The Alternative in Eastern Europe Rudolf Bahro, 2020-05-05 The contemporary Marxist writer provides analyses of socialist theory modern political struggle and socialist societies in Eastern Europe *East European Alternatives* Elemér Hankiss, 1990 This text asks whether Eastern European societies can escape from the grip of totalitarian domination and build up Western democratic systems The author describes recent events in Hungary and compares them with those in other East European countries before suggesting policies for the future *Socialist Alternative for Eastern Europe* Socialist Union of Central-Eastern Europe, 1960 **Socialist Alternative for Eastern Europe; Statement Adopted by the Conference of the Socialist Union of Central-Eastern Europe, Rome 20 & 21 October 1961. Alternative Globalizations James Mark, Artemy M. Kalinovsky, Steffi Marung, 2020-02-11 Globalization has become synonymous with the seemingly unfettered spread of capitalist multinationals but this focus on the West and western economies ignores the wide variety of globalizing projects that sprang up in the socialist world as a consequence of the end of the European empires This collection is the first to explore alternative forms of globalization across the socialist world during the Cold War Gathering the work of established and upcoming scholars of the Soviet Union Eastern Europe and China *Alternative Globalizations* addresses the new relationships and interconnections which emerged between a decolonizing world in the postwar period and an increasingly internationalist eastern bloc after the death of Stalin In many cases the legacies of these former globalizing impulses from the socialist world still exist today Divided into four sections the works gathered examine the economic political developmental and cultural aspects of this exchange In doing so the authors break new ground in exploring this understudied history of globalization and provide a multifaceted study of an increasing postwar interconnectedness across a socialist world Socialist Alternative for Eastern Europe J. Winnicki, Socialist Union of Central-Eastern Europe, Zygmunt Zaremba, 1959* *Alternative Spirituality, Counterculture, and European Rainbow Gatherings* Katri Ratia, 2023-03-17 This book explores the phenomenon of Rainbow Gatherings in Europe These countercultural events form radically alternative temporary societies in the peripheries of modern states and manage themselves without centralized power market economy or institutionalized forms of religion The volume offers a vivid description of life in the Gatherings analyses the main ideological tenets and places the meetings in historical and cultural context It considers how the Rainbow Gathering tradition is rooted in networks of alternative spirituality and environmental counterculture but also reflects broader shifts in religion and religiosity **Alternative Conventional Defense Postures In The European Theater** Hans G. Brauch, Robert F. Jr. Kennedy, 2018-10-24 First published in 1993 This volume edited jointly by the American strategic expert Robert Kennedy and the German peace researcher Hans Giinter Brauch takes up conceptual ideas developed by Horst Afheldt and Carl Friedrich von Weizsacker as well as others on both sides of the Atlantic

since the 1960s Our aim has been to contribute to the development of concepts that would reduce the danger of a third world war by the creation of more stable structures in the context of a defensively oriented conventional defense posture In this volume a variety of alternative approaches to European conventional defense driven for the most part by similar strategic considerations are presented by German and American experts to a larger international audience

The Alternative in Eastern Europe. Translated by David Fernbach Rudolf Bahro, 1978 *Ideologies of Eastness in Central and Eastern Europe* Tomasz Zarycki, 2014-03-21 This book explores how the countries of Eastern Europe which were formerly part of the Soviet bloc have since the end of communist rule developed a new ideology of their place in the world Drawing on post colonial theory and on identity discourses in the writings of local intelligentsia figures the book shows how people in these countries no longer think of themselves as part of the east and how they have invented new stereotypes of the countries to the east of them such as Ukraine and Belarus to which they see themselves as superior The book demonstrates how there are a whole range of ideologies of eastness how these have changed over time and how such ideologies impact in a practical way relations with countries further east
