Along The Roads Of The New Russia:

Along the Roads of the New Russia Hans Koning,1968 **Handbook for Northern Europe; Including Denmark, Norway, Sweden, Finland, and Russia. New Edition, Partly Re-written, and Corrected Throughout ... With Maps and Plans** John Murray (Firm),1849

Transottoman Matters Arkadiusz Blaszczyk,Robert Born,Florian Riedler,2021-12-06 This volume analyzes historical processes of mobility by focusing on material objects Mobility as a shorthand for various related processes such as migration transfer entanglement and translation involves human actors immaterial elements such as ideas and knowledge but also objects in various forms and functions For example as material infrastructures they are the basis for transport and travel as goods they are the object and purpose of trade or gift exchange By focusing on the way objects determined certain processes of mobility and how their social meaning and materiality was transformed in these processes the contributors hope to gain deeper insight into the historical relations between the Ottoman Empire Eastern Europe and Persia **Turizm** Anne E. Gorsuch,Diane P. Koenker,2018-09-05 In the Soviet Union and the eastern bloc the idea of vacation was never as uncomplicated as throwing some suitcases in the car and heading for the beach The emphasis was on individual self improvement within the framework of the collective an approach manifest in everything from the scheduling of physical exercise to the group tours organized for factory workers Party cadres and other segments of society Like other Soviet style utopian projects socialist tourism which was often heavily laden with rules and prescriptions was a consciousness raising project part of the vast effort to forge new socialist men and women Turizm is the first book to examine the history of tourism in Russia and eastern Europe from the tsarist period to the age of Soviet and east European mass tourism in the 1960s and 1970s The contributors to this volume address topics including the roots of socialist tourism the role of tourism in the making of nations and maintenance of empire and ways in which the men and women of the margins of Europe understood themselves in relation to Europe Especially interesting are chapters that show how individuals pursued their own consumerist goals within the framework of collective tourism obliging the regimes to adapt Illustrated with period photographs and promotional materials Turizm will appeal not only to historians of the region but also to anyone with an interest in consumer culture travel leisure and nation building **Energy Security along the New Silk Road** Anatole Boute,2019-06-13 The impact of the new Great Game on Central Asia s energy reforms illustrates the interconnection between law geopolitics and institutions **Road Safety Performance National Peer Review: Russian Federation** European Conference of Ministers of Transport,2006-04-21 This review examines why the Russian Federation has the highest road death rate of all ECMT member countries and what can be done about it **Russian Central Asia in the Works of Nikolai Karazin, 1842-1908** Elena Andreeva,2021-02-03 This book provides a deep reading of Nikolai Karazin s works and his relationship with Central Asia Elena Andreeva shows how Karazin s prolific creations have much to tell us about Russian imperialism colonial and local society as well as Russians self identity as colonizers and Europeans The work offers an

original contribution to the scholarship on Russian imperial history and that of Central Asia and Russian literary history also Karazin's importance at the time and now is appropriately highlighted Jeff Sahadeo Associate Professor Carleton University Canada Elena Andreeva's book resurrects a vital if forgotten figure from the Russian past Nikolai Karazin Russia's Kipling a multifaceted participant in Russian imperial expansion whose fiction journalism ethnography and visual representations may well have done more than any agent of the Russian state to represent and popularize Russia's conquest of Central Asia to a newly literate Russian public beyond the educated elites Archivaly based and carefully argued Andreeva's study of Karazin reveals the absence of any singular logic to Russian imperial expansion In her analysis Karazin emerges as a vernacular enthusiast of empire who was able to reconcile a skeptical attitude towards tsarist autocracy with an idealized view of Russia's civilizing mission in the East Harsha Ram Associate Professor University of California Berkeley USA This book is dedicated to the literary and visual images of Central Asia in the works of the popular Russian artist Nikolai Karazin It analyzes the ways Karazin's discourse inflected and was inflected by the expansion of the Russian empire and therefore sheds light on the place of art and culture in the Russian colonial enterprise It is the first attempt to interpret Karazin's images of Central Asia within Russian imperial networks and within the maze of the Russian national identity that informed them **The German Campaign in Russia** George E. Blau, 1988 *Prince Michael Vorontsov* Anthony L.H. Rhineland, 1990-07-01 In *Prince Michael Vorontsov* Anthony Rhineland describes Vorontsov's pragmatic approach within a bureaucracy of legendary inefficiency and corruption In New Russia Vorontsov dealt with problems such as famine and disease and helped to keep serfdom and religious persecution out of his territory In Caucasia he made the local administration more effective by appointing Caucasian officials who were far more sensitive to the area's particular problems than were their Russian predecessors In fact Vorontsov's Caucasian experience has relevance today it was recently suggested that present day Soviet officials might have avoided some difficulty when dealing with Afghan rebels had they employed Vorontsov's tactics in handling armed guerillas Rhineland whose extensive research included archival material available only in the Soviet Union has written the first serious work on Vorontsov in English *Prince Michael Vorontsov* will engage the interest and imagination of the general public and the historian **Ocean Highways**, 1874 **SIPRE Report**, 1971 **Soviet Military Aviation in Central Asia 1917-41** Vladimir Kotelnikov, 2024-05-30 The utilization of air power by the Communist regime in Russia during the revolutionary period and civil war to control its territories in Central Asia is an intriguing aspect of military history often overlooked in Western narratives The region which bordered Iran Afghanistan and China and included the ancient cities of Samarkand and Bukhara held strategic significance for both the Russian Empire and the subsequent USSR Attempts to impose Russian or communist ideologies on the indigenous tribal populations clashed with deeply rooted Islamic traditions leading to resistance movements such as the Basmachi uprising The Basmachi insurgency viewed as defenders of traditional tribal values by the local populace was perceived as mere banditry by the Russian and Soviet authorities Policing such vast

and challenging terrain where environmental conditions posed significant hazards alongside armed opposition necessitated innovative approaches. Consequently, the Soviets turned to air power as a means of controlling these remote regions. Despite inventive tactics, the aircraft employed by the Soviets in Central Asia during the interwar period were often outdated, worn out, or repurposed from other theaters of operation. This reliance on obsolete or marginal aircraft highlights the resource constraints faced by the Soviet military during this tumultuous period. *Soviet Military Aviation in Central Asia 1917-41* offers a detailed exploration of the interwar use of air power in Soviet Central Asia, drawing from Russian language sources and photographic archives. The book provides insights into the challenges faced by the Soviet military in maintaining control over the region, accompanied by rare photographs and unique color artworks depicting the aircraft utilized during this era. Through this lens, readers can gain a deeper understanding of the complexities of military strategy and conflict in Central Asia during the early twentieth century.
