Excerpt from Practical Directions for Armature and Field Magnet Winding The winding of a dynamo or motor is a matter of some difficulty as all students of Electricity have discovered hence many attempts otherwise successful have ended here in failure and discouragement The importance then of knowing how to wind a machine properly can be seen at once The standard works on Electricity contain very little practical information on this subject The reason for this lack of information probably is the fact that the art of winding was to a great extent theoretical until a very recent date At present although not absolutely perfect electrical knowledge has reached a more scientific basis By following certain rules one may wind a machine to obtain almost any result desired In this treatise theories have not been deeply entered into the information being more of a practical character It is thus adapted to the use of beginners and to the more advanced student Illustrations have been used wherever necessary to make the text clear to the mind of the reader About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
