Innis, 2022-08-03 Originally published in 1950 Harold A Innis s Empire and Communications is considered to be one of the classic works in media studies yet its origins have received little attention Ambitious in its scope the book spans five millennia tracing a path of development around the globe from 2900 BCE to the twentieth century and revealing the cyclical interplay between communications and power structures across space and time In this new edition

William J Buxton pays close attention to handwritten glosses that Innis added to a copy of the original edition and the revisions undertaken by his widow Mary Q Innis A new introduction provides a detailed account of how the book emerged from lectures that Innis delivered at Oxford University in 1948 as well as how it related to other presentations Innis made in Britain during the same period It explores how Innis sought to enrich his analysis by incorporating material related to phenomena such as war education religion culture geography and finance An insightful foreword by Marshall McLuhan is included as well as bibliographical references and a revised index By providing a narrative based on extensive notes from Innis this edition makes Empire and Communications more accessible and contributes to the broad efforts to shape Innis s legacy
