Katherine Menz, 1989 **"Architecture and Pilgrimage, 1000-1500"** Deborah Howard, 2017-07-05 Although there is an obvious association between pilgrimage and place relatively little research has centred directly on the role of architecture Architecture and Pilgrimage 1000-1500 Southern Europe and Beyond synthesizes the work of a distinguished international group of scholars It takes a broad view of architecture to include cities routes ritual topographies and human interaction with the natural environment as well as specific buildings and shrines and considers how these were perceived represented and remembered The essays explore both the ways in which the physical embodiment of pilgrimage cultures is shared and what we can learn from the differences The chosen period reflects the flowering of medieval and early modern pilgrimage The perspective is that of the pilgrim journeying within or embarking from Southern Europe with a particular emphasis on Italy The book pursues the connections between pilgrimage and architecture through the investigation of such issues as theology liturgy patronage miracles and healing relics and individual and communal memory Moreover it explores how pilgrimage may be regarded on various levels from a physical journey towards a holy site to a more symbolic and internalized idea of pilgrimage of the soul

Dawn of Christian Art in Panel Paintings and Icons Thomas F. Mathews, Norman E. Muller, 2017-02-01 Staking out new territory in the history of art this book presents a compelling argument for a lost link between the panel painting tradition of Greek antiquity and Christian paintings of Byzantium and the Renaissance While art historians place the origin of icons in the seventh century Thomas F Mathews finds strong evidence as early as the second century in the texts of Irenaeus and the Acts of John that describe private Christian worship In closely studying an obscure set of sixty neglected panel paintings from Egypt in Roman times the author explains how these paintings of the Egyptian gods offer the missing link in the long history of religious painting Christian panel paintings and icons are for the first time placed in a continuum with the pagan paintings

that preceded them sharing elements of iconography technology and religious usages as votive offerings Exciting discoveries punctuate the narrative the technology of the triptych enormously popular in Europe traced by the authors to the construction of Egyptian portable shrines such as the Isis and Serapis of the J Paul Getty Museum the discovery that the egg tempera painting medium usually credited to Renaissance artist Cimabue has been identified in Egyptian panels a millennium earlier and the reconstruction of a ring of icons on the chancel of Saint Sophia in Istanbul This book will be a vital addition to the fields of Egyptian Graeco Roman and late antique art history and more generally to the history of painting Natural Histories of Discourse Michael Silverstein,Greg Urban,1996-07-15 Is culture simply a more or less set text we can learn to read Since the early 1970s the notion of culture as text has animated anthropologists and other analysts of culture Michael Silverstein and Greg Urban present this stunning collection of cutting edge ethnographies arguing that the divide between fleeting discursive practice and formed text is a constructed one and that the constructional process reveals culture to those who can interpret it Eleven original essays of natural history range in focus from nuptial poetry of insult among Wolof griots to case based teaching methods in first year law school classrooms Stage by stage they give an idea of the cultural processes of entextualization and contextualization of discourse that they so richly illustrate The contributors varied backgrounds include anthropology psychiatry education literary criticism and law making this collection invaluable not only to anthropologists and linguists but to all analysts of culture **Esoteric Buddhism and the Tantras in East Asia** Charles Orzech,Henrik Sørensen,Richard Payne,2011 This volume the result of an international collaboration of forty scholars provides a comprehensive resource on Esoteric Buddhism and the Tantras in their Chinese Korean and Japanese contexts from the first few centuries of the common era to the present **Printed Icon** Lisa Pon,2015-03-23 Lisa Pon examines the cultural biography of the city of Forl s miraculous woodcut the Madonna of the Fire *Holiday Symbols & Customs, 5th Ed.* James Chambers,2015-07-01 A guide to the legend and lore behind the traditions rituals foods games animals and other symbols and activities associated with holidays and holy days feasts and fasts and other celebrations **Golden Shrines** Nakoa Rainfall,AI,2025-02-27 Golden Shrines explores the captivating relationship between gold and the divine across various cultures and religions It delves into the historical and religious significance of gilded temples sacred altars and monuments examining how gold serves as a potent symbol of purity enlightenment and power Readers will discover how the construction of these resplendent sites reflects not only spiritual aspirations but also earthly power shaped by historical events patronage and trade routes The book offers a unique perspective on the enduring human fascination with both material wealth and spiritual transcendence The book systematically progresses beginning with an introduction to golden shrines across different faiths including Buddhism Hinduism and Christianity It then examines the theological importance of gold the historical and socio political factors influencing the construction of these sites and the artistic and architectural techniques employed By synthesizing these perspectives Golden Shrines reveals how these sites represent a convergence of

spiritual yearning historical circumstance and artistic achievement **Monte Cassino in the Middle Ages** Herbert Bloch, 1986 The monastery of Monte Cassino founded by St Benedict in the sixth century was the cradle of Western monasticism It became one of the vital centers of culture and learning in Europe At the height of its influence in the eleventh and early twelfth centuries two of its abbots including Desiderius and one of its monks became popes and it controlled a vast network of dependencies churches monasteries villages and farms especially in central and southern Italy Herbert Bloch's study the product of forty years of research takes as its starting point the twelfth century bronze doors of the basilica of the abbey the most significant relic of the medieval structure The panels of these doors are inscribed with a list of more than 180 of the abbey's possessions Mr Bloch has supplemented this roster with lists found in papal and imperial privileges and other documents The heart of the book is a detailed investigation of the nearly 700 dependencies of Monte Cassino from the sixth to the twelfth century and beyond No comparable study of this or any other great medieval institution has ever before been undertaken Ironically it was the bombing of 1944 which destroyed the monastery that led to an unexpected revelation the discovery on the reverse side of some panels of the doors of magnificent engraved figures of patriarchs and apostles These proved to be remnants of the church portal ordered from Constantinople by Desiderius in the eleventh century which marked the beginning of the grandiose reconstruction of the abbey and its church the latter to become a model for many other churches In order to solve the riddle of the doors of Monte Cassino Bloch has investigated other bronze doors of Byzantine origin in Italy and the doors of the great Italian master Oderisius of Benevento as well as those of S Clemente a Casauria and of the cathedral of Benevento Also included is a study of the political and cultural impact of Byzantium on Monte Cassino and a chapter on Constantinus Africanus Saracen turned monk one of the most interesting figures in the history of medieval medicine The text is sumptuously illustrated with 193 plates most of the more than 300 illustrations have never before been published This three volume work with its nine detailed indexes offers a wealth of information for scholars in many different fields *The Ecumenical Work of the Icon* Hilda Kleiman, 2018-09-27 The Ecumenical Work of the Icon is an invitation to the students and faculties of Catholic seminaries to be a part of the tradition of the icon through the lens of ecumenism With a view of ecumenism as lived in both the Roman Catholic and Orthodox traditions the visual theological language of the icon may be engaged more fully and respectfully thus enriching the theological education and future ministry of those who learn and teach in a Catholic setting In the third portion of the book readers are offered multiple practical pedagogical examples of how to integrate teaching and learning about the icon into seminary courses and beyond including writing assignments oral presentations and hands on activities **Recent Studies on the Image of Edessa** Mark Guscini, 2022-09-06 This volume presents the latest historical theological and site specific developments in the study of the Image of Edessa shedding new light onto various different aspects of the icon Experts from Russia Spain Australia Georgia Italy and the United Kingdom bring their latest findings together in order to reach a deeper understanding of this fascinating object **Mexican**
