Alpha The Myths Of Creation:

Alpha Charles H. Long, 1983 After discussing the nature of religion mythic and scientific modes of thinking and the general character of creation myths Charles Long interprets five major types of such myths creation from nothing emergence myths world parent myths creation from Chaos and from the cosmic egg and earth diver myths Original texts of creation myths from a wide range of cultures offer insights into the authentic ways of mythic thinking and expression *The World of Myth* David Adams Leeming, 1992-02-27 Hercules Zeus Thor Gilgamesh these are the figures that leap to mind when we think of myth But to David Leeming myths are more than stories of deities and fantastic beings from non Christian cultures Myth is at once the most particular and the most universal feature of civilization representing common concerns that each society voices in its own idiom Whether an Egyptian story of creation or the big bang theory of modern physics myth is metaphor mirroring our deepest sense of ourselves in relation to existence itself Now in *The World of Myth* Leeming provides a sweeping anthology of myths ranging from ancient Egypt and Greece to the Polynesian islands and modern science We read stories of great floods from the ancient Babylonians Hebrews Chinese and Mayans tales of apocalypse from India the Norse Christianity and modern science myths of the mother goddess from Native American Hopi culture and James Lovelock's Gaia Leeming has culled myths from Aztec Greek African Australian Aboriginal Japanese Moslem Hittite Celtic Chinese and Persian cultures offering one of the most wide ranging collections of what he calls the collective dreams of humanity More important he has organized these myths according to a number of themes comparing and contrasting how various societies have addressed similar concerns or have told similar stories In the section on dying gods for example both Odin and Jesus sacrifice themselves to renew the world each dying on a tree Such traditions he proposes may have their roots in societies of the distant past which would ritually sacrifice their kings to renew the tribe In *The World of Myth* David Leeming takes us on a journey not through a maze of falsehood but through a marvellous world of metaphor metaphor for the story of the relationship between the known and the unknown both around us and within us Fantastic tragic bizarre sometimes funny the myths he presents speak of the most fundamental human experience a part of what Joseph Campbell called the wonderful song of the soul's high adventure **The Theology of John Duns Scotus** Antonie Vos, 2018-03-20 In this volume Antonie Vos offers a comprehensive analysis of the philosophy and theological thought of John Duns Scotus First a summary is given of the life and times of John Duns Scotus his background and years in Oxford 1280-1301 his time in Paris and Cologne 1308-1309 and his year in exile in Oxford and Cambridge 1303-1304 From there on Scotus Trinitarian theology and Christology are introduced Duns not only embraced the doctrine of the Trinity he also proved that God must be Trinitarian by connecting the first Person with knowledge to the second One with will Further insights of Scotus are discussed such as the theory of Creation ethics justification and predestination and the sacraments The volume concludes with an overview of historical dilemmas in Scotus theological thought The Freedom of Man in Myth Kees W. Bolle, 2010-08-01 Myth is not a remote

subject restricted to the limited intellect of pre logical man The question What is man is an ancient one It is also a recent one still unanswered in the impasse of our sciences Wherever and whenever human beings are alive there are creators of myth among them Kees Bolle singles out one group as having the most significant say in the formation of myths the mystics who epitomize the common urge for a simplicity beyond the whirlpool of personal existences And surprisingly the author finds that the study of humor provides a great deal of insight into the study of religious traditions *Myth* Robert

Socken,1993 Socken analyzes the shape and direction of Poulin s creation narratives as they evolve in the novels and demonstrates their presence from the earliest quasi political *Un cheval pour mon royaume* to the highly introspective *Le Vieux Chagrin* The novels move from an outer directed concept of the lost paradise as a state to be attained beyond the self to a sense of the lost paradise as the kingdom within achievable first on the individual level as self knowledge and only afterwards on the social level Poulin introduces the theme of the soul and his personal concept of it as the soul for him is proof of the inner life that embodies the qualities of tranquility and tenderness associated with the lost paradise Lost paradise literature is universal and timeless Poulin s portrayal is placed in historical context so that his contribution to the genre can be fully appreciated Referring to studies by such critics as Mircea Eliade Northrop Frye Jerome S Bruner and Jack J

Cultural Understanding of Soils Nikola Patzel, Sabine Grunwald, Eric C. Brevik, Christian Feller, 2023-09-22 Cultural understandings of soil are diverse and often ambiguous Cultural framing of soils is common worldwide and is highly consequential The implications of what place the earth has in people's world view and everyday life can be in line with or in conflict with natural conditions with scientific views or with agricultural practices The main assumption underlying this work is that soil is inescapably perceived in a cultural context by any human This gives emergence to different significant webs of meaning influenced by religious spiritual or secular myths and by a wide range of beliefs values and ideas that people hold in all societies These patterns and their dynamics inform the human soil relationship and how soils are cared for protected or degraded Therefore there is need to deal inter culturally with different sources and types of knowledge and experience regarding soil a need to cultivate soil awareness and situationally appropriate care through inter and intra cultural dialogues and learning This project focuses on the human and intangible dimensions of soil To serve this aim the International Union of Soil Sciences IUSS founded a working group on Cultural Patterns of Soil Understanding that has resulted in this book which presents studies from almost all continents written by soil scientists and experts from other disciplines A major objective of this project is to promote intercultural literacy that gives readers the opportunity to appreciate soil across disciplinary and cultural boundaries in an increasingly globalized world
