craig, 2004-06 Addresses the biblical philosophical and scientific bases for the doctrine of creation out of nothing while countering contemporary trends that are assailing this doctrine

Encountering Evil Stephen T. Davis, 2001-01-01 Eight prominent philosophers and theologians confront the problems posed by natural and human evil for theistic belief Each thinker sets out his or her theodicy and its connections to current social and philosophical debates The other contributors then offer critiques of each theodicy to which its author subsequently responds The result is a valuable introduction to philosophical and theological perspectives on contemporary evil and to the nature of discourse in the philosophy of religion

Creatio Ex Nihilo Gerhard May, 2004-10-26 A unique study challenging the assumption that the doctrine of creation out of nothing was inherited by Christianity along with the Jewish scriptures which the Church adopted

The Science of God Alister E. McGrath, 2004-01-01 How do science and theology interact What can be gained by exploring Christian theology using the insights of the natural sciences Can a synergy be found Is there a defensible natural theology within the scope and framework of a revealed God

Christianity and the Notion of Nothingness Kazuo MUTO, 2012-03-19 This publication by Muto Kazuo is a significant Christian contribution to the predominantly Buddhist Kyoto School of Philosophy Muto proposes a philosophy of religion in order to overcome the claim for Christian exclusivity as proposed by Karl Barth and others On such a foundation he investigates the possibilities for mutual understanding between Buddhism and Christianity Thereby he engages in a critical exchange with the Kyoto School philosophers Nishida Tanabe and Nishitani Throughout his discourse Muto applies their method of logical argument the dialectic of soku to the dialogue between Christianity and Buddhism He thus opens up new perceptions of Christian faith in the Asian context and together with his Buddhist teachers challenges the modern Western dialectical method of reasoning

The Image of God, Personhood and the Embryo Calum MacKellar, 2017-04-25 Why are human embryos so important to many Christians What does theology say concerning the moral status of these embryos Answers to these questions can only be obtained by considering the manner in which Christian theology understands the great theme of the image of God This book examines the most important aspects in which this image and the related Christian notion of personhood can be used in the context of theological arguments relating to the moral status of the human embryo Thoughtful in approach and ecumenical in perspective the author combines a thorough knowledge of the science of embryology with a broad knowledge of the theological implications Part I Historical and Contemporary Christian Perspectives 1 The Moral Status of the Embryo 2 The Image of God 3 Being a Person from a Christian Perspective Part II The Image of God Personhood and the Embryo 4 Creation and the Embryo 5 Incarnation and the

Embryo 6 Substantive Aspects and the Embryo 7 Relational Aspects and the Embryo 8 Functional Aspects and the Embryo Conclusion Appendix The Moral Status of New Kinds of Embryo **Schelling versus Hegel** Mr John Laughland, 2012-10-01

In tracing Friedrich von Schelling's long philosophical development John Laughland examines in particular his disentanglement from German idealism and his reaction later in life against Hegel. He argues that this story has relevance beyond the facts themselves and that it explains much about the direction philosophy took in the century between the French Revolution and the rise of Communism. Schelling's development turned principally on the related questions of human liberty and the creation. Following a sharp disagreement with his old friend Hegel over the *Phenomenology* in 1807, Schelling wrote a short but brilliant essay on human freedom in 1809 after which he never published another word. In the remaining decades of his life, in 1854, Schelling developed in an increasingly conservative and Christian direction, preoccupied with the relationship between Christianity and metaphysics. In numerous lectures and unpublished works he attacked what he saw as the hubris and artificiality of Hegelian rationalism. However, the path against which Schelling warned was the one which philosophy finally took. Schelling was determined to show how philosophy, especially ontology, explained and was explained by Christianity and that both had been damaged by modern rationalism. But Hegel's Marxist epigones, who attended his later lectures, scoffed and Hegelianism triumphed. This is an elegantly written and engaging study in the history of ideas of a philosopher on the losing side.

Marco Simionato,2021-11-17 The philosophical question of nothingness has often been controversial The main core of the question is the use of nothing or nothingness as a noun phrase rather than a quantifier phrase This work deals with the question of nothingness and metaphysical nihilism in analytic philosophy After evaluating an account of nothingness based on the notion of an empty possible world the present work proposes two original arguments for metaphysical nihilism With a preface by Graham Priest Simionato s book delivers a welcome deepening of our understanding of nothing Graham Priest

God in the Fray Walter Brueggemann,Tod Linafelt,Timothy Kandler Beal, This volume engages the work of Walter Brueggemann most of which has been published by Fortress Press The volume centers on the character of God in the text of the Old Testament as a site of theological tension and even ambivalence Biblical faith never experiences God as entirely above the fray but rather as entangled in history astonishingly transformative and impinged upon by the voices of the suffering Brueggemann s monumental Theology of the Old Testament addresses this fact with great theological insight and rigor and the internationally renowned biblical scholars writing here engage and extend his insights into the unsettled Character at the center of the text *Voicing Creation's Praise* Jeremy Begbie,1991-01-01 An introduction to the theology of art and the art of theology Inculturation and Postcolonial Discourse in African Theology Edward P. Reproduction of the original Christianity by Ludwig Feuerbach **Disease, Karma and Healing** Rudolf Steiner,2013-11-21 Today illness is almost universally regarded as either a nuisance or a grave misfortune In contrast to this conventional thinking Rudolf Steiner places the suffering caused by disease in a broad vista that includes an understanding of karma and personal metamorphosis Illness comes to expression in the physical body but mostly does not originate in it says Steiner and thus a key part of the physician s work involves gaining insight into the whole nature of an individual his essential core being From this perspective illness offers us the opportunity for deeper healing Throughout this volume Rudolf Steiner draws our attention to the greater scope of the smallest phenomena even a seemingly insignificant headache He casts vivid light on things we normally take for granted such as the human capacity to laugh or cry and in the process broadens our vision of human existence The apparently mundane human experiences of forgetting and remembering are intrinsic to our humanity for example and have unsuspected moral and spiritual dimensions Steiner s insights are never merely lofty or nebulously spiritual but time and again connect with the minutest realities of everyday life In these 18 lectures delivered on a weekly basis as part of an ongoing course covering the whole field of spiritual science Steiner elaborates in detail on the diverse interplay of the human being s constituting aspects physical body etheric body astral body and ego or I in relation to rhythmic processes developing consciousness the history of human evolution and our connection with the cosmos Within this broad canvas some of his themes acquire a very distinctive focus such as vivid accounts of the intimate history of Christianity creating out of nothing the interior of the earth and health and illness Other topics include the nature of pain suffering pleasure and bliss the four human group souls of lion bull eagle and man the significance of the Ten Commandments the nature of original sin the deed of Christ and the adversary powers of Lucifer Ahriman and the Asuras evolution and involution

the Atlantean period and even Friedrich Nietzsche's madness
