Austin,2018-03-09 A seasoned Zen practitioner and neurologist looks more deeply at mindfulness connecting it to our subconscious and to memory and creativity This is a book for readers who want to probe more deeply into mindfulness It goes beyond the casual once in awhile meditation in popular culture grounding mindfulness in daily practice Zen teachings and recent research in neuroscience In *Living Zen Remindfully* James Austin author of the groundbreaking *Zen and the Brain* describes authentic Zen training the commitment to a process of regular ongoing daily life practice This training process enables us to unlearn unfruitful habits develop more wholesome ones and lead a more genuinely creative life Austin shows that mindfulness can mean more than our being conscious of the immediate

now It can extend into the subconscious where most of our brain s activities take place invisibly Austin suggests ways that long term meditative training helps cultivate the hidden affirmative resource of our unconscious memory Remindfulness as Austin terms it can help us to adapt more effectively and to live more authentic lives Austin discusses different types of meditation meditation and problem solving and the meaning of enlightenment He addresses egocentrism self centeredness and allocentrism other centeredness and the blending of focal and global attention He explains the remarkable processes that encode store and retrieve our memories focusing on the covert helpful remindful processes incubating at subconscious levels And he considers the illuminating confluence of Zen clinical neurology and neuroscience Finally he describes an everyday life of living Zen drawing on the poetry of Basho the seventeenth century haiku master Reading Architecture with Freud and Lacan Lorens Holm,2022-09-30 Reading Architecture with Freud and Lacan Shadowing the Public Realm methodically outlines key concepts in psychoanalytic discourse by reading them against key modern and post modern architects It begins with what is arguably the central concept for each discipline by putting the unconscious in a dialectic relation to space Each subsequent chapter begins with a detail in architectural discourse a kind of provocation that anchors each excursion into the thought of Freud and Lacan The text is cyclical episodic and cloudlike rather than expository the intention is not simply to explain the concept of the unconscious but to different degrees perform it in the text The book offers powerful critiques of current planning practice which has no tools to address our attachment to places It concludes with powerful critiques of our incapacity to change the environmentally damaging ways we live our lives which is an effect of our incapacity to recognise the presence of the death drive in our nature The text is an extended thesis spanning the chapters that the field of the Other is the common grammar that organises subjects into civilisations which has consequences for how we treat the public realm in architecture politics and the city The field of the Other is a slightly different slice through the urban social world It shadows but does not correspond exactly to more familiar categories like private public inside outside figure ground or piazza boulevard Reading Architecture with Freud and Lacan will be an essential resource to anyone interested in how the environment we build is a reflection of our desire Psychoanalysis is one of the great humanist discourses of the 20th century and this book will be a valuable reference to the humanist in architects planners and social scientists whether they are students professionals or amateurs It will appeal to historians of the 20th century and to psychoanalysts and architects who are interested in how their respective discourses interdigitate with each other and with other discourses *American Diva* Deborah Paredez,2024-05-21 A Time Must Read Book of 2024 An impassioned homage to the divas who shake up our world and transform it with their bold dazzling artistry What does it mean to be a diva A shifting increasingly loaded term it has been used to both deride and celebrate charismatic and unapologetically fierce performers like Aretha Franklin Divine and the women of Labelle In this brilliant powerful blend of incisive criticism and electric memoir Deborah Paredez scholar cultural critic and lifelong diva devotee unravels our enduring fascination with these icons and
