Progressive Library Organizations Alfred Kagan, 2015-04-09 This work presents the history and impact of the seven most important progressive library organizations worldwide in Austria Germany South Africa Sweden United Kingdom and two in the United States Each organization is considered within its national context and in fact the English word organization does not quite fit the nature of all of the groups The South African organization LIWO was transitional in that it helped bring South African librarianship from apartheid to majority rule and then disbanded The other organizations or their successors are still working in one form or another Some of the organizations have had or continue to have vibrant local chapters though many of the original activists have recently retired or died The author has interviewed many of them at a time when they were assessing their life work and handing off to new generations **Mixed Media** Simone Murray, 2004-02-20 The feminist press movement transformed the publishing industry literary culture and educational curricula during the last quarter of the 20th century This book is both a survey of the movement internationally and a detailed critique of its long term impact Feminist presses are described as mixed media always attempting to balance politics with profit making Using a series of detailed case studies Simone Murray highlights the specific debates through which this dilemma plays out the nature of independence the politics of race feminist publishing and the academy radical writing and publishing practice and feminism s interface with mainstream publishing *Dismantling the Public Sphere* John E. Buschman, 2003-08-30 This work presents a thorough examination of librarianship and the social and economic contexts in which the profession and its institutions operate As a basis of analysis Buschman employs critical education scholarship and the research of German philosopher Jurgen Habermas whose seminal work on the public sphere the arena in which the public organizes itself and formulates public opinion serves as a meta framework for Buschman s study of librarianship Buschman asserts that a significant shift has occurred from the library as a contributor to the public good to a model where economic rationality directs policy He challenges much of the current thinking and assumptions guiding libraries exploring the circumstances in which librarians

and libraries operate and linking the profession back to democratic and public purposes as the core essence of the field Chapters include Crisis Culture and the Need for a Defense of Librarianship in the Public Sphere The New Public Philosophy and Critical Educational Analysis The Public Sphere Rounding Out the Context of Librarianship Studies in Librarianship and the Dismantling of the Public Sphere Follow the Money Library Funding and Information Capitalism Follow the Leader Library Management and the New Public Philosophy On Customer Driven Librarianship Drifting Toward the Corporate Model ALA Notes on Postmodern Technology Technocracy and Libraries The Public Sphere and Democratic Possibility Highly recommended for courses in policy and librarianship as well as for academic and public library directors this work will also be of interest to theorists in the social sciences *Not in My Library!* Sanford Berman, 2013-08-14 Foreword by Mitch Freedman a reprinted Counterpoise interview and 45 of Sanford Berman's U L columns dealing with book burning genocide government secrecy and repression cataloging indexing classism self censorship and free speech for library staff et cetera Index by Chris Dodge **Alternative Library Literature, 1998/1999** James Philip Danky, Sanford Berman, James P. The Economics of the Mass Media Gillian Doyle, 2006 The study of the mass media has flourished over recent decades Whereas media and communications have traditionally been studied via the lens of sociology or other non economic disciplines the perspectives and frameworks offered by economics are now properly recognised as central to our understanding of the organization and behaviour of the mass media a fact reflected in this unique collection As more and more economists have turned their attention to media firms and industries a rich and diverse body of literature has emerged The articles drawn together in this volume present a survey of the papers that have contributed in important ways to this
