Current Catalog National Library of Medicine (U.S.),1980 First multi year cumulation covers six years 1965 70 **The Role of IMF Arrangements in Restoring Access to International Capital Markets** Joseph Kogan,Romina Kazandjian,Shijia Luo,Moustapha Mbohou,Hui Miao,2024-08-09 Using a database of emerging market fundamentals and bond index spreads across 56 frontier and emerging market countries rated below investment grade during the period 2002 22 we assess whether IMF arrangements can restore access to international capital markets ICM for countries in distress through liquidity and conditionality channels We find that global financial conditions and debt GDP are the most important determinants of access to ICM within the horizon of a typical IMF arrangement Using an event study methodology we show that spreads increase prior to the start of an IMF arrangement and then decrease gradually By exploiting different characteristics of IMF arrangements we find evidence that the reforms implemented under the IMF arrangement as measured by rounds of successful IMF reviews matter more in the medium term than the IMF s role as a liquidity provider These results are consistent with our analysis of 55 credit rating upgrades to ICM access levels which suggests that debt reduction plays the largest role and that IMF arrangements lend credibility to reforms **National Library of Medicine**

Current Catalog National Library of Medicine (U.S.), *Literature's Elsewheres* Annette Gilbert,2022-04-05 An examination of a series of diverse radical and experimental international works from the 1950s to the present What is a literary work In Literature s Elsewheres Annette Gilbert tackles this question by deploying an extended concept of literature examining a series of diverse radical experimental works from the 1950s to the present that occupy the liminal zone between art and literature These works by American Artist Allison Parrish Natalie Czech Stephanie Syjuco Fiona Banner Elfriede Jelinek Dan Graham Robert Barry George Brecht and others represent a pluralized literary practice that imagines a different literature emerging from its elsewheres Investigating a work s coming into being its transition from text to work as a social object and pragmatic category of literary communication Gilbert probes the assumptions and foundations that underpin literature including the ideologies and power structures that prop it up She offers a snapshot from a period of recent literary and art history when such central concepts as originality and authorship were questioned and experimental literary practices ranged from concrete poetry and Oulipo to conceptual writing and appropriation literature She examines works that are dematerialized site specific unique copies of other works and institutional critiques Considering the inequalities exclusions and privileges inscribed in literature she documents the power of experimental literature to attack these norms and challenges the field s canonical geographic boundaries by examining artists with roots in North and South America East Asia and Western and Eastern Europe The cross pollination of literary and art criticism enriches both fields With Literature s Elsewheres Gilbert explores what art can t see about the literary and what literature has overlooked in the arts **Topics in Hyperplane Arrangements** Marcelo Aguiar,Swapneel Mahajan,2017-11-22 This monograph studies the interplay between

various algebraic geometric and combinatorial aspects of real hyperplane arrangements. It provides a careful organized and unified treatment of several recent developments in the field and brings forth many new ideas and results. It has two parts each divided into eight chapters and five appendices with background material. Part I gives a detailed discussion on faces, flats, chambers, cones, gallery intervals, lunes, and other geometric notions associated with arrangements. The Tits monoid plays a central role. Another important object is the category of lunes which generalizes the classical associative operad. Also discussed are the descent and lune identities, distance functions on chambers, and the combinatorics of the braid arrangement and related examples. Part II studies the structure and representation theory of the Tits algebra of an arrangement. It gives a detailed analysis of idempotents and Peirce decompositions and connects them to the classical theory of Eulerian idempotents. It introduces the space of Lie elements of an arrangement which generalizes the classical Lie operad. This space is the last nonzero power of the radical of the Tits algebra. It is also the socle of the left ideal of chambers and of the right ideal of Zie elements. Zie elements generalize the classical Lie idempotents. They include Dynkin elements associated to generic half spaces which generalize the classical Dynkin idempotent. Another important object is the lune incidence algebra which marks the beginning of noncommutative Möbius theory. These ideas are also brought upon the study of the Solomon descent algebra. The monograph is written with clarity and in sufficient detail to make it accessible to graduate students. It can also serve as a useful reference to experts.

The Westminster Dictionary of New Testament and Early Christian Literature and Rhetoric David Edward Aune, 2003-01-01 The Westminster Dictionary of New Testament and Early Christian Literature and Rhetoric details the variety of literary and rhetorical forms found in the New Testament and in the literature of the early Christian church. This authoritative reference source is a treasury for understanding the methods employed by New Testament and early Christian writers. Aune's extensive study will be of immense value to scholars and all those interested in the ways literary and rhetorical forms were used and how they functioned in the early Christian world. This unique and encyclopedic study will serve generations of scholars and students by illuminating the ways words shaped the consciousness of those who encountered Christian teachings.

Fox,2022-07-27 Between the 1880s and the 1940s opportunities for southern white women writers increased dramatically bolstered by readers demands for southern stories in northern periodicals Confined by magazine requirements and social expectations writers often relied on regional settings and tropes to attract publishers and readers before publishing work in a collection Selecting and ordering magazine stories for these collections was not arbitrary or dictated by editors despite a male dominated publishing industry Instead it allowed writers to privilege stories or to contextualize a story by its proximity to other tales as a form of social commentary For Kate Chopin Ellen Glasgow Marjorie Kinnan Rawlings and Katherine Anne Porter the authors featured in this book publishing a volume of stories enabled them to construct a narrative framework of their own Arranging Stories Framing Social Commentary in Short Story Collections by Southern Women Writers is as much about how stories are constructed as how they are told The book examines correspondence manuscripts periodicals and first editions of collections Each collection s textual history serves as a case study for changes in the periodical marketplace and demonstrates how writers negotiated this marketplace to publish stories and garner readership The book also includes four tables featuring collected stories arrangements and publication histories and twenty five illustrations featuring periodical publications unpublished letters and manuscript fragments obtained from nine on site and digital archives Short story collections guide readers through a spatial experience in which both individual stories and the ordering of those stories become a framework for interpreting meaning Arranging Stories invites readings that complicate how we engage collected works
