## **Altared Ground Levinas History And Violence:**

**Altared Ground** Brian Schroeder, 2014-04-23 One of the most pressing concerns for contemporary society is the issue of violence and the factors that promote it In *Altared Ground Levinas History and Violence* Brian Schroeder stages an engagement between Emmanuel Levinas one of the leading figures in 20th century Continental philosophy and Plato Hegel Heidegger Nietzsche Merleau Ponty Derrida and others in the history of ideas Not merely an exposition of Levinas original and complex thinking Brian Schroeder seeks to re read the history of Western philosophy and religion by going beyond Levinas alternatives to traditional theories of the self in order to suggest a notion of subjectivity that is not grounded in violence

**Levinas, Messianism and Parody** Terence Holden, 2011-09-22 There is no greater testament to Emmanuel Levinas reputation as an enigmatic thinker than in his meditations on eschatology and its relevance for contemporary thought Levinas has come to be seen as a principal representative in Continental philosophy alongside the likes of Heidegger Benjamin Adorno and Žižek of a certain philosophical messianism differing from its religious counterpart in being formulated apparently without appeal to any dogmatic content To date however Levinas messianism has not received the same detailed attention as other aspects of his wide ranging ethical vision Terence Holden attempts to redress this imbalance tracing the evolution of the messianic idea across Levinas career emphasising the transformations or indeed displacements which this idea undergoes in taking on philosophical intelligibility He suggests that in order to crack the enigma which this idea represents we must consider not only the Jewish tradition from which Levinas draws inspiration but also Nietzsche who ostensibly would represent the greatest rival to the messianic idea in the history of philosophy with his notion of the parody of messianism

*The Fence and the Neighbor* Adam Zachary Newton, 2012-02-01 *The Fence and the Neighbor* traces the contours of two thinkers Emmanuel Levinas and Yeshayahu Leibowitz who crossed the divide between Talmud and philosophy proper Adam Zachary Newton shows how the question of nationalism that has so long haunted Western philosophy the question of who belongs within its fence and who outside has long been the concern of Jewish thought and its preoccupation with law limits and the place of Israel among the nations To those unfamiliar with Talmudic thought Newton shows how deeply its language and concerns shape Levinas He also offers an introduction to Leibowitz a conservative religious thinker who was an outspoken gadfly and radically critical voice in the Israeli political scene Together their common origin in Jewish Eastern Europe a common concern with national allegiance and the common fence of religious Judaism that makes them intellectual neighbors are voiced in penetrating and original dialogue

*Thinking through the Death of God* Lissa McCullough, Brian Schroeder, 2012-02-01 The leading exponent of the death of God theology of the 1960s Thomas J J Altizer created a media sensation at the time and defined a major new direction in philosophical theology Altizer has continued to refine his thought throughout his career and his systematic theological work has achieved its prime as shown in this collaborative critical response to his thought This book is also the first collection of its kind to appear in nearly thirty

years and thus the first to deal with the most sophisticated period of his work A response from Altizer is included along with a comprehensive bibliography of his work     The Palgrave Handbook of German Idealism and Existentialism Jon

Stewart,2020-08-25 This Handbook explores the complex relations between two great schools of continental philosophy German idealism and existentialism While the existentialists are commonly thought to have rejected idealism as overly abstract and neglectful of the concrete experience of the individual the chapters in this collection reveal that the German idealists in fact anticipated many key existentialist ideas A radically new vision of the history of continental philosophy is thereby established one that understands existentialism as a continuous development from German idealism Key Features Operates at both the macro level and micro level treating both the two schools of thought and the individual thinkers associated with them Explores the relations from shifting perspectives by examining how the German idealists anticipated existentialist themes and how the existentialists concretely drew on the work of the idealists Meticulously uncovers and documents many little known points of contact between the German idealists and the existentialists Includes often neglected figures such as Jacobi and Trendelenburg This Handbook is an essential resource for researchers and advanced students interested in thinking critically about the broad development of continental philosophy Moreover the individual chapters on specific philosophers contain a wealth of information that will compel experts in the field to reconsider their views on these figures     **Philosophy and Desire** Hugh J. Silverman,2014-04-23 Philosophy and Desire the seventh book in the well known

Continental Philosophy series examines questions of desire desire for another person desire for happiness desire for knowledge desire for a better world desire for the impossible desire in text desire in language and desire for desire itself The theme of desire is explored through readings of contemporary figures such as Merleau Ponty Bataille Sartre de Beauvoir Levinas Irigaray Barthes Derrida and Derrida A hot timely topic in philosophy today Expands the contemporary debates

**Power and Compassion** Bennett Gilbert,2025-10-22 This book presents a theory of the morality of human relations deeply drawn from widespread spiritual traditions offering an account of the full range of sociality that comprises our moral life Bennett Gilbert argues that the dynamic character of our choices and actions is developed as the center of philosophical inquiry into ethics Relying on the tradition of philosophical personalism the author reads moral life in terms of the central worth and value of human personhood This fully relational concept supports a picture of the clash and cooperation of two great moral forces power and compassion By combining hermeneutics first person philosophy moral philosophy and existential philosophy of history Power and Compassion is a philosophical exploration of the ways in which we use our moral force to create meaningfulness in our collective experience     *The Art of Time* Nina L Molinaro,2019-07-12 Ethics or the systematized set of inquiries and responses to the question what should I do has infused the history of human narrative for more than two centuries Academicians and journalists in Spain and abroad have recently fastened on an emerging cluster of peninsular writers who they argue pertain to a discernible literary generation provisionally referred to as Generaci n X This

book studies Levinas ethics and these contemporary Spanish writers who trace the temporal movement of alterity through narrative

**The Gift of Logos** David Jones, Michael Schwartz, Jason M. Wirth, 2009-12-14 The Continental tradition has always placed great emphasis on the Logos The Gift of Logos Essays in Continental Philosophy celebrates and situates this emphasis in the genre of the gift and its giving The process of receiving or giving of the gift overcomes the existential alienation and separation that is so present in the human condition To ritualize giving and its gifting is to provide a syntax of solidarity that bespeaks our desire for cohesion and need for identities beyond our own To give a gift is to befriend The gift of logos is more than a gift from the gods and goddesses it is an act of giving for those friends of wisdom for those philosophers who give to each other and to their worlds and receive the blessings of logos from each other The increasing objectification of human being has mobilized a regressive narcissism that shows the ego's reassertion in the light of the meaningless quantifying forces from without By not reflecting deeply enough upon its conditions of existence in the modern world and on its ordinary moments philosophy itself has not been immune from this besotted sense of self Although not an invective against thinking nor against modern and contemporary philosophy's genuine advances The Gift of Logos portends to shed the delusion that theoretical re-description is somehow the same as transforming who we are This transformation is our greatest gift to each other To give it voice is the gift of Logos and what this collection of essays commemorates

Contemporary Italian Philosophy, Text and Faith TEMPO Publishing, THIS BOOK presents several articles from a process of contemplation on God while keeping in mind the words of Raimon Panikkar a discourse on God is a discourse that inevitably only completes itself again in a new silence And so if the discourse is to continue which is unavoidable and moreover necessary and the new silence is not or has not yet been achieved this means one has to try to explore various other already existing contemplations on God and faith Even though I do not belong to the camp of those who accept Heidegger's the God of the philosophers I think philosophy is necessary to be employed here

*Japanese and Continental Philosophy* Bret W. Davis, Brian Schroeder, Jason M. Wirth, 2011-01-13 Recognizing the importance of the Kyoto School its influence on philosophy politics religion Asian studies this text seeks to initiate a conversation between Japanese Western philosophers

*Theology and the Dialogue of Religions* Michael Barnes, 2002-03-14 Theology of religions is an area of theological reflection on inter religious relations which raises fundamental questions for all people of faith in a pluralist post modern world How to practise a religious faith with integrity while respecting other claims to ultimate truth Must the other always be regarded as a problematic complication on the fringes of a Christianity centred world Is there a third way between an all dominating exclusivism and a vapid relativism This book contributes to the debate about the place of inter religious relations in the life of the Church by developing a theology of dialogue In offering a critique of much current thinking in this area Michael Barnes SJ proposes instead a theology rooted in the themes of welcome and hospitality He argues for a vision of Christianity as a school of faith a community called not just to teach others but to learn from them as well

**Music in the**

**Balkans** Jim Samson, 2013-06-15 This book asks how a study of many different musics in South East Europe can help us understand the construction of cultural traditions East and West It crosses boundaries of many kinds political cultural repertorial and disciplinary Above all it seeks to elucidate the relationship between politics and musical practice in a region whose art music has been all but written out of the European story and whose traditional music has been subject to appropriation by one ideology after another South East Europe with its mix of ethnicities and religions presents an exceptionally rich field of study in this respect The book will be of value to anyone interested in intersections between pre modern and modern cultures between empires and nations and between culture and politics **Islamism and**

**Post-Islamism in Iran** Yadullah Shahibzadeh, 2016-06-01 This book is a study of overlooked themes in Iran s contemporary political and intellectual history It investigates the way Iranian Muslim intellectuals have discussed politics and democracy As a history of Iranian Islamism and its transformation to post Islamism this work demonstrates that Muslim intellectuals have enriched the Iranian society epistemologically aesthetically ethically and politically This book examines the internal conflicts of the Islamist ideology as the intellectual underpinnings of the 1979 Revolution its contribution to the formation of the post revolutionary state and the post Islamist response to the democratic deficits of the post revolutionary state Seeking to overcome the shortcomings of historiographical approaches this book demonstrates the intellectual and political agency of Muslim intellectuals from the 1960s to the present F. C. Baur's Synthesis of Böhme and Hegel Corneliu Simut, 2014-10-16

In this book Professor Simu shows how Christian theology started to be understood as a Gnostic philosophy of religion in the thought of the 19th century scholar F C Baur Although Baur was seen traditionally as a theologian and biblical exegete Simu argues that he was in fact a philosopher of religion and it was his philosophical reading of Christian theology that informed his biblical preoccupations Specifically Baur s perspective on Christian theology was heavily influenced by Jakob Böhme s esoteric theosophy and Hegel s religious philosophy in some key issues such as creation Lucifer dualism and the connection between spirit and matter coupled with that between philosophy and religion **Between Nihilism and Politics** Silvia

Benso, Brian Schroeder, 2010-09-29 This is the first collection of essays in English that deals directly with the philosophy of Gianni Vattimo from a purely critical perspective further establishing his rightful place in contemporary European philosophy Vattimo who first came to prominence as the translator of Gadamer s Truth and Method into Italian is now considered to be more than a philosopher and prolific author As a former member of the European Parliament 1999 2004 he is also a public intellectual This book takes up his call to advance the crucial active and affirmative engagement with thinking and society More than just interpretations of Vattimo s thinking these essays are expressions of the new impetus given to hermeneutic philosophy by weak thought the term he coined for how we think now in the wake of Nietzsche Heidegger and Gadamer The development of Vattimo s thinking is reflected in the organization of the volume divided into three main parts Hermeneutics and Nihilism Metaphysics and Religion and Politics and Technology Celebrity, Pedophilia, and Ideology in American

Culture ,     **Cultures of Addiction** ,     **Studies in Law, Politics, and Society** Austin Sarat, 2008-12-22 Features a symposium on law and film as well as two articles of general interest This book addresses central questions in the operation of law and legal systems
