Altruism And Altruistic Love Science Philosophy And Religion In Dialogue:

Altruism & Altruistic Love Stephen Garrard Post, 2002 The concept of altruism or disinterested concern for another's welfare has been discussed by everyone from theologians to psychologists to biologists In this book evolutionary neurological developmental psychological social cultural and religious aspects of altruistic behavior are examined It is a collaborative examination of one of humanity's essential and defining characteristics by renowned researchers from various disciplines Their integrative dialogue illustrates that altruistic behavior is

Altruism & Altruistic Love, 2010 *Altruism and Altruistic Love* Stephen G. Post, Lynn G. Underwood, Jeffrey P. Schloss, William B. Hurlbut, 2002-03-28 The concept of altruism or disinterested concern for another's welfare has been discussed by everyone from theologians to psychologists to biologists In this cutting edge book evolutionary neurological developmental psychological social cultural and religious aspects of altruistic behavior are examined by renowned researchers The result is a collaborative and provocative look at one of humanity's essential and defining characteristics

Altruism & Altruistic Love, 2002 Publisher supplied data The concept of altruism or disinterested concern for another's welfare has been discussed by everyone from theologians to psychologists to biologists In this book evolutionary neurological developmental psychological social cultural and religious aspects of altruistic behavior are examined It is a collaborative examination of one of humanity's essential and defining characteristics by renowned researchers from various disciplines Their integrative dialogue illustrates that altruistic behavior is a significant mode of expression that can be studied by various scholarly methods and understood from a variety of perspectives in both the humanities and the sciences *Altruism and Altruistic Love* establishes a framework for scholarship on altruism by presenting definitions a historical overview a review of contemporary research and debates in various disciplines as well as a discussion of directions for future work

Character Strengths and Virtues Christopher Peterson, Martin E. P. Seligman, 2004 This groundbreaking handbook of character strengths and virtues is the first progress report from a prestigious group of researchers who have undertaken the systematic classification and measurement of widely valued positive traits *Character Strengths and Virtues* classifies twenty four specific strengths under six broad virtues that consistently emerge across history and culture This book demands the attention of anyone interested in psychology and what it can teach about the good life

Altruism in Cross-Cultural Perspective Douglas A. Vakoch, 2013-05-16 *Altruism in Cross Cultural Perspective* provides such a scholarly overview examining the intersection of culture and such topics as evolutionary accounts of altruism and the importance of altruism in ritual and religion The past decade has seen a proliferation of research on altruism made possible in part by significant funding from organizations such as the John Templeton Foundation While significant research has been conducted on biological social and individual dimensions of altruism there has been no attempt to provide an overview of the ways that altruistic behavior and attitudes vary across cultures The book addresses the methodological challenges of researching altruism across cultures as well as the ways that

altruism is manifest in difficult circumstances A particular strength of the book is its attention to multiple disciplinary approaches to understanding altruism with contributors from fields including psychology anthropology sociology biology communication philosophy religious studies gender studies and bioethics *The Science of Compassionate Love* Beverley Fehr, Susan Sprecher, Lynn G. Underwood, 2009-01-26 The Science of Compassionate Love is an interdisciplinary volume that presents cutting edge scholarship on the topics of altruism and compassionate love The book Adopts a social science approach to understanding compassionate love Emphasizes positive features of social interaction Encourages the appropriate expression of compassionate love both to those in intimate relationships and to strangers Includes articles by distinguished contributors from the fields of Psychology Sociology Communication Studies Family Studies Epidemiology Medicine and Nursing Is ideal for workshops on compassionate love Positive Psychology and creating constructive interactions between health professionals and patients Cultural Typologies of Love Victor Karandashev, 2022-09-01 This timely volume offers an integrative approach and a culturally diverse view of love conceptions experiences and expressions building on both individual and cultural typologies of love It comprehensively presents cultural and cross cultural studies on how culture affects love and offers a systematic description of types and cultural models of love The comprehensive reviews of methodology and findings provide a solid empirical basis for the creation of formal typologies This book will be useful for researchers interested in cross cultural studies of love across many disciplines Its accessible language also makes it ideal for undergraduate and graduate students Readers will gain a comprehensive understanding of Cultural conceptions of love and methods for their research Multiple perspectives in the studies of love across world cultures Cultural models and typologies in an international perspective Cultural models and typologies from an interdisciplinary scientific perspective The Oxford Handbook of Religion and Economic Ethics Albino Barrera, Roy C. Amore, 2024 This innovative collection of essays draws together and compares the teachings of world and regional religions on the subject of economic morality **Living L'Arche** Kevin Scott Reimer, 2009-01-01 Explores the origins and characteristics of compassionate love in those who care for the disabled **Miracles** Yujin Nagasawa, 2017 From a chicken nugget shaped like Jesus to Mohammad splitting the moon in two to a Japanese doll whose hair grows Yujin Nagasawa considers reported miracles in ancient scriptures and modern day life and uses cutting edge scientific research on belief formation to address some of our most fundamental questions concerning miracles The Moral Psychology Handbook John M. Doris, The Moral Psychology Research Group, 2010-06-10 The Moral Psychology Handbook offers a survey of contemporary moral psychology integrating evidence and argument from philosophy and the human sciences The chapters cover major issues in moral psychology including moral reasoning character moral emotion positive psychology moral rules the neural correlates of ethical judgment and the attribution of moral responsibility Each chapter is a collaborative effort written jointly by leading researchers in the field The Routledge Companion to the Study of Religion John Hinnells, 2009-09-10 The Routledge Companion to the Study of Religion is a major

resource for courses in Religious Studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues such as gender science fundamentalism ritual and new religious movements Written by renowned international specialists this new edition includes eight new chapters including post structuralism religion and economics religion and the environment religion and popular culture and sacred space surveys the history of religious studies and the key disciplinary approaches explains why the study of religion is relevant in today s world highlights contemporary issues such as globalization diaspora and politics includes annotated reading lists a glossary and summaries of key points to assist student learning

The Virtuous Physician James A. Marcum, 2012-01-02 Although modern medicine enjoys unprecedented success in providing excellent technical care many patients are dissatisfied with the poor quality of care or the unprofessional manner in which physicians sometimes deliver it Recently this patient dissatisfaction has led to quality of care and professionalism crises in medicine In this book the author proposes a notion of virtuous physician to address these crises He discusses the nature of the two crises and efforts by the medical profession to resolve them and then he briefly introduces the notion of virtuous physician and outlines its basic features Further virtue theory is discussed along with virtue ethics and virtue epistemology and specific virtues especially as they relate to medicine The author also explores the ontological priority of caring as the metaphysical virtue for grounding the notion of virtuous physician and two essential ontic virtues care and competence In addition to this he examines the transformation of competence into prudent wisdom and care into personal radical love to forge the compound virtue of prudent love which is sufficient for defining the virtuous physician Lastly two clinical case stories are reconstructed which illustrate the various virtues associated with medical practice and it is discussed how the notion of virtuous physician addresses the quality of care and professionalism crises

International Journal of Indian Psychology, Volume 6, Issue 1, (No. 2) IJIP.IN, 2018-07-23

Handbook of Religion and Spirituality in Social Work Practice and Research Sana Loue, 2017-06-19 This singular reference explores religion and spirituality as a vital though often misconstrued lens for building better understanding of and empathy with clients A diverse palette of faiths and traditions is compared and contrasted occasionally with secularism focusing on areas of belief that may inspire comfort or trouble clients including health and illness mental illness healing coping forgiveness family inclusion and death From assessment and intervention planning to conducting research these chapters guide professionals in supporting and assisting clients without minimizing or overstating their beliefs In addition the book s progression of ideas takes readers beyond the well known concept of cultural competence to model a larger and more meaningful cultural safety Among the topics included in the Handbook Integrating religion and spirituality into social work practice Cultural humility cultural safety and beyond new understandings and implications for social work Healing traditions religion spirituality and health Diagnosis religious spiritual experience or mental illness Understandings of dying death and mourning Re building bridges in and with family

and community Ethical issues in conducting research on religion and spirituality The Handbook of Religion and Spirituality in Social Work Practice and Research is a richly textured resource for social workers and mental health professionals engaged in clinical practice and or research seeking to gain varied perspectives on how the religion and spirituality of their clients research participants may inform their work

Saving America? Robert Wuthnow, 2009-11-06 On January 29 2001 President George W Bush signed an executive order creating the White House Office of Faith Based and Community Initiatives This action marked a key step toward institutionalizing an idea that emerged in the mid 1990s under the Clinton administration the transfer of some social programs from government control to religious organizations However despite an increasingly vocal ideologically charged national debate a debate centered on such questions as What are these organizations doing How well are they doing it Should they be supported with tax dollars solid answers have been few In Saving America Robert Wuthnow provides a wealth of up to date information whose absence until now has hindered the pursuit of answers Assembling and analyzing new evidence from research he and others have conducted he reveals what social support faith based agencies are capable of providing Among the many questions he addresses Are congregations effective vehicles for providing broad based social programs or are they best at supporting their own members How many local congregations have formal programs to assist needy families How much money do such programs represent How many specialized faith based service agencies are there and which are most effective Are religious organizations promoting trust love and compassion The answers that emerge demonstrate that American religion is helping needy families and that it is more broadly fostering civil society Yet religion alone cannot save America from the broad problems it faces in providing social services to those who need them most Elegantly written Saving America represents an authoritative and evenhanded benchmark of information for the current and the coming debate

Being Human: Relationships and You Knud S. Larsen, Reidar Ommundsen, Kees van der Veer, 2015-04-08 This book represents a new look at social psychology and relationships for the discerning reader and university student The title of the book argues forcefully that the very nature of being human is defined by our relationships with others our lovers family and our functional or dysfunctional interactions Written in easy to follow logical progression the volume covers all major topical areas of social psychology with results of empirical research of the most recent years included A common project between American and European social psychologists the book seeks to build a bridge between research findings in both regions of the world In doing so the interpretations of the research takes a critical stand toward dysfunction in modern societies and in particular the consequences of endless war and repression Including topics as varied as an overview of the theoretical domains of social psychology and recent research on morality justice and the law the book promises a stimulating introduction to contemporary views of what it means to be human A major emphasis of the book is the effect of culture in all major topical areas of social psychology including conceptions of the self attraction relationships and love social cognition attitude formation and behavior influences of group

membership social influence persuasion hostile images aggression and altruism and moral behavior **Psychology, Religion, and Spirituality** James M. Nelson, 2009-02-17 Over a century ago psychologists who were fascinated with religion began to study and write about it Theologians and religious practitioners have responded to this literature producing a fascinating dialogue that deals with our fundamental understandings about the human person and our place in the world This book provides an introduction to the important conversations that have developed out of these interchanges The dialogue between psychology and religion is difficult to study for a number of reasons First it requires knowledge of both psychology and religion People with a background in psychology often lack a solid understanding of the religious traditions they wish to study and theologians may not be up to date on the latest developments in psychology Second it requires conceptual tools to organize the material and understand the basic problems involved in any attempt to connect the science of psychology with religion These concepts can be found in many places for instance in the writings of philosophers of science but they are complex and often hard to follow for those without a proper theological and philosophical background Finally authors who write on the topic come to the study of psychology and religion from a variety of academic and personal backgrounds This makes for wonderful diversity in conversations but it makes understanding and mastery of the material quite difficult

Lovescapes, Mapping the Geography of Love Duncan S. Ferguson, 2012-12-06 *Lovescapes* introduces the reader to the various meanings and manifestations of love and its many cognates such as compassion caring altruism empathy and forgiveness It addresses how love and compassion have been understood in history and the religions of the world It goes on to explore the ways that our environments and heredity influence our capacity to love and suggests ways to cultivate love and compassion in one's life The book shows how the values of love and compassion are integral to finding humane solutions to the daunting problems we face as individuals as a human family and as an earth community a world in crisis *Lovescapes* has the following features Describing how love is the essence of the divine and therefore the ground of reality Understanding the meaning of love and its place in our lives Learning how love and compassion have been understood across history culture and tradition Gaining insight about how to increase our capacity to love and show compassion Discerning how love and compassion can be applied in all aspects of our lives in the regions where we live and in our global setting
