Armada Invencible:

England's Sea Empire, 1550-1642 David B. Quinn, A N Ryan, 2023-08-11 First published in 1983 England's Sea Empire was originally part of the Early Modern Europe Today book series It explores the relationships between the increase of English merchant shipping the growth of naval power and the early experiments in overseas trade and colonisation No other book combines these topics for the period from the middle of the 16th to the middle of the 17th century In dealing with economic strategic and technical problems the authors write in language which is intelligible to non specialist readers They illustrate the arguments with generous quotations from contemporary sources and with maps of the regions under discussion This book will be of value on undergraduate courses in early British or colonial or maritime history **"A" History from the Earliest Time to the Present** William Laird Clowes, 1897 Comisión de Antigüedades de la Real Academia de la Historia Jiménez Díez Jiménez, Alfredo Mederos, Real Academia de la Historia (Spain). Gabinete de Antigüedades, 2001

Panorama Histórico Forestal de Puerto Rico Carlos Domínguez Cristóbal, 2000 An investigation into government forestry policies in Puerto Rico and how these have impacted on the condition of the country's forests *The Image of Elizabeth I in Early Modern Spain* Eduardo Olid Guerrero, Esther Fernández, 2019-03 Queen Elizabeth I was an iconic figure in England during her reign with many contemporary English portraits and literary works extolling her virtue and political acumen In Spain however her image was markedly different While few Spanish fictional or historical writings focus primarily on Elizabeth numerous works either allude to her or incorporate her as a character The Image of Elizabeth I in Early Modern Spain explores the fictionalized historical and visual representations of Elizabeth I and their impact on the Spanish collective imagination Drawing on works by Miguel de Cervantes Lope de Vega Pedro de Ribadeneira Luis de Góngora Cristóbal de Virués Antonio Coello and Calderón de la Barca among others the contributors to this volume limn contradictory assessments of Elizabeth's physical appearance private life personality and reign In doing so they articulate the various and sometimes conflicting ways in which the Tudor monarch became both the primary figure in English propaganda efforts against Spain and a central part of the Spanish political agenda This edited volume revives and questions the image of Elizabeth I in early modern Spain as a means of exploring how the queen's persona as mediated by its Spanish reception has shaped the ways in which we understand Anglo-Spanish relations during a critical era for both kingdoms Naval War College Review Naval War College (U.S.), 1983 *England and the North* Maija Jansson, N. M. Rogozhin, 1994 Aleksei Ziuzin's embassy to London in November 1613 added a new dimension to James I's schemes for an alliance with the Protestant kingdoms of the north Editors Jansson Bushkovitch and Rogozhin have divided their study into 3 sections a long historical introduction Ziuzin's account of the embassy and appendices The introduction analyzes England's later 16th and early 17th century relations with Denmark Poland the Empire Sweden and Russia By treating relations with Russia as integral to English foreign policy the work challenges the usual linking of English interests with that of the Muscovy Company of English merchants For the first

time documents heretofore inaccessible in the West are made available in English translation producing a valuable addition to English and Russian history Now scholars can begin to understand Russian political objectives in conjunction with English foreign policy aims in the early 17th century Besides appendices of correspondence the book includes extensive notes brief introductory essays by V I Buganov and N Rogozhin and a select bibliography Under the Direction of Victor Buganov Institute of the History of Russia

speaking world All chapters are part analytical and part descriptive and can be read in any order Book jacket **War and Society in Habsburg Spain** I.A.A. Thompson, 2024-10-28 The historical study of war in the Spain of Philip II forms the starting point for the articles in this volume They approach this not so much from a military angle but as a problem of organization procurement and finance In a sense the articles represent an assessment of the effectiveness of the Spanish government and so given the apparent precocity of government growth in 16th century Spain they can also be seen as a critical commentary on the operational capabilities of the early modern absolutist state Six of the essays here focus on the Spanish Armada in terms of its political and military objectives but demonstrating how these were conditioned by basic systems limitations not least in the procurement of suitable cannon In the final articles Dr Thompson turns to the impact of war and its financing on the social structure bearing in particular on the definition of nobility and its sale and on local democracy and making full use here as elsewhere of the relatively unexplored local sources Two of the papers here appear for the first time in English whilst a third has been newly prepared for this volume L tude historique de la guerre sous Philippe II roi d Espagne est la base des articles contenus dans le pr sent recueil Ceci est abord non tant sous l angle militaire mais comme un probl me d organisation d acquisition de mat riel et de financement En un certain sens ces documents repr sentent une valuation de l efficacit du gouvernement espagnol et peuvent par cons quent tant donn e l apparente pr cocit de la croissance gouvernementale en Espagne au 16 si cle tre consid r s comme un commentaire critique quant aux capacit s op rationnelles de l Etat absolu proto moderne Une demi douzaine des essais font l examen de l Armada espagnole en terme d objectifs politiques et militaires tout en d montrant comment ces derniers taient conditionn s par des contraintes structurales A Short History of the Royal Navy, 1217-1815 David Hannay, 1898 *The Military Revolution and the Trajectory of Spain: War, State and Society 1500-1700* I.A.A. Thompson, 2020-12-21 I A A Thompson Emeritus Fellow of the Royal Historical Society is the author of War and Government in Habsburg Spain a seminal study of the impact of war on the development of the state in Spain in the 16th and 17th centuries In this volume he reprints for an English readership ten essays examining the implications for government the financial system and Spain s position in Europe of the fundamental changes in the art and practice of war both on land and at sea that took place during this period This Military Revolution has been one of the most contentious debates among historians for the last fifty years but little attention has so far been paid to Spain itself despite her predominance in Europe for much of the period These essays are designed to correct that omission and to assist in a fuller understanding both of the Military Revolution and of the strengths and weaknesses of the Spanish state **The Edinburgh Review** , 1895 Syllabi for the Academic Years ... American Society for the Extension of University Teaching, 1895 **Pastoral Care and Monasticism in Latin Christianity and Japanese Buddhism (ca. 800-1650)** Gert Melville, Toshio Ōnuki, Yuichi Akae, Kazuhisa Takeda, LIT Verlag, 2024-01-01 Monasticism has a special position in the history of pastoral care It produced innovations in various aspects of pastoral care despite or more precisely

because of its isolation in legal or social terms from the secular world The thirteen papers contained in this volume will reveal that there was a great variety in the ways pastoral care continued to be practised by monasticism depending on time space and the nature of each religious order Adopting a comparative approach their historical and geographical range of investigation is not limited to medieval Europe but expands to the Americas and even to Japan in the early Modern Age This volume bases on a conference held on 1 and 2 March 2019 at Okayama University Japan as part of the close collaboration between a Japanese research group on Christian Buddhist religious movements and the Research Project Monasteries in the High Middle Ages Innovation Laboratories for European Life Designs and Regulatory Models of the Saxon and the Heidelberg Academies of Sciences and Humanities as well as the Research Center for Comparative History of Religious Orders FOVOG Dresden
