Origins of the Universe, Life and Species Plammoottil Cherian, 2018-03-22 The relationship between science and theology has been a crisis for humanity since Darwin's publication of Origin of Species that affects the very core of scientific and Biblical truths with serious consequences In this detailed and absorbing book Dr Cherian provides astounding facts of science that were deciphered in the last 500 years each of which is recorded in the Biblical Scriptures Heeding back to the Biblical account of creation Dr Cherian takes the readers from the erroneous notion of the origin of the universe without a cause and abiogenesis as the source of life to the latest scientific discoveries that corroborate the Biblical evidence for divine creation of the universe life and species that dispel Darwinian evolution The Origins of the Universe Life and Species sheds much light for a better understanding of the Scriptures that were hidden to many scientists researchers and students to relate the scientific discoveries that reveal the Biblical truths for a better appreciation of the unknown God who reveals himself through the many scientists and their discoveries Dr Cherian uses all branches of science from astronomy to zoology connecting the dots between science and theology that stretches from the highest of heavens outer space to the deepest of ocean floor revealing the unknown God to be the KNOWN GOD

Rediscovering Genesis Gerald Ostroot, 2009-11 Rediscovering Genesis is an exciting new look at the evolution creation controversy Its author is neither scientist nor theologian so he can present an objective point of view The premise of the book is that both religion and science describe the same Universe and must be compatible It accomplishes that goal by exposing the hidden assumptions and self imposed restriction of both disciplines and challenging them It documents the changes needed from both disciplines The book presents a well researched effort to root out the causes of the evolution creation controversy and to discover a solution that includes both disciplines While the book is aimed at a Christian audience it has much to offer to the less committed

individuals as well. It will be of special interest to those who have been or are currently being exposed to the Theory of Evolution in our educational systems. It will be invaluable to the parents of those students. It will serve as a guide to educators. It will be of interest to all that are aware of the present controversy. The book is divided into two parts. The first part looks at the biblical creation account in the first 4 chapters of Genesis. By incorporating our modern knowledge into this account, it becomes compatible with both the scientific account of our beginning and the literal seven days of creation described in the Bible. That is a necessary first step in resolving the controversy between science and religion. Part 1 goes on to bring a new deeper understanding of our relationship with our Creator. Part two brings us face to face with two major roadblocks to accepting a world view that includes a Creator: 1. the problem of suffering in our world and 2. the evolution creation controversy. The first roadblock, the problem of suffering, occurs only in the teaching of Christianity. It occurs because we misunderstand the relationship of the Creator with His creation. Understanding this special relationship starts in Genesis. Misunderstanding and misinformation have marked the second, the evolution creation controversy, from the very beginning. This book explains the facts that are important for general understanding. It goes on to closely examine the scientific definition of life and shows where it leads. This is also a necessary step in resolving the evolution science controversy. Throughout the book, the overriding theme is authority and its important function in our lives. It is the common ground where both science and religion can merge. Find out how it can change your world view and your life.

Faith and Science

Kenneth D. Keathley, 2024-09-15. In *Faith and Science: A Primer for a Supernatural World*, Kenneth Keathley argues that rather than acting as opposing forces, scientific inquiry and the Christian faith go hand in hand. In his mission to offer a fully integrated theology of science, Keathley begins with the Lordship of Christ and the sufficiency of Scripture. He characterizes the study of science as a providential gift and a worthy vocation with Christian origins. Keathley then examines the twin challenges of scientism and fideism, observing their deficiencies as comprehensive worldviews. After defending Galileo as a scientist-theologian, Keathley offers readers a model for how to integrate their Christian faith with their scientific pursuits. *Faith and Science* provides a ready primer for students and everyday Christians to challenge their preconceptions about faith and science and to develop a more robust worldview to guide their examinations of our supernatural world. The Christ in Everything series exists to demonstrate how Christ is connected to all of life. The primers in this series serve as introductions to important cultural topics including science, freedom, politics, beauty, and the nature of truth. Each book offers a biblical and theological framework from which to view and approach the topic at hand, followed by examples for how to walk in the way of Jesus in that cultural domain.

True and Reasonable Ronald F. Satta, 2009-05-13. In the Bible, faith is contrasted with sight, not with reason. The apostle Paul consistently reasoned with his listeners, persuading them regarding the truth of his message, establishing a precedent for Christian apologetics. Acts 17:17-18:4 and 18:19. He did so because the Christian faith is reasonable. This defense begins with arguments in favor of theism: a finite universe, physical laws hospitable to life, and the

origin and complexity of life These factors suggest the existence of a brilliant and powerful creator who designed the universe our world and us But is it possible to know the designer Yes The next section deals with the authority of Scripture and more exactly with why the Bible is superior to every other source legitimizing its claim to divine origin Several key prophetic passages are analyzed including Isaiah 53 and Daniel 9 Since it is humanly impossible to accurately forecast the future with specificity the fact that Scripture consistently does so indicates that it is a special composition whose message about the designer should be carefully considered From the authority of the Bible the work turns to the person of Jesus Christ He alone fulfills the prophecies of Isaiah Daniel and the other prophets Moreover the cohesive message of the apostles the primary sources following the crucifixion even under considerable duress further testifies to the reality of the bodily resurrection of Jesus When these factors are combined the Christian faith is endorsed by considerable philosophical scientific historical and biblical evidence making its truth claims quite probable intellectually satisfying and entirely reasonable

Revealing God's Truth Paul Welechenko, 2024-08-14 Christians should never feel like they have to deny science to keep their faith We can place our faith in Christ and scripture and at the same time embrace science We need not be discouraged

by scientific discoveries but rather be encouraged by them as all truth scientific and spiritual is God's truth. The complexities of the universe, Earth, and life reveal the creative mind of God and provide proof they could not have originated by chance. The Bible is not falsifiable but a 6,500-year-old Earth is. Christians can believe in the Bible and in evolution. Evolution is not a God replacement. Revealing God's Truth provides clear and helpful guidance in understanding that God exists and that the universe, including Earth, is old. Stories from Genesis such as the creation story and Noah's flood are examined and offered as proof of God's intelligent design for Earth and all life. Faith-building arguments for the validity of science and the Bible are made, giving Christians hope in an infinite, intelligent, and loving God.
