The Crowd: A Study of the Popular Mind Gustave Le Bon, 2020-01-14 One of the most influential works of social psychology in history The Crowd was highly instrumental in creating this field of study by analyzing in detail mass behavior The work is devoted to an account of the characteristics of crowds The whole of the common characteristics with which heredity endows the individuals of a race constitute the genius of the race When however a certain number of these individuals are gathered together in a crowd for purposes of action observation proves that from the mere fact of their being assembled there result certain new psychological characteristics which are added to the racial characteristics and differ from them at times to a very considerable degree Although the volume focuses on crowd psychology it is also brilliantly instructive on the effects of the generally accepted beliefs of a nation's citizenry on the processes of history Among the topics covered here are general characteristics and mental unity of the crowd the crowd's sentiments and morality its ideas reasoning power and imagination opinions and beliefs of crowds and the means used by leaders to persuade classification of crowds including criminal and electrical assemblages as well as the functioning of criminal juries and parliamentary assemblies

The Vietnamese War David Elliott, 2016-04-15 A monumental work of research and analysis this is a history of the Vietnam War in a single province of the Mekong Delta over the period 1930-1975 More precisely it is a study of the Vietnamese dimension of the Vietnam War focusing on the revolutionary movement that became popularly known as the Viet Cong There are several distinctive features to this study 1 it provides an explanation for the paradox of why the revolutionary movement was so successful during the war but unable to meet the challenges of postwar developments 2 it challenges the dominant theme of contemporary political analysis which assumes that people are rational actors responding to events with careful calculations of self interest 3 it closely examines province level documentation that casts light on a number of important historical controversies about the war No other history of the Vietnam War has drawn on such a depth of documentation especially firsthand accounts that allow the Vietnamese participants to speak directly to us

Earthly Signs Marina Tsvetaeva, 2017-12-05 A moving collection of autobiographical essays from a Russian poet and refugee of the Bolshevik Revolution Marina Tsvetaeva ranks with Anna Akhmatova Osip Mandelstam and Boris Pasternak as one of Russia's greatest twentieth century poets Her suicide at the age of forty eight was the tragic culmination of a life buffeted by political upheaval The essays collected in this volume are based on diaries she kept during the turbulent years of the Revolution and Civil War In them she records conversations of women in the markets soldiers and peasants on the train traveling from the Crimea to Moscow in October 1917 fighting in the streets of Moscow a frantic scramble with co workers to dig frozen potatoes out of a cellar and poetry readings organized by a newly minted Soviet bohemia Alone in Moscow with two small children no income and a missing husband Tsvetaeva struggled to feed her daughters one of whom died of malnutrition in an orphanage find employment in the Soviet bureaucracy and keep writing

poetry Her keen and ruthless eye observes with compassion and humor bringing the social economic and cultural chaos of the period to life These autobiographical writings not only give a vivid eyewitness account of Russian history but provide vital insights into the workings of Tsvetaeva's unique poetics Includes black and white photographs **Psychology of Crowds** Gustave le Bon, 2014-06-11 In this clear and vivid book Gustave Le Bon throws light on the unconscious irrational workings of group thought and mass emotion as he places crowd ideology in opposition to free thinking and independent minded individuals The ideas le Bon explores in this book are extremely relevant to today's society and were of pivotal importance in the early years of group psychology Applications include financial market behaviour and political delusions The Sparkling Books edition has been annotated and edited based on the 1907 Alcan edition and previous translations *Chris van Wyk - Irascible Genius* Kevin van Wyk, 2024-07-01 When he died in 2014 author Chris van Wyk left behind an impressive literary legacy The scope of his work was broad poetry children's books short stories and biographies But perhaps he is best remembered for his memoir Shirley Goodness Mercy which chronicles his growing up in Riverlea and introduces us to the colourful characters who helped to shape his life and inform the stories he wrote The public persona of this witty and wise raconteur was well known but behind it was a family man who liked nothing better than to spend time with his two sons Kevin and Karl his wife and childhood sweetheart Kathy and the friends and family who were his primary sources of inspiration Using the unique vantage point of oldest son Kevin van Wyk's astute observations of his father and the strong bond they enjoyed throughout Chris's life have resulted in a memoir that is as affectionate as it is entertaining In taking us behind the scenes into the Van Wyk household we witness the inner workings of the mind of a storyteller from the flowering of his father's activism wit and wisdom to the sources of his occasional quirky outbursts If storytelling runs in the genes Kevin may just be proof that his father's spirit lives on The Crowd Gustave Le Bon, 2023-07-01 The world of the 18th and 19th centuries had been wracked by change and revolution Gustave Le Bon a doctor by trade but wandering philosopher by avocation was a first hand witness to one such revolution the establishment of the Paris Commune in 1871 in which a crowd of mutinous National Guardsmen seized the city and established a socialist government for two brief months in what Engels called one of the first examples of a dictatorship of the proletariat After that revolution Le Bon left to travel the world developing his theories on the psychology of crowds The Crowd is his distillation of that philosophy and one of the earliest treatises exploring the behavior and motivations of crowds of people In it Le Bon posits that with the rise of democracy and industrialization it's the unreasoning crowds who will control the affairs of the people not kings or the elite and these crowds are largely irrational in action conservative in thought violent both in act and in speech and easily hypnotized by individuals with prestige but not intelligence Le Bon is ultimately cynical in how he views this development in human affairs Individuals in crowds feel anonymous and powerful leading to destruction and violence and the susceptibility of crowds to pure charisma means that they're easily dominated by thuggish men of action not wise men of foresight People in a crowd are a grain of

sand amid other grains of sand which the wind stirs up at will His conclusion is that the increasing relevance and power of crowds in modern society will lead to negative outcomes in the long term In his view democracy can only lead to more and more violent crowds who demand charismatic figureheads to give them meaning As one of the earliest examples of the study of crowd psychology *The Crowd* was a direct influence on many titanic figures in 20th century history including Theodore Roosevelt Freud Mussolini Lenin and Hitler
