Around The World In 52 Words:

A Common Word Miroslav Volf, Prince Ghazi bin Muhammad bin Talal, Mellisa Yarrington, 2009-12-30 In late 2007 Muslim leaders from around the world together issued in the pages of The New York Times an open letter to Christian leaders inviting cooperation as a step toward peace That letter A Common Word between Us and You acknowledged real differences between the two faiths but nonetheless contended that righteousness and good works should be the only areas in which they compete The 138 signatories included over a dozen grand muftis an ayatollah and a Jordanian prince and the document was widely considered a groundbreaking step toward reconciliation between Islam and Christianity two major religions with a great deal in common That original letter and a collaborative Christian response Loving God and Neighbor Together both appear in this remarkable volume Building on those original momentous documents A Common Word further includes subsequent commentary and dialogue between Muslim and Christian scholars addressing critical and frequently asked questions All in all this eventful book encapsulates a brave and encouraging move toward harmony and accord between two world religions so often seen to be at odds

The Interruptive Word R. David Nelson, 2013-07-25 While German Lutheran theologian Eberhard J ngel 1934 has made a number of significant contributions to contemporaneous discussions of

sacramental theology this topic has largely been ignored by interpreters of his thought This study summarizes and evaluates through a close reading of primary and secondary source materials J ngel s approach to the problem of sacrament R David Nelson considers J ngel s claim that the word of God functions sacramentally as it addresses its hearer and analyses his assertion that Jesus Christ is the unique and preeminent sacrament of God for the world Progressing to an exploration of J ngel s ecclesiology Nelson reveals J ngel s interesting approach to the question of the church s sacramentality The volume concludes with an investigation into J ngel s doctrines of baptism and the Lord s Supper The Interruptive Word demonstrates that J ngel consistently appeals to the category of interruption for describing God s sacramental relation to the world and its actualities concluding that the hegemony of the category of interruption in J ngel s theology of sacrament raises important questions concerning its coherence and tenability

Vallega,2010-11 As the only full length treatment in English of spatiality in Martin Heidegger s work this book makes an important contribution to Heidegger studies as well as to research on the history of philosophy More generally it advances our understanding of philosophy in terms of its exilic character a sense of alterity that becomes apparent when one fully engages the temporality or finitude essential to conceptual determinations By focusing on Heidegger s treatment of the classical difficulty of giving conceptual articulation to spatiality the author discusses how Heidegger s thought is caught up in and enacts the temporality it uncovers in *Being and Time* and in his later writings Ultimately when understood in this manner thought is an exilic experience a determination of being that in each case comes

to pass in a loss of first principles and origins and simultaneously as an opening to conceptual figurations yet to come The discussion engages such main historical figures as Plato Aristotle Descartes Kant and indirectly Husserl as well as contemporary European and American Continental thought **Unfoldings of the Word of Truth.
