Clare already knows that Camilo likes to dance and drink. He likes women and too many women like him. Though his courage is legendary when he comes to visit Clare at night, he's afraid of his daughter's moods. Clare worries that he'll never make a good parent, but she cannot resist him. *Absent Environments* Andreas

Philippopoulos-Mihalopoulos, 2007-06-27 Offering a novel transdisciplinary approach to environmental law, its principles, mechanics, and context as tested in its application to the urban environment, this book traces the conceptual and material absence of communication between the human and the natural and controversially includes such an absence within a system of law and a system of geography which effectively remain closed to environmental considerations. The book looks at Niklas Luhmann's theory of autopoiesis. Introducing the key concepts and operations, contextualizing them and opening them up to critical analysis. Indeed, in contrast to most discussions on autopoiesis, it proposes a radically different reading of the theory in line with critical legal, political, sociological, urban, and ecological theories while drawing from writings by Husserl and Derrida as well as Latour, Blanchot, Haraway, Agamben, and Nancy. It explores a range of topics in the areas of environmental law and urban geography, including environmental risk, environmental rights, the precautionary principle, intergenerational equity, and urban waste. Discourses on community, nature, science, and identity. The author redefines the traditional foundations of environmental law and urban geography and suggests a radical way of dealing with scientific ignorance, cultural differences, and environmental degradation within the perceived need for legal delivery of certainty.
