**Emotional Antecedents and Consequences of Social Rejection** Richard Pond, John Terrizzi, Shanmukh V.

Kamble, 2023-10-24 Humans are social animals Our need to belong is a cross cultural human universal When our desire for social connection is frustrated we can suffer from a host of harmful psychological and physiological consequences As a result social rejection can be an extremely aversive experience that can be strategically employed to inflict harm punishment e g relational aggression Social rejection has both emotional antecedents and consequences That is social rejection can be elicited by emotions e g anger disgust etc within the rejecter and can evoke emotional reactions within the rejected e g anger sadness etc Thus the role that emotion plays in social rejection is not simple It is multifaceted Negative emotions such as anger and disgust can provoke social rejection and reciprocally they can evoke negative emotions in those who are socially rejected Positive emotions however may act as a buffer or shield that insulates us from the deleterious consequences of rejection Cumulated Index Medicus ,1989 **Popular Science** ,1989-11 Popular Science gives our readers the
