Słoma,2024-05-06 Additive manufacturing also called rapid prototyping or 3D printing is a disruptive manufacturing technique with a significant impact in electronics With 3D printing bulk objects with circuitry are embedded in the volume of an element or conformally coated on the surface of existing parts allowing design and manufacturing of smaller and lighter products with fast customisation The book covers both materials selection and techniques The scope also covers the research areas of additive manufacturing of passive and active components sensors energy storage bioelectronics and more

Cultural and Creative Industries and Regional Development Roberto Dellisanti,2023-05-16 This book explores the role of the cultural and creative industries CCI as drivers of local economic development More specifically it builds on two novel perspectives in order to interpret the phenomenon First despite the general recognition that CCIs are innovative economic actors their creative output is heterogeneous as CCIs consist of extremely diverse industries and the concept of innovation differs from sector to sector Second CCIs creativity is locally rooted as the context provides innovative inputs for the development of creative ideas binding creativity with well established theories of the regional innovation literature The book explores these new perspectives through a novel database on CCIs innovation at a fine industrial and regional scale Building on these two ideas the book is subdivided into three parts In the first a novel definition of creativity in CCIs is developed in which its heterogeneity and place based nature are at the core In turn the second part addresses the phenomenon of localization choices in CCIs highlighting their heterogeneous innovativeness and the fili re which they belong to as key dimensions for the analysis In the third part the impact of CCIs on economic growth is explored This book offers new evidence on the conditions under which CCIs cluster in space and stimulate development It appeals to scholars in regional science cultural economics and related fields as well as policymakers and practitioners working in the cultural and creative industries
