1980 Cuban Boatlift:

The 1980 Cuban Boatlift Alex Larzelere,1988 **The 1980 Cuban Boatlift** Alex Larzelere,2002-06 In the summer of 1980 more than 125 000 Cubans abandoned their homes and possessions and emigrated to the United States When what began as a stream of dissidents became a torrent of refugees the United States was caught short Cuban Premier Fidel Castro was able to use the 1980 exodus for his own political objectives and in the process overwhelmed U S immigration capacity In this definitive study of what happened during those six months of 1980 Captain Alex Larzelere U S Coast Guard Retired shows how Castro controlled the initiative forcing the United States into a reactive position Among the refugees he allowed to leave Cuba Castro included significant numbers of criminals spies and political prisoners thereby showing disregard for international rules regarding emigration The Carter administrations plan to deal with the crisis as the author points out came too late to be effective Anticipating that the United States may face a similar mass influx Larzelere argues for a new Migration Plan He offers a plan with four major points 1 rapid executive decisionmaking at levels lower than the White House 2 constructive direction from Washington to Federal agencies on the scene 3 a working immigration agreement with Cuba and 4 a controlled flow of refugees Larzeleres proposals are worth noting Castro could do it again the author warns Millions of Cubans would like to leave the island and approximately 200 000 already have Cuban government approval for emigration Armed with a comprehensive plan as suggested here the United States can remain a haven for freedom loving people while at the same time ensuring control of immigration Bradley C Hosmer Lieutenant General United States Air Force President National Defense University *Cuban Privilege* Susan Eckstein,2022-06-02 The first book to document the full range of entitlements granted to Cubans over other immigrants for more than half a century highlighting the racial and political biases embedded within US immigration policy A fascinating topical account of interest to policy makers and scholars of Latin America *Library of Congress Subject Headings* Library of Congress,Library of Congress. Greenhill,2011-06-23 At first glance the U S decision to escalate the war in Vietnam in the mid 1960s China s position on North Korea s nuclear program in the late 1990s and early 2000s and the EU resolution to lift what remained of the arms embargo against Libya in the mid 2000s would appear to share little in common Yet each of these seemingly unconnected and far reaching foreign policy decisions resulted at least in part from the exercise of a unique kind of coercion one predicated on the intentional creation manipulation and exploitation of real or threatened mass population movements In *Weapons of Mass Migration* Kelly M Greenhill offers the first systematic examination of this widely deployed but largely unrecognized instrument of state influence She shows both how often this unorthodox brand of coercion has been attempted more than fifty times in the last half century and how successful it has been well over half the time She also tackles the questions of who employs this policy tool to what ends and how and why it ever works Coercers aim to affect target states behavior by exploiting the existence of competing political interests and groups Greenhill argues and by manipulating the costs or risks imposed on target state populations This coercion by punishment strategy can be effected in two ways the first relies on straightforward threats to overwhelm a target s capacity to accommodate a refugee or migrant influx the second on a kind of norms enhanced political blackmail that exploits the existence of legal and normative commitments to those fleeing violence persecution or privation The theory is further illustrated and tested in a variety of case studies from Europe East Asia and North America To help potential targets better respond to and protect themselves against this kind of unconventional predation *Weapons of Mass Migration* also offers practicable policy recommendations for scholars government officials and anyone concerned about the true victims of this kind of coercion the displaced themselves
