around family settlement and naturalization for migrants In this setting rapid urbanization in the late twentieth century along with a national push to reconcile work and family has shaped the growth of paid home care and cleaning service industries Many researchers focus on informal work settings where immigrant rights are restricted and many workers are undocumented or without permanent residence status Curington instead examines workers who have accessed citizenship or permanent residence status and also explores African women s experiences laboring in care and service industries in the formal market revealing how deeply colonial and intersectional logics of a racialized and international division of reproductive labor in Portugal render these women hyper invisible and hyper visible as appropriate workers in Lisbon

Becoming an Anthropologist Gerald Mars,2015-10-05 Mars graphic and often vivid narrative can be read simply as the anecdotal memoirs of an anthropologist The experiences he recounts are sometimes hilarious touch occasionally on the dangerous and are always sensitively and expertly explored But for those who want to know more the book s expansive footnotes and references to key sources also offer a stimulating introduction to social anthropology its theories and its methods Mars begins by describing his childhood life in a tightly structured working class community during World War Two He then contrasts this with an account of the hidden underlife of an entrepreneurial crime prone seaside resort Blackpool where he worked as a spieler barker Two years experience of National Service provides an account of the social organisation of the RAF followed by discussion of aspects of the organisation of Cambridge University What follows then is a lifetime spent living and working in different cultures around the world The results are continual insights gained by comparison and contrasts that illuminate aspects not only of other cultures but also of our own The Farmer's Magazine ,1844

L. Mencken,2025-03-02 In Prejudices Fifth Series H L Mencken delivers a provocative collection of essays that dissect the social and cultural mores of American society in the early 20th century Mencken s characteristic wit and acerbic style permeate these pieces where he ranges from critiques of contemporary literature and politics to incisive observations on the human condition This collection reflects his role as a social commentator and is marked by a blend of humor and cynicism effectively capturing the zeitgeist of an America caught between tradition and modernity while challenging prevailing norms with his signature iconoclasm H L Mencken often referred to as the Sage of Baltimore was a prominent journalist essayist and literary critic whose work frequently scrutinized American life His disdain for mediocrity and conventionality was influenced by his own encounters with the burgeoning cultural landscape of post World War I America Mencken s unique perspective cultivated through his experiences in both

journalism and literary critique allows him to provide an unflinching look at societal prejudices and contradictions in his works particularly in this series Readers seeking an insightful and entertaining critique of American culture will find Prejudices Fifth Series indispensable Menckens sharp prose encourages us to reflect on our own biases and the inconsistencies of society making this collection not only a historical artifact but also a timeless examination of the human condition Highly recommended for those interested in political and social commentary this book remains relevant in today s discourse
